HUNTINGDON AND BROAD TOP R.R. WINTER ARRANGEMENTS.—The train leaves at Huntington at 4.20 p. m., and arrives at Mt. Dallas at 11.22 a. m.

Court is in session this week. A bakery has been established in this place.

McConeilburg has ordered a new fire engine. A new planing mill is being erected in Altoona.

Those who advertise most have most success in business. Representative Longenecker is in town, attending court.

\$40,400 have been subscribed to build a branch railroad to Somerset. The Methodists of McConeilburg are going to build a new church.

The "Fifteenth Amendmentists" are having a religious revival in Huntington.

The lawyers of this place have a law library in the court house. Quite natural.

We are indebted to Senator Findlay and Representative Longenecker for official documents.

The Johnstown Tribune has Akers as agricultural editor. The Perches are not taken into account.

A proposition to make the legal rate of interest 7 per cent, is before the Legislature of this State.

Wendell Phillips thinks William Penn would have been a "dough face" had he lived in New England.

The Presbyterians of Cumberland have inaugurated a movement for the erection of a new church edifice.

The Huntingdon murderers have both made confessions, but as one flatly contradicts the other, the presumption is that they both lie.

Over one hundred persons have professed religion during the revival in the Methodist church at Huntington. The revival still continues.

Ten bushels of suckers and catfish were caught at one haul in the Juniata in Huntington county, recently.—What has become of the fish law?

A little child about two years old was strangled to death in Altoona, by a small screw which it had put into its mouth slipping into its throat and lodging there.

Governor Geary has ordered the execution of the murderers of the Peightal family, in Huntington county, to take place on Friday the 9th day of March next.

The Bloody Run military company has adopted the name of the "Russell Zouaves," in honor of our former townsman, Hon. A. L. Russell, now Adjutant General of the State.

The Legislature is considering the propriety of repealing that section of the registry law that abolishes spring elections. Better repeal the whole thing.

On the 4th inst., the house of Henry Clear, of Union township, was totally destroyed by fire. Very little of the furniture was saved.

Scarlet fever prevails in some districts of this county. In Napier, on Saturday last, Peter Hill buried two children in one grave, who had fallen victims to this dreadful disease.

"Three card monte" and other fashionable swindles are much in vogue in Harrisburg this winter. This is accounted for only by the fact that the Legislature is in session now.

Bloody Run wants a good cooper; better behaved juveniles at religious meetings; a building association; somebody to kill its cursed canines; and other things too numerous to mention. What an aspiring village it is!

A veriant youth of Meadville sent a dollar to New York for a method of writing without pen and ink. He received the following inscription in large letters: Write with a pencil. Sold again, and another sucker's dollar taken in! Call the next!

At a recent donation party at the house of a minister, in an adjoining county, some rascally wags left a sack of sawdust done up in imitation of flour. That fellow ought to be d-domed to report in sawdust in a cline where the thermometer runs high!

Two men entered an ore mine near Mount Union, Huntington county, a few days since, carrying lamps. A spark from one of the lamps fell into a box of powder, and a fearful explosion occurred, killing one man instantly and mortally wounding the other.

PERKINS AND HOUSE'S NON-EXPLOSIVE LAMP is absolutely safe both from breaking and explosion, gives twice as much light as ordinary lamps and uses 28 per cent. less oil!

This is given as the original "Shoo Fly," as written by MacCarthy, in 1865: I feel, I feel, I shall go wild. I feel, I feel, I feel like a crazy boy.

The other day a friend of ours met an enthusiastic fellow from the rural districts, and received the following doubtful invitation to visit the countryman. Says A. to our friend:—"

For an Irritated Throat, Cough or Cold, "Brown's Bronchial Troches" are offered with the fullest confidence in their efficacy. They have been thoroughly tested, and maintain the good reputation they have justly acquired.

SUDDEN DEATHS.—On last Saturday, John H. Walter, constable of Union township, while going home from a sale which he had held, was suddenly attacked with illness and died in a few minutes in the sled in which he was traveling.

Mrs. Moorehead, wife of William Moorehead, of St. Clair township, died the other day after a brief illness of about fifteen minutes. She had been enjoying good health before the sudden attack which terminated in her death. Surely, "in the midst of life we are in death."

