

Last year it cost the people of Pennsylvania just \$37,000 to pay for the pasting and folding of documents for the lower branch of the Legislature, there having been thirty four men employed to do the work. There was not enough for these to do, one Ilyus who was appointed a paster and folder not having gone near Harrisburg during the session except to draw his pay. Notwithstanding the fact, however, that thirty four men can easily perform the labor of the pasting and folding department, the radicals of the House of Representatives at Harrisburg, the other day, passed a resolution authorizing the increase of the number of these slingers of paste, "not to exceed twenty seven," which would have made just sixty-one, or one for each radical member, and would have added at least \$29,000 to the expenses of the pasting and folding business .-Every radical member of the House voted for this resolution, whilst every Democrat except five voted against it.

A table has been prepared by Hon. H. D. Washburn, member of Congress from Indiana, showing the number of additional bounty claims paid and rejected up to the end of last year. From this table it appears that Maine has had 53,200 of these claims paid, New York 45,031, and Pennsylvania 31,555. The disparity between the number of it is more than probable that some additional bounties allowed to Penn- changes will be made in the present sylvania, is striking indeed. Perhaps some of the radical politicians who profess to be their special friends, can give them a clew to the riddle.

will drive instead of follow; that he will be more likely to demand new powers than to relinquish the exercise of a single prerogative.

WHILE the radicals in Congress and in State legislatures are throwing down every barrier which shuts out the ignorant and semi-barbarous negro from the ballot-box, they are just as industriously employed in placing obstacles in the way of the white citizens of foreign birth. It is not necessary in radical estimation to register the unknown and unnamed field hands of Georgia, in order to preserve the purity of the ballot-box, but cunning enactments must be devised to impede the naturalized citizen on his way to the polls. It is marvellous that the adopted citizens of America do not perceive the combined knavery and hypocrisy which dictate the policy of the radicals on the question of suffrage. When it is necessary for the Radicals to hurl hundreds of thousands of brutal blacks on the ballot-box, universal suffrage is a glorious boon; but when citizens of foreign birth present themselves at the polls, the suffrage becomes a great evil, and radical statesmen put themselves to work to frame laws to render its ex-

ercise on the part of the foreign-born citizen as irksome, as difficult and expensive as their ingenuity can devise. groes is under consideration, is quite different from radical cant about the necessity of sacredly preserving the purity of the ballot-box when the poare discussed. The stupid negro can be employed in maintaining the radicals in power, and the laws of nature and the dictates of reason are disobeyed in order to give him suffrage. The hand, no sooner makes himself familmocracy, and he is pursued by all the hate which bigoted radical partisans know so well how to nourish. The citizens of foreign birth will be compelled to make common cause against their oppressors, and it will before long be impossible to find a radical Irishman or German with a lantern.
