MEETING OF COUNTY AUDITORS. -On Monday last, the County Auditors met for the purpose of auditing and settling the accounts of the County Treasurer and Treasurer of the Poor House, for the fiscal year which has just closed. We hope that a full and complete statement of the receipts, and expenditures, properly itemized, will be furnished for publication. This, we are glad to say, has generally been delight. done with respect to the accounts of the County Treasurer, but has not always been done with respect to the affairs of the Poor House. Sometimes the Auditors, or Directors, have been seized with a sudden spasm of "retrenchment," and in order to save a few dollars' worth of advertising, have so curtailed their report that but little satisfaction could be gleaned from it. We say, don't be so much afraid of printers' ink !-Make your report full and thorough, and if any thing has gone wrong, the twenty-five hundred readers of the county papers will, in all probability, detect it, and then it can be righted in time, instead of resting uncorrected for years and years. The niggardly spirit that stops to count the expense of publishing a full report, whilst it "saves at the spigot, is sure to spill at the bung."

PATHETIC.-We heard a half-barefooted urchin, who wears out a pair of shoes per week, singing the following pathetic ditty, the other day :

Oh. father, dear father, do please hurry home, My confidence no more abuse. You've promised again and again when you came, You would bring me a new pair of shoes, My big toe sticks out like the head of a clam And yon of neglect doth accuse. Because you have failed to do as you said, And bring home my new pair of shoes. My confidence no more abuse,

It is not very oft that a favor I ask,

And this you cannot refuse, For you know that it costs but a very small sum To purchase a new pair of shoes, Then hurry, dear father, do, pray, hurry home,

No more of your precious time lose, Oh, think of the cold, of your child and his toes, And, pray, hurry home with the shoes.

Now, if that delinquent "parient" wants to shut down on that song and which is now under the Principalship shut up on the toes of his pleading child, let him call at Irvine and Statler's and get him a pair of those everlasting shoes which they sell so low for cash, or produce. nary.

maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while 8.00(@9.00 that of many eastern roads is over one hundred.

Work in the rock-cuttings on the western slope will continue through the winter, and there is now 8.60(a)9.50 no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this 8.50(@9.00 Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate o from \$16,000 to \$48,000 per mile, for which it take a second lien as security, and receives payment to a large if not to the full extent of its claim in serv-

ices. These Bonds are issued as each twenty-0.00@1.70 mile section is finished, and after it has been ex \$1.15(@1.30 amined by United States Commissioners and pro 70(@75c nounced to be in all respects a first-class road,

thoroughly supplied with depots, repair-shops \$22.00@00.00 stations, and all necessary rolling stock and other 18(a)19c equipments. 10(@10]c The United States also makes a donation of 12.

13e 800 acres of land to the mile, which will be a source of large revenue to the Company. Much

\$7.50@8.00 of this land in the Platte Valley is among the most 2.50(@2.60 fertile in the world, and other large portions are covered with heavy pine forests and abound in oal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five million's have been paid in upon the work already

done. EARNINGS OF THE COMPANY. At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of coad is, in fact, a Government Work, built under

the supervision of Government officers, and to a large extent with Government money, and that its oonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

FIRST MORTGAGE BONDS

are offered for the present at 90 CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay
