Lewis's nomination as Naval Officer will be confirmed. No single nomination, except it may be one of those in New York, has given the Administration so much annoyance as that of Collector at New Orleans. The Senate is certain to confirm the .action of the committee, which will be a very serious blow to Haves.

A bill is before the Legislature that provides for the building of a third Penetentiary for the state, to be located at Harrisburg. The dis-trict which is to send its convicts there embraces the counties of Dauphin, Lebanon, York, Cumberland, Adams, Franklin, Perry, Hunting-don, Miffiin, Juniata, Northumberland, Union, Snyder and Centre.

The papers of the several counties in the district are already clamoring to have the new state prison in their counties respectively, and the Repubwould help us much in a material or business point of view. These sombre and gloomy looking buildings certainly have nothing pleasing in or about them, and we are quite willing that Harrisburg should have the new Penetentiary, if one must be built. That would be the most appropriate location in the state of the cities not already supplied, and we only fear that our law courts may not always succeed to get the right

An exchange says: Six years ago the Senate of the United Sentes was Republican by a majority of just fifty. Yours, BRUSH.

REPLY. Enterprise is one of the primary requisites of a live newspaper, but we on't care to be so enterprising as to publish every floating rumor as local news. In that way we could fill cur columns with matter of but little interest to the general reader.

We could give instances in which Editors, in their eagerness for local news, have given currency to gross misstatements, and felt themselves in duty bound afterwards to make uniliating apologies. Besides we are young in the Editorial chair, but doing the best we can and are willng to learn.

The talk about a branch rail road s nothing new. Much has been said for the last three or four years, of what might, could, would or should be done in the matter. At present the project is pretty strongly urged, as we are informed, by our friends in Brush Valley, and we only hope something real may grow out of it. We assure our friend Brush" that we will be only too happy to give any reliable information on the subject as soon as it transpires. Just now we can say lican and Reporter urge the claims nothing, or next to nothing. We are no Engineer and have made no ef Centre. For our part we can not are no Engineer and have made no see much honor in having a Peniestimates of costs of construction, tentiary in our county, or that it probable amount of business, and so forth, and so forth, and so forth. Is "Brush" answered?

TOWNSHIP ELECTIONS.

The election for township officers will be heid on Tuesday the 19th of February, and it is just as necessary to have good and fit men to fill these places, as it is to have good county or state officers. Our local taxes amount to much more in the aggregute than our county and state taxes lo, and it concerns the public to know whether her funds are judiciously used or carelessiv squandered. The idea used to prevail that almost any one can build a good road or make a bridge, but people are learning-a little slowly percans Sharon, who its never in his haps-that such is not the case. uch money is wasted annually in

COOLI

The Reporter of last week in an article of some length, labors very hard to convince us Millheimers that a branch rail road from Coburn Station to Millheim, would not pay. slowly but surely coming to the con- The advice is plainly perceptible between the lines throughout the entire piece, that the Millheimers had better abandon all hope of ever realyou so all the time? Nothing in izing an enterprize so desirable, simply because it might not pay six per cent. on the investment. We respectfully suggest that Mr. Kurtz try to convince the Board of Directors of the L. In that enterprize he certainly has both a general and special interest, while, in a branch road from Forks to Millheim, he has not an iota stake

in any way. The Reporter's reasoning would very easily establish many unpalatable facts. There are but few, if any rail roads in the United States that pay six per cent. on the investment. The great Pennsylvania does not nor does the Philadelphia & Erie, with all its immense freightage, while many others are glad to make La running expenses. The stock of L. C. & S. C. R. R. can be bought for one tenth its original cost, and the road earns but little over current. expenses; but who for that reason wordd advocate to have it abandoned ? Certainly not the Millheimers. for they have already experienced the many direct and indirect advantages of rail road communication

with the outside world. The JOURNAL has always urged the early completion of the roadnot only to Centre Hall-but to Lemont and Bellefonte. Nor do we base any arguments upon such a flimsy foundation as direct profits. but upon the increased facilities for trafic and travel, and the development of our dormant resources.

The possible building of a branch rail road to Millheim is a matter purely local ; and if the Millheimers ation in their advertisement, and as this Company is perfectly responsiwe think they will do so without the aid and comfort of the Reporter, who ed a day, Katie Fulmer, Sadie Ocker, in advance refuses to take stock in

That species of religious feeling commonly known as Beecherism, and of which the Rev. Henry Ward Beecher is the central light, is fast declining. The attendance at Plymouth Church has fallen off very much, her pews do not bring over h If what they once did, and the Rev. Henry Ward visits small towns to lecture, such as he would not have thought of visiting several vears ago. Committees who engage him as a lecturer generally lose on the investment. All this may be a little hard on Henry Ward, but it indicates a return of a healthier sentiment among the Beecherites.

It is now an established fact that Con-SUMPTION CAN BE CURED. It has been cured in a very great number of cases (some of them apparently desperate ones) by Schenk's Pulmonic Syrup alone, and in others by the same medicine in connection with Schenk's Sea Weed Tonic and Mandrake Pills ome or s both, according to the requirements of the

care. The old supposition that "Consumption is incurable," for many years deterred Physicians from attempting to find a remedy for that disease, and patients afflicted with it reconciled themselves to death without an effort being made to save them from a doom which was considered inevitable.

Dr. Schenck himself was supposed at one time to be at the very gate of death, his Physicians having pronounced his case hopeless and abandoned him to his fate; he was CURED by the aforesaid medicines and after, ward enjoyed uninterrupted good health for more than forty years.
