THE Inquirer of last week says of our Court meeting: "It was the most miserable failure we have ever known them to have during any Court." A little further on in the same article, it says, "the meeting was held in the Court House; the room was full." A "miserable failure" and a "room full" wont harmonize. Do it some more so.

OBITUARY—It is with feelings of profound sorrow we are again called upon to notice the death of one who was well known not only to the citizens of this and the adjoining counties, but throughout Pennsylvania, and to pay a small tribute to his memory. GEN. WM. R. SMITH died at Quincy, Ills., on the 22nd ult., "full of years and full of honours."—He was born at the Trappe, Montgomery Co., Pa., on the 31st day of August, 1787, and consequently was nearly eighty-one years of age. He was the grandson of William Smith, D. D., the first Provost of the University of Pennsylvania, in Philadelphia, and by whom Huntingdon was laid out. His Father, Wm. Moore Smith, an eminent lawyer of Philadelphia, had been appointed to settle some claims under Jay's celebrated treaty with England, and accordingly, in 1803, he accompanied him to that country where he remained about a year.—After his return he studied law in Philadelphia, and was there admitted to the bar. Here he also married, and in 1808, removed to the town of Huntingdon, where, by his talents, he soon distinguished himself in his profession, and during his long residence here was frequently called to fill places of trust and responsibility. He represented this county for many years in our State Legislature, both in the House of Representatives and Senate, and was one of the most efficient advocates of our then projected system of State improvements—canals and railways. Ever devoted to literature, his leisure hours were occupied by furnishing contributions which are to be found scattered in many of the publications of the day Following the bent of his inclination, he commenced in 1810, the publication of a literary magazine called the "Huntingdon Museum," which was edited by himself and his friend, the late Moses Canan, Esq. This was considered at that day quite an enterprise, as it was the first magazine published west of the Susquehanna river, which, however, was only continued for about a year, whe ears and 5 months.
OBITUARY-It is with feelings of profound Run M. E. Church, and after singing their efficient superintendent, S. H. the beautiful sugar grove near the house of Loenard Shaffer. On reachter enjoying several excellent pieces of ouragement.

He was a prominent member of the Masonic or-ler, and, if we mistake not, was the first Master of "Mount Moriah Lodge," established in this

In 1827, Gen. Smith removed with his family from this place to the adjoining county of Bedford, where he still continued to practice his profession. At the Presidential election in 1836, he wes chosen one of the Presidential Electors for the State, and in the following year was appointed by Presidential Electors for the State, and in the following year was appointed by Presidential Electors. went "merry as a marriage bell," ungave warning of departing day, when dent Van Buren one of the commissioners to ne-gotiate a treaty with the Chippewa Indians, on

the upper Mississippi.

In the Fall of 1838, he removed with his family to Mineral Point, in the then Territory of Wisconsin Here his services were soon called into requisition as Adjutant General, in organizing the Militia, and the duties of this office he continued to the entertainment in which they had hitia, and the duties of this office he continued to discharge for several years. Elected as a member of the first convention to frame a constitution for a State Government, in 1846, he took a leading and active part in its debates; but this constitution failed in being ratified by the people, owing to some features in it considered objectionable. Subsequently another convention was called, and a Constitution framed which received the approbation of the people in 1848, in which most of the State officers were made elective by the people of the State. Under it Gen. Smith was elected to the office of Attorney General, the duties of which he discharged satisfactorily during his term of office. Whilst engaged at the seat of Government, he projected the formation of a Schotter of the projected the formation of a Schotter of the series of the projected the formation of a Schotter of the projected the formation of a Schotter of the series of the projected the formation of a Schotter of the series of the projected the formation of a Schotter of the projected the formation of th TERRIBLE ACCIDENT. -- BURSTING son, the engineer, the fireman and angine to go to Saxton, the boiler burst the office of Attorney General, the duties of which he discharged satisfactorily during his term of office. Whilst engaged at the seat of Government, he projected the formation of a State Historical Society, which is now in full success and may be considered firmly established. Already several thousand books, pumphlets and paintings have been collected, and as President of the Wisconsin Historical Society, Gen. Smith was devoted to its interests until the day of his death.

