THE SPRING ELECTIONS.

Democrats are reminded of the importance of attending the Spring elections, so that bad men may be kept out of the boards of election officers and the assessorships, which are potent machines in the hands of unscrupulous politicians. The coming campaign will be one of unusual interest, as a Governor, Supreme Judge, and other important officers are to be chosen.

If the Democracy are to regain power, they must organize success. We must begin at the beginning. We must first win the fight for our local tickets, then for the State ticket, and then a national triumph will be easily secured. Let this commencement be made now. Let Democrats renew and reinvigorate their organization. Let none but the best men be nominated for office. Put forward the active, the zealous, the vigorous, as your standardbearers. Reward the faithful and worthy. And then, with good men and true in the lead, call upon the people to follow.

The Spring elections will take place MARCH THE 19TH. On This day the radicals of this county will, also, hold their nominating election. By this trick they hope to get out their entire vote and thus to catch the Democrats napping. We say to our friends, Be on your guard! Turn ont to the election, and do not permit the enemy to steal a march upon you.

CHEATED AT LAST.

There can be no doubt that many persons voted for U.S. Grant, because they believed him moderate and conservative, never dreaming that he would endorse so infamous a proposition as the Negro Amendment. He stood upon the Chicago platform, which assured the people that in "all the loyal States" the question of suffrage should be left to the control of the people. Hence it was fondly imagined by the credulous fools who could see nothing but Grant's shoulder-straps, that no attempt would be made by him to force Negro Suffrage upon those States. But they have been suddenly and rudely undeceived. Grant, in his Inaugural Address, recommends the ratification of the Negro Amendment, which not merely confers suffrage upon the blacks, but takes away from the people the right to regulate and control the suffrage question for themselves.

"Cheated at last!" was the exclamation of a Republican friend of ours, on reading Grant's Inaugural. Many and many a time had he insisted upon Grant's honesty and conservatism. Many and many a time had he stoutly asseverated that the charge that if Grant were elected, Negro Suffrage would be forced upon the country, was only "a copperhead lie!" Many and many a time had he pledged his honor to his Democratic friends to leave the Radical party and join hands with the Democracy, whenever the former would make a voter of the negro. That time came suddenly on the fourth of March. And now he admits that he has been cheated, and like an honest man, with his eyes open, he intends hereafter to vote the Democratic ticket and be cheated no more.

THE CABINET.

General Grant has appointed the following persons members of his cabinet. Their names were sent to the Senate on Friday last, and they were immediately confirmed:

Secretary of State-Elihu B. Wash-Secretary of the Treasury-Alex. T. Stewart, of New York Secretary of the Navy-Adolph E. Borie, of Philadelphia. Secretary of the Interior-J. D. Cox,

Postmaster General-John A. J. Cresswell, of Baltimore.
Attorney General—E. B. Hoar, of

General Schofield, Secretary of War in the cabinet of President Johnson, retains his position.

This announcement will fill the once resigned! This action of the demcountry with astonishment. There is ocrats leaves the legislature without a not a member of this cabinet who has ever given any sign of ability or statesmanship, except Schoffeld. The inexperience and mediocrity of Grant are islature are made of the right kind of on the day of his inauguration. unrelieved by these oddly-assorted advisers, with whom he has surrounded himself. Had the names been promulgated one month ago, they would have sunk beneath the contemptuous criticism of the independent portion of the radical press, and Grant would have been compelled in deference to the clamors of his party to change his programme. It was dread of this, perhaps, that led him to keep the names of his cabinet ministers a profound

ondence to the Bedford Gazette. The long agony is over. The new MERCANTILE LIBRARY. We received recently a draft of the new The quiet mountain so long in labor, Mercantile Library building; and as we are a member of that institution, feel some interest in it. It contributes very materially to our improvement Shades of Webster and Marcy and and pleasure. We can while away many hours among the mighty dead who vet E. B. WASHBURNE, the refinement speak from those silent shelves and open new fountains of thought and feeling. A public library is a public blessing. Among the pleasing features there is the social, as well as intellectual and literary. Thousands of ladies and gentlemen every week visit this place-idle in easy chairs, read everything from a ponderous tome to a daily paper, or pass the time in the chess room, if they admire the game and each other. But you must not forget name of all the jack tars that ever reefthat we are governed by law! And a law that takes so well: for no one is permitted to speak aloud-that is, you must whisper; and don't you see what a charm there is in that? Words sound sweeter and carry a different feeling with them when they glide into the ear in soft, low syllables. Or they used to when we were young. But I was going to tell you that we were having a new building on Tenth J. D. Cox, Ex-Governor of Ohio, not above Chestnut, and expect to get into it by summer. The main room will be the largest in the city, and the whole building taken entire in all its various apartments and improvements will be

the best of the kind in this country.

