WESTERN UNION TELEGRAPH.-William McMullin, Esq., the obliging Manager of this excellent telegraph company has shown us the new tariff which has lately been adopted and which went into operation on the 1st instant. The adoption of this uniform tariff, based on air-line distances, materially reduces the price of sending telegrams-making a reduction of from 20 to 25 per cent on the old rates. We will give a few instances to show the reduction made. A telegram of ten words from Bedford to Cumberland under the old tariff cost \$1.35; the new rate is 55 cents. The same telegram to Omaha under the old tariff cost \$4.45; new rate, \$2.30; new rate less, \$2.15.-The company deserve the thanks of ing surgical operations. He contends the communities through which their that groaning and crying are two lines pass, for this liberal reduction of operations by which Nature allays anturiff. We learn that other plans for guist; that those patients who give increasing the utility of the telegraph | way to their natural feelings more to the public, are being matured, and will be announced as soon as completed. The Western Union is an enterprising company and deserves, much credit for tor is of cowardice as either to groan the liber lity shown to a patronizing public.

ADVANTAGES OF CRYING .- A French physician is out in a long dissertation on the advantages of groaning and crying in general, and especially durspeedily recover from accidents and operations than those who suppose it unw orthy a man to betray such sympor to cry. He tells of a man who reduced his pulse from one hundred and

twenty-six to sixty, in the course of a few hours, by giving full vent to hisemotions. If people are at all unhappy about anything, let them go into their rooms and comfort themselves with a loud boo-hoo, and they will feel a hundred per cent. better afterwards. In accordance with the above, the crying of children should not be too greatly discouraged. If itissystematically repressed, the result may be St. Vitus' dance, epileptic fits, or some other disease of the nervous system.

What is natural is nearly always useful; and nothing can be more natural than the crying of children when anything occurs to give them either physical or mental pain.