A PLEASANT AFFAIR.—Last Friday, Sheriff Keyser, and his jury, together with a number of invited parties, held an "inquest" on a Mengel House dinner. A number of the legal fraternity were present for the purpose, no doubt, of determining who laid the thing came within the rules as heretofore by Blackstone. Never have we seen a set of lawyers take hold of a "case" with such alacrity, and for the first time in our existence did we behold the extraordinary anomaly of a dozen or more legal minds agreeing unanimously. Not a law point was raised; no inquisitorial cross examination was gone through with, but lawyers, jury, editors, officers and clerks, manifested an undivided disposition not to "condemn," but to "extend" to mine host of the Mengel House their congratulations for the magnificent repast placed before them, and inwardly yearning for the frequent return of the Sheriff's "inquest" day.

THE DELAWARE COUNTY DEER, reports the burning of a large barn, the property of Jacob Hilberd, of Nether Providence, on Saturday last. The barn, wagon house, corn-crib, all the wheat, oats, hay straw, carriages, wagons, carts, all the farming utensils, two mowing machines, all the harness and four calves were consumed. The loss is heavy. Property holders make themselves secure by insuring with the Farmer's Mut. Fire Ins. Co. of York, Pa. It is reliable, it is liberal and prompt in adjusting and paying its losses. It is in its eighteenth year of business and has never made an assessment. Policies issued upon either the Stock or Mutual plan. Don't fail to insure with the York, the people's favorite.

ORE DISCOVERIES.—Vast quantities of iron ore have recently been discovered in the Flintstone district in our neighboring county of Allegheny, Md. The Cumberland Alleganians, in speaking of the vast store of mineral wealth, found during recent investigations in that section, says: During the past week numerous samples of iron ore, taken from the Eastern slope of the Warrior mountain, near the Warm and Cold Springs, have been left at our office for examination. The brown and black hematite are found at a distance of less than a fourth of a mile apart, and in quantities that it is thought almost inexhaustible. Examination has disclosed the fact that one of these deposits of hematite is the continuation of a regular vein leading from Yellow Creek and Hopewell, Pa. This vein of ore is represented to be fifteen feet thick, growing in richness as it extends Southward. The other hematite is not found in Pennsylvania, but from the point above stated, the Eastern slope of the Warrior mountain, to Oldtown. It is represented to be enormous quantities. Our informant tells us that the whole face of the mountain appears to be a solid mass.

From the annual report of the executive committee of the Philadelphia Board of Trade, we derive some important statistics relative to the coal, iron and petroleum interest of Pennsylvania.

The anthracite coal production of the State during 1869 amounted to 13,388,457 tons, against 13,774,257 tons in 1868; bituminous coal, (transported by the Pennsylvania Central road alone, (3,329,338 tons, against 2,065,309 in 1868, an increase of 265,309 tons, and making a total of 16,714,696 tons, exclusive of that transported by the Monongahela slack-water and other western transporters of coal, which would carry the quantity of Pennsylvania coal brought into use up to very nearly or quite 20,000,000 tons, and to a value of fully \$60,000,000.

The production of iron in Pennsylvania for the year 1869 was 965,000 tons, against 572,000 tons in 1868; increase 393,000 tons, the sales of the product being about \$34,000,000, or very little beyond the lesser quantity of last year. The added value of the manufactured article may be fairly estimated as \$35,000,000, showing a total quantity from 1,424,157 tons, to 1,969,000 tons.

The total production of crude oil from Pennsylvania wells during the year amounted to 189,681,390 gallons, an increase of more than 22,000 over 1868 and 33,600 gallons over 1867. The exports amounted to 102,568,831 gallons, at an average price of 25 cents, so that this product has furnished exchange for fully \$25,000,000, or more than half the value of the gold export from San Francisco for the year, and the three combined would show values: For coal, as above, say \$60,000,000 Iron 69,000,000 Petroleum, including domestic consumption 40,000,000 Aggregate for the three articles \$169,000,000

The total amount of coal consumed in this country in 1869 was \$29,839,014 tons. In England, in 1868, 103,141,157 tons were used.

The culture of indigo is to be introduced on the Isthmus of Panama.
