

THE REGISTRY LAW

We publish, in this issue, the piece of infernal deviltry, enacted by the last legislature, known as the Registry Law. We hope every active Democrat will carefully study its provisions, and prepare for the work which it imposes upon the people. Democratic Assessors and Election Officers, especially, should acquaint themselves thoroughly with its character.

It will be observed that this law levels a severe blow at the rights of naturalized citizens. It makes a broad distinction between that class and na tive citizens. Every naturalized voter must produce his papers to the Assessor and to the Election boards, and the latter are required to stamp upon them the word "voted," with the date at which the vote was given. The only exception is where such citizens have been voters in the district in which they offer to vote, during five consecutive years. In such case the Assessor will put their names upon his list without requiring the exhibition of their papers. They must, however exhibit their papers to the election board, unless they have been ten consecutive years voters in the district. It is, therefore, highly important that naturalized citizens who have lost their papers, at once take steps to have them renewed, otherwise they will lose the rights of American citizens. Let this matter be looked after by our alien born friends, and we would suggest that the active Democrats in each district make it their business to see that naturalized citizens are informed concerning this law and that they obtain the necessary papers. Meanwhile, if there is a foreign-born citizen who is willing to swallow the Registry dose prescribed for him by the radical party. let him remain disfranchised, as he deserves to be.

This radical scheme to disfranchise and hamper the people in the exercise of the right of suffrage, will cost Bedford county at least \$2,000 and perhaps

It will not prevent frauds, for the same thing has been tried in other states and has proved a complete failure. It is in force in New York, and vet the radicals themselves claim that immense frauds are committed at the elections in that state. Besides it is un constitutional. It will not be brought before the Supreme Court, this year, because two of the Judges, Read and Agnew, controlled by partizan influences, last year placed them selves on record in its favor, and the third one, Williams, will be the radical nominee for re-election this fall. With a court thus 'constituted, what hope would there be for a just and impartial decision? The only remedy that remains, is for the people to organize for the election of a Governor and Legislature which will undo this wicked work. Shall it be done?

tone in regard to the fraud which the radicals are now engaged in perpetrathem without their consent. The XVth the Northern States. Thus fraud and barism of San Domingo." force are employed by the radicals to accomplish their infamous plans. Shall we submit to the consummation of this outrage upon civil liberty and popular rights? Shall we submit and acknowledge ourselves the willing vassals of the corrupt oligarchy which now rules this country? For one, we say, NO, NEVER! The battle for the restoration of the government of our fathers, must come sooner or later. It might as well begin now. Let the Democratic party but say, with one voice, this wicked thing shall not be done, and it will not be done. In this connection we commend the following from the Titusville Star, as having "the ring of the true metal ":

"The adoption of this XVth Amendment would be a long stride towards consolidation, for it would strip from the several States the right to control the question of suffrage within their respective borders, a question over which they should most certainly have control for the safety and honor of the State. The Republicans of Rhode Island take this view of it, and we don't believe that the discipline of party will be sufficiently strong to force them into the adoption of the Amendment, A large majority of the people of thre fourths of the States and perhaps more, would repudiate the whole scheme, if they could in any way got at the ques-tion. The leading radicals wish to hurry it through before the people can have an opportunity to act. But we honestly believe that if the States are to be broken down and destroyed by that child of their own creation—the general government—it must be effected by the bloodiest revolution of which we have any record in the history of the world. This may be scouted at as mere talk. But we do not be-

WHAT do those "Republicans" who igned remonstrances against the ment, think of the course of the Radical legislature in ratifying that Amendment in defiance of the remonstrances of their constituents? Numestly protested against the snap judgment by which Pennsylvania was made to endorse the Amendment. But They were bound in the leash of Ben. LEGAL ADVERTISING .- The law requiring legal advertisements, such as Executors' and Administrator's Notices, Orphan's Court Sales, Auditors' Notices, &c., to be published in the two papers having the largest circulation, has been changed, As the law now stands, it requires the publication of all legal notices in two papers, one of each political party. Of course this makes the GAZETTE one of the mediums through which all such advertising must be done. Administrators, Excutors, Auditors, &c., will please w3 take notice.

MARVELOUS INDUSTRY .- It is scarcely necessary at this day to say anything in praise of Webster's Unabridged Quarto Dictionary, 1840 pages, and 3000 engravings. Having come into possession of a copy of the latest edition, we cannot refrain from expressing our admiration at the marvelous industry and learning which such a book must have called into demand. In the book line, this Dictionary deserves a place among the triumphs of the century. The publishers' part of this ponderous volume has been done with a beauty and substantialness which also deserve special commendation. "Reading the Dictionary," with this edition of Webster before you, is exceedingly interesting pastime.
