FOR THE CAMPAIGN! RALLY IN YOUR MIGHT! Read, Think and Act !

Our appeal is to the intelligent, the candid and the independent. We ask only that people shall understand the issues before them, and that, un derstanding them, they reflect upon their duty gone further and unburdened itself enin the premises and then discharge what they believe to be that duty when they come to east their ballots. In order that the questions to be voted upon at the coming election, may be fairly and fully presented to the public, the BEDFORD

to get up clubs for the campaign at every postoffice in the county. In no other way can the good cause be more effectively supported than by the Bedford, Pa.

WHAT IS A LUXURY?

By a sort of common consent, both the high tariff party and the free-traders agree that silk goods are a luxury, and it is therefore supposed that they stand highest on the list of textile fabries upon which taxes are imposed under our tariff, the rate being 60 per cent ad valorem; but this is very far from being the case.

The duties upon carpets are much higher. Upon a cheap Tapestry carpet, costing in England 57 cents per yard, the duty is 41 cents, or 72 per cent; upon a Brussels it is 69 per cent, and upon bockings, druggets, feltings, and other low-priced goods the duties are so high as to amount to prohibition. Upon coarse, heavy broadcloth the duty is stated by Mr. Edward Harris, a most skilful manufacturer, to amount to 135 per cent.

Upon a cheap poplin, a fabric made of cotton and worsted, costing 7 pence sterling, or about 14 cents per yard in England, the duty is 125 per cent.

Which is the luxury? the low-priced poplin dress, the coarse broadcloth, the common carpet, or the silks and satins at 60 per cent duty.

Why this difference? because an attempt has been made to deprive consumers of their supply of the cheap clothing and combing wools of other countries by a duty which is almost prohibitory, while the carpet wools are still admitted at a very low rate; next we have attempted to force our own manufacturers to use wool raised here at far higher cost, and unfit for many purposes for which foreign wools are absolutely needed, and have thus crippled and almost destroyed several branches of manufacturing which were successfully established under a low tariff; and lastly to compensate the wool manufacturer for all the disadvantage thus imposed upon him by forcing his customers to pay double or treble price for the goods they need.

What has been the result? An over-supply of one kind of wool chiefly raised by us; scarcity and dearness of form; where they have often got it beother kinds, and a check to the diversity of employment in the manufacture of woolen and worsted goods in this country, with a good measure of protection to the spinners of Europe, upon the question whether Gen. Grant to whom we have sent a full supply of | did or did not snub Minister Bassett cheap South American and other wool. The furniture and wooden ware which we used to sell to South America for wool are now made in Bohemia and Germany; the boots and shoes in France, and the cotton goods in England; and as our direct trade has been almost destroyed, we have ceased to send the butter, cheese, and flour which used to form a considerable portion of every South American and South African cargo; but we pay for what we still import from these and other countries either in gold or cheap bonds. For the latter we have taken out a patent, and no other country cares to compete with us, as they all admit that we have succeeded in establishing our own discredit in the most complete manner possible.

THE ALARM CRY IN PENNSYLVA-

Says Brick Pomeroy, when the ship is aleak, her timbers strained and cracking under every heavy sea, her rigging going with every returning squall, the cabin passengers always begin to pocket their valuables, blow up their lifepreservers, and get them nicely and firmly strapped under their arms, with a sizeable bladder of wind right under their chins. The State Guard, a Radical paper, in Harrisburg has just completed that necessary preliminary work, and now, with its chin well up, it sings out: "The Radical party has one more chance."

We don't believe it. And we have grave suspicion that the State Guard the future of the Radical party. It does not speak out as plainly on the subject as we do. It's not to be expected that it should, while it remains on board the awfully leaky hulk; but it does very well for a Radical paper. It declares that unless that party adopts a new rule, there will be serious trouble at the coming election there. We agree with it. In fact we would have agreed with it if it had

No; promise of adherance to old pledges, or promise of adherence to any that may now be made, won't do. The sturdy agriculturalists, miners and mechanics of Pennsylvania have heard too much in the Radical line of promise of reform. They have resolved upon a change by which they can get refore, and where they will get it again, and that is with Democracy.

