FUSION.

Considerable nervousness is manifested in certain quarters in the county among Democrats, over the possible fusion of the Republican party with the National - Labor-Greenbackers; and by some of our men who are perhaps a little weak in faith, it is feared that by such a splicing of the two elements, the success of the Democratic county ticket will be largely jeopardized.

For ourself we do not largely share in this fear. What the strength of the Greenback party is, or will be by the time of the election, can of course only be conjectured. It is the 'unknown quantity" that gives politicians and candidates so much anxie ty, and which makes results somewhat dubious. But it does not seem likely that the new party will be a very formidable factor in the political calculation in Centre county. .. We are a staid and steady people, not given to sudden and violent changes of opinion in politics. Our people and mechanical pursuits and do not take very kindly te new ventures and experiment in public or political measures, and they will not largely attach themselves to the fortunes of political adventures, whose principles and party are an abortive attempt to mix and fuse inharmonious

and antagonistic elements and ideas. We have taken some pains to ascertain the status and strength of the new movement, and feel assured that it amounts to but little on our side of the county; and unless it is very much stronger on the other side we need not fear in the least on that

Nor can we see how an intelligent honest Greenbacker—and there are such—can fuse with Republicans. It ii the oppressive, the grinding power of Republican financial legislation that makes the Greenbacker, and how can he fuse with the party whose action drives him almost to desperation? There is no coherency between the two and all attempts at fusion must prove futile. *
The duty of Democrats is plain.

Let them nominate men that enjoy the confidence of the people-men of integrity and fitness-let them place themselves unmistakably in a progressive attitude before the people and a glorious victory will follow.

THE STATE TO BE SWINDLED. OUT OF \$100,000.

It has recently been discovered that Pennsylvania state bonds to the amount of \$100,000, deposited with the financial agent of the state, but not issued, are now in the hands of innocent holders. The Bucks county Intelligencer gives the details and it is quite possible that Attorney General Lear may have prepar-

mey General Lear may have prepared them:

"It appears that in the year 1852 the Legislature authorized a loan of \$1,000,000, to meet the financial necessities of the times, which were then very pressing. This was found to be not sufficient, and at the next session an additional loan of \$500,000 was authorized. The bonds of the last issue were dated August 1, 1853, and were payable in twenty-five years. Wm. Bigler was governor and John M. Bickel, State Treasurer at that time, and all the bonds were duly signed by them. It turned out that the whole amount of money for the last issue of \$500,000 was not required, and after \$400,000 had been sold the remaining \$100,000 were left in the possession of the Girard bank, in Philadelphia, which was then the financial agent of the State. In process of time the State officers were changed and no one remembered the fact that \$100,000 of regularly signed but unmissed bonds were in existence. They remained in forgetfulness until within a few months, when the treasury officials became aware that they had somehow gotten into the market and were likely to be presented for redemption. On the lst of August a number of bonds, amounting in value to \$18,00, were presented at the treasury, they, being due and payable on that day. The question as to whether they should be recognized or not was submitted by Mr. Noyes to the Attorney General, and that officer has advised their payment on the ground that they are genuine bonds, now in the hands of innocent holders. How they ever got out of the custody of the bank, and into the possession of outside parties, is yet a deep mystery. It is said that the bank ledger containing the record of bonds disposed of under this loan has dis appeared. No coupons belonging to the over issue of bonds have ever been presented for redemption is the first tangible evidence of their existence that has come to light."

GRANT IN EUROPE.

John Russell Young, whom Greeley discharged from the Tribune for dishonesty, is in Europe with Grant -employed to travel with him-to aid in grooming him for a presidential candidate for a third term-to write his speeches for him, and then send them to the New York Herald. The Pennsylvania rings are supporting this job, and they are fitting Grant for 1880. The investment will pay them richly if they can make it successful, and the United

States treasury will bear the burden. Grant made a speech at Hamburg on the 4th of July, where he was entertained. Young has sent the speech to the Herald. Everybody in this country knows that Grant never wrote any such speech. In it Young, for Grants states that he (Grant) claims no credit for saying the Union—that if he had fallen there were 10,000 others as capable of carrying the armies to victory. He gives credit to the young men of the country who fought the battles. All this is true enough. Grant was by no means the ablest General. He seemed to care no more for 10,000 human lives than if the men were so many leaves of the forest. His victories were dearly won, and with an abler commander-in-chief they would have been won with a much less loss of life.—Dem. Crusader.

TERRIBLE TORNADO.

A fearful tornado passad over the

town of Wallinford, Conn., on Fri-

day evening, the 9th. At six o'clock

while the men were leaving the several factories in the vicinity of the line of the N. Y., N. H. & Hartford Railroad, it began to rain gently. In a few minutes the rain increased to a perfect deluge, while the lightning illuminated the darkened sky as bright as day and the thunder rolled with a continuous and deafening roar. Without a second's worning a tornado of wind, mingled with rain and hail, swept across the northern part of the town from west to east and everything movable in its track was carried away. It seemed to last but a moment, but its results were frightful. Afterwards light rain fell, which soon passed off, and at eight o'clock, when the train arrived with aid from Meriden, the leavens were clear and the moon shone brightly. By actual count forty dwelling houses were demolished and at least fifty barns. Thirty persons were killed or mortally oundations from a few feet to an eighth of a mile. In the line of the ornado nothing was left standing and on each side of its track lesser lamage was done chimneys especially suffering. The Catholic church, wooden, and the new brick High School were totally demolished. The top of the brick factory of the Wallingford community was carried way. The manner of deciding as to who was entitled to the prize, was as follows : Prof. Squire selected eight pieces of music, and then sent them to between five and six thousand bands, in the United States and Canada, and requested not later than Saturday, October 5th, the Bands to vote upon the merits of the music. The voting resulted in selecting the music written by Prof. Feehrer. This is gratifying to the numerous friends of Mr. Feehrer in this section of the state, and it is certainly a well merited tribute, the musical skill of one whom we have long regarded as the leading Professor of Band Music in the State, and who has by the vote of the Bands of the country, been selected as the Champion Musical Composer of the United States .-Selinsgrove Tribune.

STOCK RAISING and WOOL GROWING are very REMUNERATIVE. The winters are short and mild. Stock will live 'all the' year on grass! Living Streams and Springs are numerous. Pure water 'is' found in wells from 20 to 60 feet deep. The Healthhest Climate'in the World! No fever and aggle there. No middly or impassible roads. Plenty of fine building stone, lime and sand. These lands are being rapidly settled by the best class of Northern and Eastern people and will so appreciate in value by the limprovements now being made as to make their purchase at present prices one of the very best investments that can be made, aside from the profits to be derived from their cultivation. Members of our firm reside in WA-KEENEY, and will show lands at any time. A pamphlet, giving full information in regard to soil, climate, wajer supply, &c., will be sent free on request.
