## IMPEACHMENT! A Majority of the Judiciary Committee Report in favor of Impeaching the President!

The Judiciary Committee of the House of Representatives at Washington, to which were referred the charges against President Johnson, has reported in favor of impeachment! The Committee is composed of nine members, seven Radicals and two Democrats. Until lately three of the Radical members of the committee, opposed impeachment, and with the help of the two Democrats, formed an antiimpeachment majority.
