CONGRESSIONAL.

WASHINGTON, March 15. In the United States Senate yesterday Mr. Sumner made a personal explanation relative of General Prim's charge against him of falsehood. He said that the facts were that a gentleman purporting to be an agent of General Prim had interviewed him last spring on the subject of "settling the

Cuban question in a manner advantageous to the finances of Spain." Mr. Sumner introduced an important bill to strengthen the legal reserves of the national banks, and to provide for the resumption of the specie payments. The Georgia bill was taken up, and Mr. Trumbull delivered a forcible speech against the continuation of the Radical outrages upon the Southern States. Mr. Stewart spoke in favor of the bill to the hour of adjournment. In the House of Representatives, Mr. Rogers, of Arkansas, introduced a bill to abolish female clerks in the government departments. A free-trade resolution, by Mr. Marshall, was dodged by the Radicals and buried in the Committee on Ways and Means. The bill paying Mrs. Edwin M. Stanton a year's salary of a Justice of the Supreme Court of the United States passed by a party vote. The Deficiency bill was then discussed in Committee of the Whole, and Messrs, Niblack and Voorhees made excellent speeches in defence of the career and policy of the Democratic party.

WASHINGTON, March 16. How to radicalize Georgia was the theme in the United States Senate yesterday. Mr. Edmunds made an able speech against the bill. He had the honesty to proclain that it was better that Georgia should go Democratic ten thousand times over than that such a precedent as the bill proposed should be established. Mr. Drake offered an amendment to enable the legislatures and governors of reconstructed States to call upon the President for troops, and to declare martial law in disaffected districts. This proviso is marvellously like the bill just introduced into the British Parliament to keep down Ireland. The Senate passed the House bill to present Mrs. Edwin M. Stanton with a year's pay of an associate justice. Mr. Wilson introduced a bill to revise the general regulations for the government of the army. Our

Indian policy was discussed, and several Senators defended the Quaker pol-

The Bedford Gazette.

Annual Report of the Directors of the Huntingdon and Broad Top Mountain Railroad and Coal Company to its stock-holders. At the annual meeting of stock-holders, held on the first of February, B. Andrews Knight was re-elected President, and J. P. Aertsen, Secretary, with the following board of directors: Rathmell Wilson, C. D'Invilliers, John Devereux, William Cummings, Sam'l J. Christian, James Long, James W. Paul, A. P. Wilson, Wilson Whitaker, Edward Roberts, Joseph H. Trotter, John B. Wood. The Gross Earnings of the company for the year 1869, were \$301,184.31, an increase over last year of \$33,518,28. The expenses for 1869 combe, from this time until the next were \$181,388,72, being 17.09 per cent. less than in 1868. The Net Earnings were \$119,795.59, an increase of 41.62 per cent over last year. The number of tons of freight carried over the company's road during 1869, were 417,182, of which 360,778 tons were coal, the whole tonnage for the year exceeding that for 1868 to the amount of 109.122 tons.

This is a very gratifying exhibit. The increased earnings of the company have enabled the management to make improvements, such as filling up trestles, strengthening bridges, &c., which in the language of the report have "greatly increased the safety and stability of the road and superstructures, and also contribute largely to its more economical operation." It is complained that the number of coal cars, supplied by the Pennsylvania and Philadelphia and Reading R. R. Companies is entirely too small to satisty the wants of a constantly augmenting coal tonnage and that but for this obstacle during the past year the coal shipments would have exceeded the amount reached fully 100,000 tons .--There is a probability, however, that those companies will add 700 additional cars to the number now in service. The board of directors express pleasure in acknowledging that the satisfactory ginia carpetbaggers in particular .results of the business of the company are largely due to the efficient management of J. McKillips, Esq. Superintendent, and John Fulton, Esq., Resident Engineer.

The writer of this has, however, been assured by gentlemen who are deeply interested in the construction of the proposed road from Mt. Dallas to Bedford that a feasible plan for raising the means necessary to build the road has been devised and cords. that the route will be surveyed and put under contract in the course of a difficulty. The ins seem determined few months. The sum required to grade the road and lay down the track, is estimated at \$150,000. It is proposed that the road, on its completion, shall be the cold. It is due to the law and his leased to the Huntingdon and BroadTop Railroad Company, at 7 per cent. per annum on the cost of construction. It is doubted whether the latter company are willing to pay 7 per cent., but we presume they would be willing to their investment, it will not be a hard matter to find capitalists who will subcribe the sum necessary to build the road. The discussion that has arisen in Madrid over the propriety of ceding Cuba to the United States is as significant as it is sudden. That any number of journals should take the affirmative, and that the controversy on this point is permitted to continue, certainly give the proposition an importance that can hardly be estimated, A these organs of public opinion argue that as now the insurrection in Cuba

is nearly subdued, and the dignity of Spain properly asserted, it would be good policy to cede the island and thus avoid future complications. The only objections urged by the papers opposed to this are that the craving for American gold should be subordinated to Spanish honor, and that the agitation ted the graduates, and tender hands of the question is premature at present. Out of these discussions may eventually grow the solution of the Cuban problem.
