A GREAT CRY AND LITTLE WOOL.

be satisfied with anything unless it emanates from his own brilliant and comical ills, the Fifteenth Amendment, we doub! whether any measure of eithhas met the entire approbation of John Lutz, Esquire. The Democrats especiconomyof this strait-laced editorial philosopher. From national politics to the Democratic party worthy of his his political opponents, right or wrong, and he sticks close to his trade. We are, therefore, not surprised to find the Inquirer of week before last, an article this article, as follows:

hands of the County Treasurer. On have the benefit of the use of this sum the present year? We find no account of interest for use for the \$11,603 31 of last year in the statement recently published. What became of it?"

This is succeptible of easy explanahad held his peace, his party would since a "Republican" legislature repealed the State tax on real estate. A great flourish of trumpets has been made over this achievement and the Inquirer man blew his horn as loud as any of his brethren. Now, one of the results of this repeal is that the State Treasurer each and every year dips his hand into the county treasuries and takes therefrom such amounts as he sees fit. The county commissioners, in laying the tax, are, therefore, compelled to make such a levy as will cover the probable demands of the State Treasurer. They can do this only at random, because they are not informed, when they lay tax, what amount will be required of them by that official. For this "guess-work" the bungling legislation of the "Republican" party is responsible. Nevertheless, the commissioners of this county "guess" pretty well. Last year, as will be seen by the report of the county auditors, the State Treasurer was paid \$6,371.79. He demanded some \$1,700 more which the commissioners have thus far refused to pay. When this sum is deducted from the \$11,603 .-31 in the treasury at the settlement of little more than five thousand dollars remained in the hands of the county treasurer to meet the current expenses of the county. Owing to another delectable invention of a "Republican' legislature, the election of an Additional Law Judge, those expenses are greatly increased and rendered of an uncertain and fluctuating character .-It is impossible for the commissioners to know in advance how many special and adjourned courts are to be held during the year. In order that the dear people may not be deprived of the great "Republican" blessings conferred at present governing the party. on them by these numerous courts, it is necessary that a sufficient surplus should be in the treasury to meet the possible cost of holding them. By the time the State Treasurer gets his dividend and the expenses of the extra courts are paid out of the balance of \$13,866.96 it is not very likely that much of it will remain to be put out at interest, either by the county treasurer or the commissioners.

To complete the explanation of the fact that there is a larger balance in the treasury at the beginning of the year than formerly, it is only necessary to state that the taxes are now collected between the first of June and the thirty-first of December. During the first five months of the year, no taxes at all are collected. Hence it is necessary that there should be about \$14,000 in the treasury at the beginning of the year to meet the current expenses of the county during those first five

If the editor of the Inquirer would do the people of Bedford county a service, if he is really desirous of lightening the burden of taxation under which they are struggling, let him demand of his political friends in the legislature a proper correction of the outrageous statute under which the State Treasurer at present reaches into the county treasuries and seizes such sums as he pleases to take, and furthermore, let him agitate the repeal of the Act of Assembly which provides for an Additional Law Judge for this Judicial District. Let bim begin the work of reform in his own household, and cease his grumbling.

THE ONLY SALVATION.

For years the little leaders of the socalled Republican party, have assured their followers that the charge made ly, that it was their design to force black suffrage on the country, was Some people are constitutional grum- false, and in many cases they went so blers. The editor of the Inquirer is far as to declare that if their party ever one of them. It is not in his nature to proved itself capable of doing so monstrous a thing, they would themselves be the first to leave it. How can these preheesive mind. With the exception men look the people whom they have of that wonderful panacea for all polit- so wantonly deceived, in the face ?-How can they ask any one to believe their statements in the future? Next fall every ally can do nothing to suit the rigid African in Pennsylvania will go to the morality and transcendental political e- polls and ask that his ballot shall be received by the election-officers. In less than a year negroes will sit in the the management of the county finan- jury-box in the Bedford courts. Now, ces, he finds nothing in the record of if the people had been permitted to vote on this question and had decided approval. It is his business to decry that the right of suffrage and other privileges consequent upon it, should be granted to the African, there could be no complaint. The voice of the people is the voice of God. But the maliciously intended to bring into sus- the Republican leaders have impudentpicion the Democratic management of ly ignored the popular will, and, the county treasury. Some years rangement of the plan of creation .-The iniquity of such wickedness cannot stand. Certain, swift and terrible punishment is sure to overtake it .-The only question which remains to be decided, is, Shall the judgment of outraged Heaven fall upon the Nation, or shall it be visited only upon the heads of the guilty authors of the crime? Either the Republican leaders must be overthrown, or the community at large must suffer for this offence against the rights of the people and the laws of God. This is the only alternative. The only salvation of this country from the curse of a mongrel race, mongrel society and a mongrel government, is in the early and complete and final overthrow of the present leaders of the so-called "Republican" party. This must, in some measure, be done by "Republicans" themselver. Whether, indeed, there remains enough righteousness in that political Sodom, to secure so great salvation, is a matter of the gravest cratic Mayor by a handsome majority, House. After a long debate the doubt. But we shall see.

Pursuant to notice a Convention of the Democrats of Bedford County was held at the Court House, on Teusday night, March 1. The Covention was called to order by E. F. Kerr, Esq., Chairman of the County Committee. On motion P. G. MORGART, of Bloody Run, was appointed President, and J. G. Fisher, Secretary. The following resolutions, after some discussion,

Resolved, That the Rules of the Democratic party adopted in the year 1869, be suspended for the present and that a county convention to consist of one delegate from each election district be called to meet at the Court house in Bedford, on Tuesday evening of April court, for the purpose of determin g the propriety of changing the rules

Resolved, That the chairman of the Democratic County Committee is hereby instructed to give notice through the columns of the Bedford GAZETTE that an election will be held to elect delegates to said Convention, in the several districts of the county, on Saturday, the 23d day of April, 1870.

The Convention then adjourned. P. G. MORGART, Pres't. J. G. FISHER, Sec'y.

THE economy and wisdom of the present Pennsylvania legislature are most happily evinced in the obstinate refusal to publish at public charge a record of proceedings, and in the retention of a horde of pasters and folders, who are clinging to the rim of the treasury chest. With the non-publication of proceedings these fellows have nothing to do but sleep the hours away until the Speaker's hammer shall rap the hour of final adjournment. Yet it is gravely proposed in the House to add two hundred dollars to the pay of these drones! When the yeas and nays shall be ordered, the public will learn, even without a published journal of proceedings, the names of the members who will have the hardihood to thus shamefully vote away their money. Let the pasters and folders be sent home now, and let the great legislative scandal, with which they are connected, immediately be suppres-

The Funding bill shall unhappily prevail in Congress, and give speculators, with an increase of paper currency, further opportunities for enhancing the prices of all the necessaries of! life. The fear that the Supreme Court may interfere with the recent decision on the legal tender question, has, thus far not had any effectin disturbing the money market, and the public need now be under little ap- ting the Committee on Banking and prehension that a successful effort will be made to obtain a reversal. Under this bill, should it become a law, the Pennsylvania Canal Company might abandon their line a point east of Huntingdon and other shippers of freight in this section, to rely solely on the railroad for sioned would be a serious incumbrance to business men in this neighborhood, as well as to the coal-shippers of Broad Top. It is, therefore, very important that our representatives in the legislature be on their guard when this bill comes up on its passage. If it is to pass at all, it should be amended so as to require the company to keep the canal open from Huntingdon eastward.

It is intimated that it will soon thunder along the whole political sky .-Startling developments are expected to be made in connection with the Postoffice Contract Bureau, Certain irregularities, it is alleged, have occurred in the postal contract business. and one of the House committees is said to have "smelled out" evidence that will make certain officials wish the departments want overhauling, and more particularly the office of Internal Revenue, in the Treasury de-

Later London papers contribute the continuation of the proceedings in the Mordaunt divorce case. The evidence of Sir Charles Mordaunt is interesting as indicating the general feeling In regard to the character of the Prince of Wales. Sir Charles testified that before his marriage to Lady Merdaunt he knew of her intimacy with the Prince and that after the marriage he warned her against continuing the acquaintance, "I told her," said he, "that I had heard in various quarters certain circumstances connected with his previous character that caused me to wish her to break off with him." Notwithstanding this wish, Lady Mordaunt continged to receive the Prince without the knowledge of her husband, until the time she made the voluntary confess ion that a criminal intimacy had been existing between them. Sir Charles also testified to the discovery of a batch of letters and a valentine from the Prince to his wife. The court loyally

