RECOMING TEREATNING. Mr. Delegate Cannon, who represents Utah in Congress, is very much worked ap about the decision of the Supreme Court to the effect that Congress has the power to legislate against polygamy. He has no idea that the Morman people will "yield their principles to the dictates of a Supreme Court." They may have to give up some of their wives and contract the circle of their mothers in-law, but they will still believe in polygamy. It is the threat of Mr. Car non that if the Mormons ever leave Utah for religion's sake ever leave Utah for religion's sake— meaning because they have more wives than the law allows—they will leave it a howling wilderness. No other people will be permitted to enjoy the fruits of Mormon toil, and they would rather fee to the mounthey would rather nee to the tains and wage eternal warfare than to submit to such proscription as that under which they have formerly suffered." An impartial observer of human antics might suppose that Delegate Cadnon is a little mad about something or another.—

A BIT OF REFORM.

Last Thursday in the Senate of appropriating \$1,000 to defray the spenses of the Governor's inaugurtion. Mr. Ermentrout defended the resolution by advocating re-trenchment, and cited (the expenses of former inaugurations to show that the cost had been gradually innereasing from the time of Governor Curtin, whose first inauguration cost the State \$371, until the last inaugaration of Governor Hartrauft which cost the State nearly \$5,000.

On the same day in the House, Mr. Sherwood, Democrat, of Northumberland, offered a similar resoletion. If the State gets off with a resonable sum to inaugurate Hoyt, the people will have the Democrats to thank for it.

An Interview with Mr. Moeby.

From the Nevada Silver State. The celebrated Virginia bushwhicker and guerrilla chief, John 8. Mosby, who was converted by Grant's wine and a promise of office from an ultra Secessionist to a radical Republican, while on a visit to Washington a few years ago, passed here Tuesday evening with a commission as Consul-General to Hong Kong, signed by Hayes and approved by the United States Senate. At siderable curiosity to see Mosby, but were drawing near, she agent Duff of the narrow gauge road pointed him out. "I have cause to remember him, and never will forget him." said Mr. Duff. "I was on a train which he captured in Virginia during the war. He compelled us to stand in a row alongside the cars on a cold wintry morning, while he robbed the train and passengers. We complained of being cold to Mosby, who said: "I'll make it hot enough for you directly," and kept his word by setting fire to the train and keeping is alongside the burn ing cars until we were almost roast-

Gen. James shields has recently been elected United States Senator by the Legislature of Missouri, to serve the unexpired term ending March 4th, next. He was born in Ireland and emigrated to America in 1826. In 1836 he entered the Illinois Legislature; in 1839 he became Audifor of the state, and a few years later he was elected Supreme Judge President Polk appointed I in Jommissioner of the Land Office in 1845. He served in the Mexican war as a Brigadier General, and was severely wounded at the battle of Cerro Gordo being shot through the lungs. In 1849 he was elected U. S. For the Journal MR. EDITOR: I noticed in your issue of Jan. 9th the proceedings of the School Directors' Convention, which met on Institute week. Since reading the same we are told that the second part of the plan adopted to carry out the preamble and resolutions, was adopted through the influence of certain agents of a New York Publishing House, who had been traveling through the county during the five or six months preceding the convention, doing all they could to have their books introduced. This action is likely to deter publishers from entering the contest where one house has such a decided advantage over all others. Many good text books may, on account of said action, not be

presented at all. In our country schools we want our series of text books much curtailed. In Arithmeties the series consists of about a half dozen books where two would be amply sufficient. Pennsylvania Mr. Ermentrout, If we had a Fir t Lessons and a Practical, Democrat, offered a joint resolution combining both mental and written it combining both mental and written, it would be all we would need. We know of two or three houses in our state, who publish just such books as we need.

Greenleaf's are very good Arithmetics in many particulars, but the series is so large that it requires too many classes, and there are so many editions that it is very hard getting along with them. Persons who have used them will no doubt remember that in Greenleaf the pupil is required to solve examples containing fractions long before he has entered "fractions," or has any knowledge about them.

We do think that clause should not have been passed, and hope that the Directors of | ell, 1. Miles, Penn, Gregg and Haines townships, will look to the rest interest of our schools. and select such text books as they think will best suit our wants and further the cause, that clause, the New York house and Millheim, Aaronsburg, Woodward its agents to the contrary notwithstanding.

Enforced Silence for Twenty Years.

Form the Oglethorpe (Ga.) Echo.

There has just died in this county a lady who, at the age of sixteen, years, from some cause or other, stopped the use of her tongue, and until just before her death, twenty years after, she was never heard to Palisade the citizens manifested con utter a word. As her last hours more than one half. no one seemed to know him until some of her friends and dietated her will in a manner that proved her sound in mind and fluent in language. She spoke of many things that occurred in the country during the apparent dumbness, but gave no reason for her strange conduct. An attempt was made to break her will on the ground of insanity, but it failed.

Foughkeepsie Solving the Tramp Question.

POUGHKEEPSIE, Jan. 20. ached to the city almshouse is a quarry from which stone is taken in boulders by pauper labor, and carried to the stoneyard of the institution. This yard is supplied with wood boxes which hold two, three, or four square feet of broken stone of the size of stove coal. Many sledge hammers are lying around loose. At dusk, when the tramp applies for shelter, he is told that he can have a bunk for the night if he will break three square feet of stone. If he consents he is conducted to the stone yard, and when his task is finished he is given something to eat and a bed. In the morning he wants breakfast. "Will you earn it in the stone yard?" asks the Superintendent. If he concludes to do so he is again sent to the yard, breaks the stone, is given his breakfast, and departs. In nine cases out of ten he never comes here again. The records of Superintendent Dutcher shows that the tramp applications for temporary relief at the city almshouse since the stone yard system was instituted has fallen off fully seventy per cent.

The Wonderful Story that Comes From an Indiana Town.

Next morning the daughter arose, and having prepared breakfast, went to the adoining room to call her father, and was horrified to find him lying on his shattered bed, a mutilated corpse. Her screams prought the husband quickly to the bedroom, and an inspection disclosed a ragged opening in the roof, directly over the breast of the unfortunate man, which was torn through as if by a cannon shot, and extending downward through the interests of the people may care the bedding and floor; other holes for itself. OUR BAND.

Our Band boys paid Mr. Frank Bowersox a visit last Thursday evening, and played all their best music for the benefit of the host and h.s family. Mr. B fetched the boys in a large sled early in the evening, and returned them again safe and sound, after the pleasures of the evening were over. With music, refreshments, "apples & cider", mirth and fun, the affair was a nice social enjoyment, and the boys think it would bear repeating.

On Saturday afternoon a majority of Millheim Lodge, No. 955, I. O. O. F. accompanied by the Cornet Band, paid their brethren at Centre Hall a visit. Human happiness is often of but short duration, and this fact was again exemplified by an incident that happened here last week. Our Express man, Mr. Geo. He laughed all over, for, said he, "the two bushels of rye will make at feast two gallons of genuine Stover."
