THE CROPS .- From all parts of the county we hear the most flattering news of the wheat crop, now being gathered in. All admit that the yield has not been better for years. Oats were never better, while corn, under the late genial showers, promises notions, &c. # to give a very fair crop. All this is good news for the poor man and the farmer, and, but for the financial depression caused by the reckless policy of the radical party, labor would be in better demand and the producer would find a readier market for what he has to sell. As it is, labor lies idle and wheat lies unsold in the granaries.

COURT .- An adjourned court is in session this week, Judge Rowe presiding. The attendance is very slim, only those who are compelled by circumstances to appear, being here. On Monday morning jurors failed to answer to their names, and it was not till late in the afternoon that the court machinery could be set in motion. A great many of the jurors being farmers they preferred to be in the harvest field, rather than sit and listen to the animadversions on the Acts of Assembly by ye legal fraternity. A great many offered excuses to get away but the court could not see it.

"Say not unto thy neighbor, 'Go and come a gain, and to-morrow I will give thee;' when thou hast it by thee."

How MUCH OWEST THOU ?- The date opposite the name on the paper is the time to which the subscriber has paid; and means that the subscription year expired with that date (whatever the date may be), and as our terms are two dollars a year in advance, or within six months, and two dollars and fifty cents if not paid within six months, each one can thus easily determine the present condition of his account with this office. How much owest thou?" "Woe unto him that useth his neighbor's ser-vice without wages, and giveth him not for his work."