In the United States Senate yesterday, the Funding bill was further discussed, and Mr. Corbett, of Oregon, made an elaborate and prosy speech in favor of an amendment of his own. The negro Senator, Revels, made his debut in the presentation of a petition from sundry negroes in Philadelphia, praying for the passage of a bill enforcing the fifteenth amendment. Mr. Howe'l, the new Iowa Senator, also made his first speech in support of a resolution against the grasping spirit of the railroad monopolies. In the House of Representatives the Senate's amendment to the Post Route Bill was taken from the Speaker's desk and concurred in. The effect of the bill will be to prohibit the confirmation of Judge Bradley and compel the President to select a carpet-bag judge from the South. The Sena e resumed the dis cassion of the Funding bill, and listened to elaborate speeches by Senators Morrill, of Vermont, Morton and Sumner. In the House of Representatives Mr. Ingersoll attempted to procure the passage of a resolution calling upon the Secretary of Interior for information about the "massacre" of the Pie gan Indians. Mr. Stevenson, of Ohio who has taken upon himself the hard task of apologizing for General Sheridan, objected to the word "messacre," and refused to permit the resolution to be entertained. France has at last taken a very decided stand upon the question of the Papal infallibility. The Minister of Foreign Affairs, Count Napoleon Daru, has written an official note to the French representative at Rome, declaring that if the obnoxious dogma is proclaimed France will withgraw her troops from the Holy City. This is emphatic. The Pope must now choose between disappointment and revolution. What he will do in this dilemma is uncertian; but we learn, direct from Rome, that he is still confident of his ability to carry the proposition for infallibility. The London Times says that Spain and other Catnolic powers have forwarded notes similar to that of Count Darn. It is reported in Bru-sels that so far the ultramon tanes have been unable to induce the American bishops to declare for the dogma. The sessions of the Ecumenical Council will be resumed next week, when this important question, which seems to threaten the peace of the world as well as of the church, will

receive some solution. From the daily Scranton Democrat we learn of a terrible calamity caused by the explosion of a boiler in the Lackawana Iron and Coal Company's blast furnace at that place, on Monday evening, 28th ult., which carried death and desolation to many a hearth stone. The Democrat describes the explosion as being one of terriffic force, and the scene as being most heartrending and appalling. Ten persons are reported killed, nineteen wounded, and many of the wounded, dying. This seems to be the fourth terrible disaster at the same furnaces, the previous ones being even more terrible than the last. At the first, one hundred and ten persons were killed and wounded; at the second, forty-four were killed and wounded at the third, thirty-three were killed and wounded, and now twenty-nine have been killed and wounded.

More royal scandals. This time the Spanish Bourbons are in the pillory .-Ex-Queen Isabella has her family troubles as well as her royal sister Victoria. Prince Girgenti, of Naples, who married Isabella's eldest daughter three years ago, is a worthless roue and spendthrift, and has already squandered his wife's dowry. The telegraph announces that the unfortunate young woman has begun legal proceedings against him. This is not the worst, however. The Queen's husband hataken it upon himself to embargo all her ex-Majesty's private property in Spain to prevent the waste of the children's inheritance. The Queen has been living almost riocously since the beginning of her exile, and this action on the part of her despised lord was probably necessary to save something from the wreck for the future maintenance of the family.

Schenck's Pulmonic Syrup, Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills, willcure Consumption, Liver Complaint, and Dyspersia, if taken according to directions They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungss and the patient outgrows the disease and get, well. This is the only way to cure consumption. To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmanray consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the philegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleause the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

food will make good blood Schenck's Mandrake Pills act upon the live removing all obstructions, relax the ducts of the gall-bladder, the bile starte freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented ex-Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gail-bladder and starts the secretions of the liver like Schenck's Maudrake Pills Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Scaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Seaweel, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmone Syrap, and it is made into good blood without fermentation or souring in the stomach.

the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, heetic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dysp-psia, Cataarh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three melicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood: then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only Liver When there is no lung disease, and only Liver
