HOOFLAND'S GERMAN BITTERS

The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great works of the Empire by submarine electric telegraph cables, we propose commencing operations in China, and laying down a line of fine insulated wires at once, between the following ports, viz: Canton, 1,000,000. Moscow, 40,000. Hong Kong, 250,000. Swatow, 200,000. Amoy, 250,000. Foo-Chow, 1,250,000. Wun-Chu, 300,000. Ningpo, 400,000. Hang Cheang, 1,200,000. Shanghai, 1,000,000. Total, 5,510,000.

These ports have a foreign commerce of \$900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through the canals and navigable rivers.

The cable being laid, this company propose erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information, and by couriers on land, and by steamers at sea.

The Western World knows that China is a very large country, in the most densely populated, but few realize that she contains more than a third of the human race. The latest returns made to the central authorities for last year, show that the local magistrats make her population Four hundred and Fourteen millions, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can read and write, but her civilization is peculiar, but vast national intelligence, as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every profited facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it is there transmitted messages in English alone. To-day great numbers of great steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree remunerative to capitalists, and so our country people. It is of vital national importance, commercially, politically and evangelically. The stock of this company has been unanimously recommended to capitalists and business men, as a desirable investment by editorial articles in the New York Herald, Tribune, World, Times, Post, Express, Independent, and in the Philadelphia North American, Press, Ledger, Inquirer, Age, Bulletin and Telegraph. Several Shares of this company, at a limited number, may be obtained at \$50 each, \$10 payable down, \$15 on the 1st of November, and \$25 payable in monthly installments of \$2.50 each, commencing December 1, 1868, on application to

DREXEL & CO., 34 South Third Street, PHILADELPHIA. Shares can be obtained in Bedford by application to Reed & Schell, Bankers, who are authorized to receive subscriptions, and can give all necessary information on the subject. sep21

FROM HON. GEO. W. WOODWARD, Chief Justice of the Supreme Court of Pennsylvania. PHILADELPHIA, March 16, 1867. I find that 'Hooiland's German Bitters' is an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervousness in the system. Yours Truly, GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON, Judge of the Supreme Court of Pennsylvania. PHILADELPHIA, April 25, 1866. I consider 'Hooiland's German Bitters' a valuable medicinal preparation, and one which I can recommend to my patients, but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hooiland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may be used in conjunction with other remedies. Yours, very respectfully, J. H. KENNAED, Eighth, below Coates Street.

FROM REV. JOSEPH H. KENNAED, D. D., Pastor of the Tenth Baptist Church, Philadelphia. DR. You will be in mind that these remedies are entirely different from any other advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of raw material. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite, it is short, and it is its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They are used for the safety of a child three months old, the most delicate female, or a man of ninety.

These remedies are the best Blood Purifiers ever known and will cure all diseases resulting from bad blood.