The Legislature of the State having also directed that a history of Wisconsin should be written ere the material now at hand should be lost, Gov. Farwell, in 1852, accordingly appointed General Smith to execute thats. party. Several of the unfortunate beings were blown quite a distance. The son of Mr. Prince was seriously,

DEATH OF JAMES L. PRINCE, ESQ .and violent death of this esteemed friend, by the terrible accident which occured at Coaldale, last Friday. Mr. Prince was a highly respected citizen of Saxton, where he had resided for a number of years. A true friend, a kind father and a devoted husband, the family circle from which he has been so suddenly torn, will keenly mourn his loss, and the community will realize that it has lost one of its most valuable citizens.

Farwell, in 1852, accordingly appointed General Smith to execute the task. How laboriously he applied himself to it, is evined by the two volumes already published by the Legislature in 1854. As age advanced upon him he gradually retired from the dutics of his profession, and spent his time in his library, surrounded by his books, or enjoying the social conversation of his friends. His reading extended through every branch of iterature, and being gifted with an extraordinarily retentive memory, and fine conversational powers, he gave a charm to the social circle, and afforded instruction and pleasure to both young and old. His mental faculties remained clear and unclouded to the last, and without disease he sank to rest merely from old age, surrounded by a part of his family and friends. He leaves a large number of children and grandchildren in this State, fehildren and grandchildren in this State, ois and Wisconsin.

TF A HUMBUG.

What a wonder That the doors
Are open wide;
Ever since the
First of August
Thousands have Pain Paint applied. Those who lie. Those who lie,
Or call it humbug,
Are the doctors,
Not acquaint;
For they always
Have been jealous
When their patients
Use Pain Paint.
Pile up facts
As high as mountains,
Flash the truth
Before their eyes,
But the cry
Is always humbug,
Men of science
Full of lies.

Men of science
Full of lies.

People know that liniments composed of Cayenne pepper, turpentine, hartshorn, ether, &c., will produce inflammation and pain. To purchase such trash to stop Pain and Inflammation is ridiculous. Fire will not stop heat; a dumb brute shuns the heat, and knows enough to wade in a pond of water, when wounded, to reduce, cool, and cure Inflammation and Fever.

Pimps and gamblers try to look honest, but folks can read the face too plainly. Some try to persuade the ignorant that pills, physic, &c., cleanse the blood, purge the system, and do a hundred other things equally absurd. Everybody knows that it is false, and that no medicine can purify or increase a drop of blood. Food makes blood, bone, and musele, and is the Staff of Life. Every dose of medicine swallowed is rejected, and hurried out of the system as quick as possible. It is an enemy; yea, a deadly foe. Constipation, ill health, and weakness, are the result of dosing, dosing, dosing the stomach.—The living system has enough to do without working herself to death in expelling and kicking out the pernicious nostrums poured down the throat. Food she welcomes when she needs it; yea, asks for it. Let pill makers and physic venders stop eating food, and see how long they can subsist on their blood-purifying, invigorating, health-giving medicines and cordials. What humbug is more transparent? A dog would feel so insulted, if offered a dose, he would curl his tail downward in scorn, and run away in utter disgust. All physical pain arises from inflammation. Put out the fire and you stop pain absolutely. You can stop pain as easy asy ou can quench fire with water. WOLCOTT'S PAIN PAINT sut dues inflammation, heat, and fever one hundred times faster than ice. Thousands have had a practical test of its merits at the very moment of most extreme pain and they can testify that it has not failed in doing its work. I have employed over twenty physicians at vast expense during this period. But all attempts at cure proved utterfy abortive until I tried Dr. Wolcott's Pain Paint, which the doctors told me was a humbug. But humbug or not, it has done the work completely in less than one month, removing the pain at the first application. I kept her leg wet with Pain Paint constantly until healed. I wish we had more humbugs as useful as Dr. Wolcott's Pain Paint. I am well known in this city any person who wants to make further inquiry will call at 101 West Street, New York, at the Hanover House, of which I am the proprietor, and I think I can satisfy them as to the benefit derived by the use of Pain Paint.
