THE CURTIN CONTEST. Two Thousand Illegal Votes for Yocum Specified and Fraudu-

lent and Corrupt Practices on the Part of Election Officers and Republican Politicians

Special to the PATRIOT.

BELLEFONTE, December 11.-Yesterday notice was served upon Seth H. Yocum, the holder of the certificate of election to congress from this district, by Gov. A. G. Curtin, that the latter would contest the right of the former to a seat in the Forty sixth congress. The notice is very long, consisting of nearly one hundred specifications of the grounds upon which the contestant will rely. It specifies nearly two thousand illegal and fraudulent votes cast for Yocum in the district, in addition to which many acts of bribery and corruption, together with wilful misconduct on the part of election officers are charged. In elected Democratic judges and inspectors of election turned "Green- Mottoe Frames backer" thus giving to the opposiand the honest portion of the people of our good old common wealth will be surprised at the developments which will be made in the testimorepublican county committee of Clearfield, O. S. Houzt, chairman in Clinton, D. H. Hastings, Yocum's law partner, with several others who have heretofore claimed respectability, will probably be badly smirched before the case is ended; and some of them will undoubtedly be prosecuted in the riminal courts for serious offences against the laws dur-

ing the late campaign. that Governor Cartin will get his seat. The frauds and illegal voting which can be squarely proved, are sufficient to overcome a majority ten times as large as that returned for him .- Patriot.

#### OBJECTS OF BUILDING A\$\$0(11\$10X8.

There are two objects of fiscal institutions of this nature, each of which, owing to its importance might very properly be termed primary, yet we give precedence to the fact that the first object is what the name in itself implies-to assist and encourage building homes by giving aid financially to members who otherwise would not be in a position to secure homes of their own; also to promote building and improvements established, thereby developing and enlarging such towns.

When we refer to the history of ernor of Wyoming. corporations, the many new socie. ties organized annually, the immeasurable aid that they have given members to build, the incalculable factors they have been in the development of the city, the fact will be impressed upon our mind that they are of benefit to members and to

places wherein organized. The other primary object is that parties may invest their monthly surplus or savings which when payments and gain accumulations have matured the series wherein stock is held entitles them to two hundred dollars for every share held.

The term saving with many implies what they can lay aside by curtailing their usual household expenses and it is in this sense that it properly applies here and the importance of having an accumulated fund to which payment must be added, should not be underestimated, for the reason that many under or dinary circumstances unless they have something to stimulate, will not have any surplus left.

That a person having shares upon which monthly dues are to be paid. will not be stimulated to save. no one will question; or again that it is the duty of all having families to economize sufficiently to leave an annual surplus. Having referred to these objec s and advantages we will also speak of their proper manage

The preper investment of the funds and economical administration of affairs is all that is necessary to insure safety and profit to investors, and at the same time secure the growth and success of such or-

ganization. The losses that some old Associainvestment of too much money in individual properties. The shrinkage in values of real estate during the last few years paturally would then cause a material deficiency in the assets of such institutions.

But shrinkages are at the bottom. cioustime to extend business and se- place, Thurs lay, at 1 o'clock.

The Bellefonte Republican tor wunst is struck with a streak of fairness and calls the Journal "hand-some indeed." We feel ever so thankful for the compliment, brother Tuten and would, oh, so gladly return the compliment but for the fact that our pious parents taught us a practical respect for the principle that actuated Washington af ter he cut down the cherry tree. No-we can not tell a ---

### GREAT FLOODS.

The rain of Monday and Tuesday state. Houses, barns and all kinds of movable property were carried off bridges were swept away and railroad tracks were torn up. The Le-Tuesday evening we received a high, Bushkill and Delaware rivers are reported to have been unusually high. The Susquehanna river rose the damages caused on the tracks. and grain could be seen moving swiftly along. The farmers are heavy losers, as large amounts of grain have been carried away. Williamsport the water entered the buildings near the river, and many houses were flooded to the second story. The mills and lumber yards with but few exceptions, were in the water. Considerable damage has been done, and a large am mac of iabor will be required to repair the injuries. The losses caused by these

floods are counted by thousands. In our own town the Elk Creek rose to a considerable height, and nearly all the cellars were more or less fi'led with water, doing some damage here and there. One of the railroad bridges between Coburn and Spring Mills Station had given
