## ATTEMPTED TRAIN WRECKING.

Placing Stones Upon the Track to throw the Cars down an Embankment. Special Dispatch to THE TIMES.

HARRISBURG, July 28. Last night an attempt was made to wreck a train a short distance north of Lock Haven. Several large rocks had been placed on the track and several bolts were removed so that the rails would have parced if the train had struck the rocks and been thrown down the high emban kment at that point into the river. A man who says that he had been fishing signaled the engineer of the intention to wreck a train containing several railroad officers, but when it was learned that the approaching train was not the right

SAD AND FATAL ACCIDENT,-On Saturday an accident occurred that brought the deepest mourning upon the family of Mr. Daniel E. Gentzel, at Penns Creek, as well as a gloom over that whole neighborcod. A load of hav, sold to Charles Snyder, had been left standing in the barn since having. On Saturday morning Mr. Gentzel was getting Millheim, Thursday Aug. 1. ready to haul away this hay. While backing the wagon out of the barn, he directed his son James to draw the lock, as the wagon was going down a steep incline, commonly called the bridge. While James was trying to do as directed, he slipped and fell, and two wheels of the wagon-one hind and one fore-passed over his body and head. He was literally crushed to death. In a few moments life had fled. He was about 14 years of age.

Funeral took place on Sunday afternoon at Heckman's grave yard. It is thought that so large a concourse of people had not assembled there on a similar occasion for many years. Hardly one third of the people present could enter the church.

James Gentzel was a bright young man. As a son he was dutiful, obedient and industrious. He was already possessed of a fine education for one so young, and his qualities of head and heart gave good promises of future usefulness. He is gone. Cut off in the bloom of youth, suddenly-instantly, we are again very forcibly taught that in the midst of life we are in death. What a solemn call to the young to be "also

Mr. Editor :- The great S. S. picnic for Brush Valley came off as announced, in Mr. Joseph Bierley's grove, Saturday last, and it was truly the grand gala day for the Valley. Three schools participated in the festivities of the occasion, besides hundreds of visitors who were present. At 8 o'clock the Madisonburg Ev. S. If the matter were given into the hands of a committee of ladies, with instructions to prepare a plain dinner it would be much better for all concerned, both in a bygienic and economic sense. Is the suggestion worty of consideration?

The invention consists of a very simple little attachment of the Wilson shuttle sewing machine for darning all kinds of rips, worn-out places, ect., in clothing, table and bedlinen, stockings, underwear etc., in the same manner that it is done by hand, and leaves the repaired part scarcely discernible. The operator of the sewing machine can durn a large-sized hole in a bed sheet or table cloth almost instantaneously. It is to be regretted, however, that this wonderful invention is patented and owned by the Wilson Sewing Machine Company, of Chicago, Ill., who will not permit its use except with one of its make of sewing machines, which the Company's manager states, is turnish-
