A DAMAGING ADMISSION.

A speech was made in Congress, the

other day, by Hon. Henry L. Dawes,

of Massachusetts, in the course of which

that honorable gentleman called his

party to account for their extravagance

said that he was astounded to find, on

ranks among the ablest and most influ-

the statement that the present admin-

States Nine Millions more per annum

than did that of Andy Johnson, the

average Radical mind would not have

received it as truth. But Mr. Dawes

must be believed. He is our adversa-

ries' own witness. His testimony a-

gainst the Democracy in times

past, was made to tell in favor of the

candidates of his party. Now, when

he testifies against his own political as-

sociates, his evidence is certainly not

less credible than when it was given on

Nine Millions of Dollars! Think of

it! It is no longer a matter of wonder

that the tax gatherers are so busy, that

the people groan under greater bur-

dens of taxation than ever before, that

the revenues of the Federal Govern-

ment are swolen to greater volume

than at any former period. And whilst

the people are compelled to pay Nine

Millions of Dollars per annum more

for the privilege of being governed by a

congresional oligarchy, than they

paid for the constitutional rule of Andy

Johnson, price of grain, the wages of

labor and the value of property have

the Grant regime. Is Congress doing

its duty, when it permits a derange-

ment of the money market to take

place which brings disaster and ruin,

to the business of the country whilst,

at the same time it asks that the peo-

ple, notwithstanding the shrinkage of

become lighter, rather than heavier,

with the decline in the price of grain

and the wages of labor? These are

questions which the voter must decide

the other side.

Jonathan would keep it straight; of Bedford he would take care if Somersel got the Senator, and Somerset could not claim Serator and Congressman both. Mr. Cessna thought it absolute-ly necessary that Fulton, Bedford and Somerset be all right, if it would be possible for him to get a re-nominaion in the District, as Adams and Franklin Counties were dissatisfied values, shall pay Nine Millions more with his disposition of the District pa-tronage. After Mr. Stutzman had been nominated, a few of the politicians from Bedhouse, ford raised a hue and cry against Mr. Stutzman; and received encouragement from the Chambersburg "Repository," Cessna's organ and the organ of a few Philadelphia politicians, by whom the greater part of the office (it is alleged) lican last summer. is owned. And now we will give briefly the whole connection of the Philadelphia "ring" including McClure, Mann, Quay, Hamersly, Covode and Cessna, and the smaller lights. Mr. Stutzman A woman and three children were burned to death in a house at West Point, Prince Edward's Island, on the

having voted last winter against the Metror olitan Police bill, was threaten-ed with death by Philadelphia roughs, and of course they were anxious that some other man should come from

that some other man should come from this District, as they expected to bring up the same bill this winter. And Mr. Cessna having promised, it is alleged, to give an appointment under the Rev-enue, to a Franklin County man he was desirous of getting Mr. Stutzman of the track and Mr. Scull on so that off the track, and Mr. Scull on, so that an appointment could be made for Franklin County. And Mr. Russell of Bedford had probably an interest in the matter, which caused him to take the part he did at Bedford at the public

ic meeting, against Stutzman. John Cessna having been fairly defeated, in his choice in the Conference. determined to force the regular nomi nee off the track, and put on a man who would answer his purpose. He had proposed the name of Mr Scull during the Conference, and the same reason was given by his friends that he reason was given by his friends that he himself had given before the pri-mary election, why he did not want the nomination. Namely: That it would not pay him, to give up an office which he held for four years, and probably for eight years, which paid him a salary of about \$4,000 a year, for one that would pay only \$1,000 a year, for three years, and would have to pay about \$1,000 for expenses during the compaign. But this was no obstacle compaign. But this was no obstacle in John Cessna's way. Was not John Covode, his friend, for whom he had made an infamous report in Congress, Chairman of the State Central Com-mittee? And did he not have control of the campaign money? Anyhow, Mr. Cessna showed a letter from Co vcde, or a dispatch, requesting him, Stutzman and Scull to come to Philadelphia, to "fix" up the matter. They went, and when they came home, Mr. Stutzman withdrew, and Scull's name was substituted. Mr. Stutzman's expenses were paid, we were informed : utterly refused to vote for Mr. Scull. They knew it was a trick of John Cessna's, and that Mr. Scull and Stutzman had been duped. It was for this reason, and no other, that Mr. Scull was not elected; for it is not contended that he had a majority of votes cast. Mr. Cessna tried to explain Scull's defeat, by ascribing it to some oil speculations, and because Stutzman had helped to defeat Scull; but this is not so,

as he well knows. Mr. Stutzman rode day and night after his return, urging his party to support Scull. If Mr. Stutzman was an objectionable candidate, and the nomination was to go to Somerset County, it should have been given to Mr. Schrock, as he was

next on the list at the primary meetngs held. When the Legislature met, John Cessna, was at Harrrisburg manipulating the affair, and we may say, that had he not been so justly loathed and contemned by honest members, Mr. Scull would have probably received his seat. But any man's connection with Jonn Cessna, politically, will surely politically damn him.