It will cost about a quarter of a million.

ACADEMY OF NATURAL SCIENCES. After a pleasant chat, on Tuesday, with our friend J. R. of Bedford, at the Bingham, we hastened to fulfil an engramment for 1 P. M. In company with Messrs. G. and McC., of your place, we took a stroll through the Museum at the Medical Department of the University of Pa. It is a very fine one, and these young gentlemen enjoyed it very much; but as I had some regard for my appetite in anticipation of dinner at 5, I proposed getting out of cal Museums are bad on appetites-except to Medical Students-and are more instructive to the head than agreeable to the other department. In consideration thereof we got out, having "done" that Institution in an hour, and wended our way to the Academy Chestnut. A collection like that deserves a finer and larger building. Such a move, we understand, is now contemplated. The average number of visitors daily is about five hundred. Well, there are no savans in this counthe whole thing from toe to top, five stories in all, and didn't half try. We put through the snakes, birds, animals, skeletons, etc., in double quick, calling it a "cursory view," and expecting to take more time when we had it to spare. But it is a wonderful place and would richly repay a long visit. We concluded that any man who visits and studies what is collected in that building, and can come away and say there

THE HADROSAURUS or great herbivorous lizard, the skeleton of which was found in a bed of Johnson did himself credit and the belongs to a remote age of the world, known to Geologists as the Cretaceous way. It seems to me very desirable period. The skeleton, which however that this question should be settled is not entire, measures 26 feet in length REPUBLICANS OF BEDFORD COUN- and stands on its hinder extremities and tail 13 feet high. It is supposed to have been amphibious, and to have browsed on trees for which its peculiar structure seems to have been adapted, ing in size the fore limbs; and the position necessarily to be assumed appearing to be that of the Kangaroo. It corresponds in length with the whale taken some time ago from the Delaware, the skeleton of which is also there. How would you get a reptile way back, we dropped into an Art Galtime, and enjoyed some charming pictures, after which we took seats and LINDEN.

Washington, March, 4. The following is the inaugural address of General Grant:

of President of the United States, I have in conformity with the constitution of our country, taken the oath of office prescribed therein. I have taken this oath without mental reservation and with the determination to do to the best of my ability all that it requires of me. The responsibilities of the position I feel, but accept them without The office has come to me unsought. I commence its duties untranmeled. I bring to it a conscienious desire and determination to fill it to the best of my ability and to the satisfaction of the people on all leading questions agitating the public mind. I will always express my views to Congress and urge them according to my judgment, and when I think it advisable will exercise the constitu tional privilege of interposing a veto to defeat its measures which I oppose, but all laws will be faithfully execu ted, whether they meet my approval I shall on all subjects have a policy to recommend, but none to enforce against the will of the people, Laws are to govern all alike—those opposed to as well as those who favor them. I know no method to secure the repeal of bad or obnoxious laws so effectively as their stringent execution. The country having just emerged from a great rebellion, many questions will come up before it for settlement in the next four years which preceding administrations have never had to with. In meeting these, it is desirable that they should be approached calmly, without predjudice, hate or sectional pride, remembering that the greatest good to the greatest number is the object to be attained. This requires security of person, property and religious and political opinion in every part of our common country, without regard

to local predjudices. All laws to secure these ends will receive my best eforts to secure enforcement.