EX-PRESIDENT JOHNSON.

Ex-President Johnson does not propose to give the Tennessee Radicals any rest. Some of his speeches, delivered since his retirement from office, have been very powerful. Theex-President has for a long time had the reputation of being one of the best stump speakers in the country, and his Clarksville speech was fully up to any of his previous efforts. It is very evident that Mr. Johnson will yet be a power in Tennessee politics. In a recent speech, he is reported to have said:

I think the Radical party are disintegrating and crumbling away. I am opposed to making a soft bed for them to recline on in death. The offices are not enough for all, money is getting scarce, and things lying around loose have been all picked up. LET US HAVE A CHANGE! The Radical party has been in power so long that it has become hopelessly corrupt. The poison of its rottenness infects every branch of business, every artery of trade. Times are dull, money is scarce, the farmer gets no price for his produce, the laborer is out of employment, the mechanic fails to sell his wares, the merchant does business on a long trust. It is a prominent duty of the farmer so to pursue his calling as to inspire a respect for it in the minds of his children, and so train them that they shall be able to pursue it successfully, which can only be effected by his availing himself of every advantage resulting from the discoveries of science and the accumulated experience of the past. SPECIAL NOTICES.

Schenck's Pulmonic Syrup, Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills, will cure Consumption, Liver Complaint, and Dyspersia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption. To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the

Philadelphia, owes his unrivated success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phiegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood and liver, so that the Pulmonic Syrup and the food will make good blood
Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall-bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do, nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gall-bladder and starts the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Scaweed, which this preparation is made of, assists the

in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Re-

sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chilis, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Cousamption, Liver Complaint, Dyspepsia, Cataarh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, ab seesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood: then the patient begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure consumption.

When there is no lung disease, and only Liver

to cure consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly hearnless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. Ho was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompanying each, make it not absolutely necessary to personally see Dr. Schenck, unless the patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all let ers for advice must be addressed. TWO FARMS AT PRIVATE SALE.

Now is the Time to BUY CHEAP REAL ESTATE. A FARM IN MORRISON'S COVE

The subscriber will sell at private sale, on very very reasonable terms, and at reduced prices, the following described, very valuable real estate, viz. A TRACT OF LAND situated in Morrison's Cove, about one mile from Lafayettsville, and four miles from Woodberry, in Middle Woodberry tryp., containing 102 acres, more or less, about 40 acres cleared and under fence, with one and a half story log house, log barn, blacksmith shop and other outbuildings, adjoining lands of Jackson Stuckey on the east, Christ. Kochenderfer on the north, John Kengy on the west, and Ignatius Brant's heirs on the south. This can be made one of the neatest and most pleasant little farms in the Core with very little expense. There is an abundance of water, plenty of fruit and splondid timber upon it—all that is necessary to make it desirable.

ALSO.

STONE AND RIVER BOTTOM LAND, within two miles of Bedford, containing 228 acres, about 150 yeres of which are cleared and in a high state of cultivation and the balance well timbered. There are excellent new building erected thereon with a well of never failing water at the door. There are two orchards of choice fruit upon it. 75 acres of meadow, (River Bottom) can be cultivated with trifling expense. The upland is in a good state of cultivation, well set with clover and under good fence. There is sufficient timber upon it to pay for the farm several times if thrown into the Bedford market. Their own interests are at stake in matter. Everybody has suffered so much s situated in Napier tp., near New Paris, is in a from the accursed CREDIT SYSTEM, if system it can be called, that I intend to offer to everybody a panacea for the evil in the future. On and after the first day of June, 1869, I will ell goods EXCLUSIVELY FOR CASH OR PRO-DUCE. No doubt some customers may be lost to

me, but I flatter myself that it will be only those from whom I cannot collect present account All goods will be sold at about one-half the profit now paid by consumers. The people often omplain of Bedford prices being higher than elsewhere, and it is doubtless true, to some extent, for the reason that good customers have had to pay for others' goods with an additional profit on their

enterprise and they WILL SAVE FROM TEN TO FIFTEEN PER CENT. ON EVERYTHING. THEY CONSUME. H P. PRYTNE