We believe Mr. Cessna is responsible for the defeat of the District, and we believe that he has also defeated himself for a renomination for Congress We advised him some time ago that if he wanted a renomination, he should attend to his Congressional duties, and not engage so assiduously in fixing up the District for a renomination. We have now given the facts in this

case and leave the people to judge who is responsible for our defeat.

WASHINGTON, Jan. 18.

In the United States Senate yesterday, after the presentation of an avalanche of petitions for the abolition of the franking privilege, on motion of Mr. Wilson, the bill prohibiting retired officers from being assigned to duty which entitles them to full pay for their services was taken up and passed. The Senate then went into debate upon the Virginia Bill. On motion of Mr. Stewart the Senate bill was laid on the table, and the bill passed by the House on Saturday was taken up. Mr. Edmunds offered to amend by requiring the imposition of an oath in the cases of State officers, that the incumbents are not ineligible under the fourteenth amendment. After a long debate this amendment was voted down. Mr. Morrill opposed the House bill with vehemence, and asserted his fear that the Republican party was committing suicide. Mr. Davis, of Kentucky, interjected the sage remarking that the Republican party's inclination to commit suicide was because it felt it ought to be hung. Without action the Senate adjourned. In the House a large number of bills and resolutions were introduced and referrred to appropriate committees. Among the former the most important were: to repeal the tonnage tax on American vessels, to improve Mobile harbor, to dispose of the public lands in Florida, Alabaone year's salary as Associate Justice. of the Supreme Court to the family of Edwin M. Stanton; to declare null executive, and judicial officers laboring under the disabilities of the fourpostal telegraphic system in connection tion of the several States in the House of Representatives for the Forty-second Congress. Mr. Judd and others addressed the House, and it was evident from the tenor of the debate that

a bitter sectional feeling is growing up between the East and West. The House business.

WASHINGTON, Jan. 19.

The admission of Virginia hangs fire in the Senate. There was a dull, prosy debate yesterday; a talking against time while the extremists are devising new measures to keep the State out in the cold. The prospects now are that Virginia will not be admitted upon the easy terms agreed to

Later, when the House State. plunged into a debate on the whole free-trade question, pending the passage of a resolution to print Mr. Well's report, Mr. Logan insinuated that Mr. Kelley was a liar. The Western Radicals generally sided with the Democrats in favor of Mr. Wells. I

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Sorofulons dis-case, where the system seemed saturated with corruption, have been purified and cured by it. Serofulous affections and disorders, which were Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radical-ly cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses. Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and un-felt tenant of the organism undormines the con-stitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favora-ble occasion, ramidly develous into one or there of

Again, it seems to breed infection throughout the body, and then, on some favora-ble occasion, rapidly develops into one or other of its hideons forms, either on the surface or among the vitals. In the latter, tubercles may be sud-denly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by e-raptions on the skin, or foul ulderations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at longth, cure, by the use of this Sarsaparilla is Automy's Fire, Rose or Erspielas, Tetter, Salt Etheum, Scal Head, Ringworm, Sore Eyes, Sore Ears, and other arap-tions or tisble forms, as Dyspepsia, Drop-sy, Heart Disease, Fits, Epilepsy, Neuralgis, and the various Ulcerous affections of the muscular and nervous systems. Syphilis or Veneresl and Mercurial Diseases are oured by it, though a long time is required for subding these obstinate maladies by any medi-cine. But long continued use of this medicine will cure the camplaint. Leucorrhoes or Waites, Uterine Ulcerations, and Female Diseases. are commonly soon relieved and ultimately cured by its purifying and invigorating effect. After adjourn-ment, Mr. John Cessna sent invitaelection-day. We ask no party judgment, but just a little reflection, a little sober, serious, steady thought.

DISUNION.

Georgia, after having been re-admitted into the Union, has been re-kicked-out. Virginia, after complying with all the odious requirements of the reconstruction acts, vainly knocks at the doors of Congress for admission. Tennessee is threatened with exclusion. and Mississippi and Texas are still out in the cold. It will soon be five years since the war closed, and yet the Union is not restored. The Radical politicians in Congress have conspired to keep out the States which are not under the complete domination of their own miserable tools. Because Georgia is not a Radical State, she is not allowed representation in Congress; because Tennessee has thrown off the yoke of Brownlow, she is to suffer dismemberment from the Union. The old New England Disunionists, the men who pronounced the Union a "League with Death." and the Constitution a "Covenant with Hell" are in full and absolute control of the Radical party. The Union element which ruled the party during the war, is completely overborne by the Sumners and Wilsons and Hamlins who draw their inspiration from Wendell Phillips and W. Lloyd Garrison. How much better is New England Disunion than Southern Secession?