securing to us and our posterity the Union. The payment of this debt, principal and interest, as well as the return to a specie basis as soon as it can be accomplished without national detriment to the debtor class of the country at large, must be provided for. To protect the national honor every dollar of Government indebtedness should be paid in gold unless other wise expressly stipulated in the contract. Let it be understood that no repudiator of one farthing of our public debt will be trusted in a public place, and it will go far towards strengthening a credit which ought to be the best in the world, and will ultimately enabearing less interest than we now pay. To this should be added a faithful colection of the revenue, a strict accountability to the Treasury for every dol-lar collected and the greatest practicable retrenchment in expenditure in ev-ery department of the government. When we compare the paying capacity of the country now, with ten States still in poverty, from the effects of war, but soon to emerge, I trust, greater prosperity than ever before, with its paying capacity twenty-five years ago, and calculate what it proba-bly will be twenty-five years hence, who can doubt the feasibility of paying every dollar then with more ease than we now pay for useless luxuries. Why, it looks as though Providence had bestowed upon us a strong box. The precious metals locked up in the sterile mountains of the far west, which we are now forging the key to unlock, meet the very contingency that is now before us. Ultimately it may be necessary to increase the facilities to reach these riches, and it may be ne cessary also that the general government should give its aid to secure this access, but that should only be when a dollar of obligation to pay se-cures precisely the same sort of dollar to use now, and not before. the question of specie payments is in abeyance the prudent business man is careful about contracting debts payable in the distant future. The nation ould follow the same rule. A prostrate commerce is to be rebuilt and all industries encouraged. The young men of the country—those who from their age must be its rulers twenty-five years hence—have a peculiar interest moments reflection as to what will be commanding influence among the nations of the earth, in this day, in they are only true to themselves, should inspire them with national pride. All divisions, geographical, political and religious, can join in this common sentiment. How the public debt is to be paid or specie payments resumed is not so important as that a plan should be adopted and acquired. In a united determination to do is worth more than divided councils on the method of doing. Legislation upon this may not be necessary now ven advisable, but it will be when the civil law is more fully restored in all parts of the country, and trade resumes its wonted channels. It will be my endeavor to execute laws in good faith; to collect revenues assessed to have them properly accounted for and economically disbursed. I will, to the best of my ability, appoint to of-

fices those only who will carry out this In regard to foreign policy I would deal with nations as equitable law requires individuals to deal with each other, and I would protect the law abiding citizen whether a native or of foreign birth, wherever his rights are jeopardized or the mag or but the state of floats. I would respect the rights of If others depart from this rule in their dealings with us, we may

favor any course towards them which ends to their civilization, christianization and ultimate citizenship.

is likely to agitate the public so long as portion of the citizens of the nation are excluded from its privileges in any now, and I entertain the hope and express the desire that it may ratification of the 15th article of the a-

mendment to the Constitution. In conclusion, I ask the patient forthroughout the land, and a determined effort on the part of every citizen to do his share towards cementing a happy tion to Almighty God in behalf of this

I want to rouse each sleepy head, Who stand upon the brink, Where yawning gulfs disclose the dead, Who might, but did not, think. I want to warn the living ones Who blindly grope along, Ye fathers, daughters, mothers, sens, What perils round you throng!

Look out, my reader, are you free, Or do you wear the mark? Most all are blind and cannot see, Yea, groping in the dark. Catarrh, a demon in the head, Consumption is its son; Kills hosts, yea, countless millions, dead Perhaps you may be one.

That hacking, hawking, spitting, shows Catarrh effects your head, Matter and slime in throat or nose, Runs down your throat instead. Your lungs and liver soon will show Consumption has its birth; Catarrh, its sire, will feed it too,

Till you return to earth. If colds affect your head and throat,
ANNIBLATOR buy;
Now don't forget what I have wrote,
Or think this subject dry.

Wolcott's Annihilator cures Catarrh—the demon flies; It saves the lungs, good health insures. And Catarrh quickly dies. I want to gratify my friends, Who wish to understand
About Pain Paint, its use, its ends,
And why its great demand. I want to show you, plain as day, why PAIN PAINT stops all pain That you may never have to say

That you may never have ... I'll not try paint again. Pain Paint will cool but never stain; Pumps inflammation out; Tis harmless on the breast or brain, A trial stops all doubt.

When inflammation leaves the frame, All pain will cease at once; Remove the cause, 'tis all the same; None doubts unless a dunce.

The pores will ope and drink Pain Paint Absorbents fill with ease; Restores the weak, the sick, the faint, The greatest skeptic please

Evaporation cools the place As inflammation flies: Hot blood at the absorbent's base Tis thus PAIN PAINT removes all doubt, Removes the very cause By pumping inflammation out;

n this we rest our cause Wolout's Pain Paint is sold at all Drug Stores; also, Wolcott's Annihitator, for the cure of Ca-tarrh and Colds in the head. Sent by express on receipt of the money, at 181 Chatham Square, N. N. R. L. Wolcott, Prop.