DAWES' expose of the extravagances of Grant's administration, in a speech delivered in the House, the other day, fell like a huge bomb shell into the Radical camp. No matter how obnoxious the dose, it must be swallowed by the radical brethren, for is not Dawes withdraw or not, we are unable to say, a shining light in the congregation of but he did advise two of the Fulton a shining light in the congregation of the "trooly loil ?"

The straight-out Radicals of the Senate obtained their first victory in the Virginia fight yesterday. The only Radicals conservative enough to vote with the Democrats were present. Messrs. Ferry, of Connecticut; Kel-

logg, of Louisiana; Ross, of Kansas; Stewart, of Nevada; and Trumbull, of Illinois. Mr. Nye afterwards changed his vote to the negative. The Senate also discussed the question of abolishing the franking privilege. Several more bills were introduced to give away public lands to railroad corporations. Mr. Trumbull reported adversely to the bill allowing States to determine the qualifications of witnesses in the United States courts. In the House of Representatives, two Pennsylvanians, Kelley and Dickey, attempted to reply to Dawes' speech charging the administration with gross

extravagance. The plain truths of Dawes have made the Radical Congressmen sick with apprehensions of the consequences of the exposure. The House likewise discussed the pension and West Point appropriation bills. More petitions against the franking privilege were presented.

WASHINGTON, Jan. 21. General Nathaniel Greene, the rev-

olutionary hero, was the subject of eulogistic speeches in the Senate yesterday, the occasion being the presentation of his statue from the State of Rhode Island to the national capitol. Mr. Anthony made the offering, and Mr. Sumner the senatorial response. Two other Radical Senators indulged

in little speechez. The old patriot would turn in his grave if he knew that the men who are oppressing old Virginia were his eulogists. Mr. Casserly in-

troduced a bill providing that public lands in California shall be open to en-

try by homestead and pre-emption settlers only. Mr. Conkling, from the special committee, reported a substitute for the House Census bill, It directs that the census shall be taken on the old plan, under direction of the

Anthony and Jenckes. As Mr. Sprague is half way out of the Radical party, a political revolution in only chance is to take Schenos & since medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digesteasi-ly and make good blood: then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungscommence to heal up, and the pa-tient gets fleshy and well. This is the only way to cure consumption. Rhode Island would just suit him.

Great preparations are being made at Portland, Boston and Peabody, tient gets fleshy and well. This is the only way to cure consumption. When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrap. Take the Mandrake Pills freely in all billious complaints as they are per-fectly harmless. Dr. 3 shonck, who has enjoyed uniuterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicianshaving pronounced his case hope-less and abandoned him to his fate. He was cured by the a foresaid medicines, and since his recovery Mass., for the the funeral ceremonies of George Peabody. Robert C. Winthrop is to deliver the address in Boston, and Governor Chamberlin is to be the orator at the Portland obsequies. The honors to the dead philanthropist will be of an unusual and imposing character all along the route from Maine to the final resting place.

More unkindness to the noble African! Governor Geary, of this state, was grandly inaugurated at Harrisburg, on the 13th inst., by the aid of a procession of military and fire companies. Because a black regiment was allowed in the line all the fire companies except two, deserted in anger .--They will be punished by the loss of their charters.

A young matron of Bridgeport, Maine, aged 15 years, recently made an addition to the census, with the assistance of her mother, aged 32; her grandmother, aged 61, and her great grandmother, aged 72, thus compressing five generations into the smallest

The Pulmonic Syrup ripers the morbid matter in the lungs, nature throwsit off by an easy expectora-tion, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has

and liver, so that the Pulmonic Syrup and the food will make good blood. Schenck's Mandrake Pills act upon the liver, removing allobstructions, relax the ducts of the gall-blader, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented ex-cept calomel (a deadly poison which is very dan-grous to use unless with great care), that will mlock the gall-bladder and starts the secretions of the liver like Schenck's Mandrake Pills. Liver Complaint is one of the most prominent causes of Consumption. Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made

in the stomach. The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, heattie fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventnally the patient sinks and dies. Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Re-move the sause, and they will all stop of their own accord. No one can be cured of Consump-tion, Liver Complaint, Dyspepsia, Cataarh, Can-ker, Ulcerated Throat, unless the liver and siom-ach are made healtby. If a person has Consumption, of course the lungs in some way are diseased, either tubercles, ab scesses, bronchialirritation, pleura adhesion. or the lungs are a mass of inflammatior and fast de-caying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver havelost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up a tone to the stomach, the The great reason why physicians do not cure
