THE CONVENTION.

Concerning the musical convention which had a session here nearly all of last week, there is but one mion and feeling-that of entire satisfaction. For ourself we confess to much agreeable disappointment. We were not sanguine of success, and it was with reluctance that we consented to the use of our name as one of the committee. We feared failure, for our local musical talent — and we have some as well as other places—lay fallow for years, until recently, when through the efforts of Mr. A. Lukenbach a singuing class was formed. The ment. We were not sanguine of singing class was formed. The committee, however, (Present company, of course, excepted,) under-stood the status better and went to work with a will, and it soon became manifest that the convention would prove a success-and so it did, both as regards the attendance and the performances. Nor is even the financial result-just so very con-

temptible.

The convention culminated in a grand con ert, on Friday evening. The spacious church was filled to its utmost capacity. The order was were a few common lace pieces executed, just enough though to give variety to the whole-to show the difference between what is first class and what medium.

Rev. J. G. Shoemaker was called men for an address, and responded in a manner that delighted the entire andience. He was in his very happiest mood, and that means that he can then make an off-hand speech as but few men can, of course-present company excepted.

The community owes a debt of noble work in reviving the dying embers of vocal music in our midst, and we can discharge that debt in no better way than by belping along the good work so well begun.

The following is a list of the members of the convention with their post office addresses :

Township Auditors. - We transfer the following seasonable advice from the columns of the Altoons Sun: "Township auditors too often neglect the publication of the township accounts. This is required by law, and penalties affixed for neglect. Cases have come before the courts in several counties of the State, and the auditors have been fined for neglect. The substance of the several laws on the subject is us follows :

First. The auditors are required in each borough and township to settle the accounts thereof, and to publish the same not only in newspapers, but also by written or printed statements put up in the most public places in the boroughs and ownships, as soon after the close of the fiscal year, which is on the first

Monday in April, as possible.

Second. If the borough or township is in debt. has a funded or floating debt, it must be included in the statement, together with the valuation of property, etc., and published in at least two newspapers, and embraced in the written or printed statement also.

It is necessary that the auditors of the respective boroughs and townships should go to work at once and settle the accounts as they are on duty cound to do, and have them published as the law directs. When the borough or township has no indebtedness neglect to publish incurs a fine of \$20; but if the borough or township is in debt the neglect incurs a fine of one thousand dollars.'

In a private letter from Mr. Murray, one of our Representatives at Harrisburg, he speaks in a very deprecating manner of the slow progress made in the business before the House. Mr. Murray thinks all the legitimate business could be done in a short time and the members be permitted to go home. He has no hopes however that the Republican majority will permit any such course, but that they will spin ont the session to the utmost, as is their fashion. Ke writes: "The House is making very slow progress with the immense number of bills already reported. Unless matters are more rapidly disposed of than has been the case during the seven weeks we have already spent, we might as well make up our minds to stay all summer."

It is said that Union county pays about \$23,000 annually to keep, her poor. Now that does seem to be a big pile for so small a county, yet the figures may be correct for all

Prof. C. L. Gramley, also well known in these diggings as Cephe Gramley, is running a musical conyention at Madisonburg, this week. This is Cephe's "first attempt" in that line, but we do not see why a convention "run" by such a good looking, sociable and altogether smart chap as Cephe is should not be an entire success, and we hope it will be. Convention closes with a concert on Saturday evening. Let there be a full turn out.

CONSUMPTION CURED

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, cafarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases has

Our winter schools term is ap-proaching its end and we are gratified to hear that teachers, scholar, young men have united and are preparing to have a grand exhibition. That's right boys. Bu, let us whisper one word of advice into your ears. If you undertake the matter do it up right. Don't be satisfied with half way excellence. It requires considerable study and discipline to render an entertainment of that kind first class, but such preparatory work will pay excellent and the performances generally of a very high order. There around in stores and shops. Fact.

EX-AUDITOR WM. II. HEATH, of St. Louis, who has just been found guilty of embezzling school funds to the amount of \$140,000. makes an interesting confession. He says that some friends of his once led him to play a game of poker much against his will. After the first game he tried the second, and so on until the passion for poker at last mastered him. He was introduced to professional gamblers un-der fictitious names and was swingratitude to Mr. Lukenbach for his dled out of thousands and thousands of dollars before he discovered the plet. Then he had to steal to make good his losses. He will now make vears.

Chestnut Street, Philadelphia, Pa. CILDOM ITEMS.

The great shooting match for the Championship of Western Pennsylvania came off at the appointed time and place mentioned in my last letter. The distance was 200 yards. The first prize was awarded to Dr. St. Clair, of Franklin; the second to A. J. Dempsey, and the third to Willis J. Weaver, formerly from Rebersburg, in your county. There is to be another tournament soon, at the same place, because many of the shooting clubs could

not be present at this one. The negro protracted meeting is still in full blast, and it would take more than the eloquence of a Demosthenes or Cicero, to describe it. But it looks as if they would need a new church by the time the meeting

closes, even if it lasts so long. Did the ground hog see his shadow in your part of the country? There was no sunshine here that day, but some say it did shine a little while in the morning, and so we are to

have "Six week's sleighing in March." We had a flood a week or so ago but the waters have again subsided. Dear me! how the valentines have been flying to and fro, for about a week. Almost like a shower!

The weather is very cold, but coal is cheap—only \$2.50 per ton. Oil is \$1.25 for light and \$4.75 for heavy. Franklin. PETE ROLIUM.

He goes off in ecstacies behis home in the penitentiary for ten eause the 'publicans won such a"glorious victory" at the recent borough election of Lewisburg, while every patriotic citizen sees good cause to weep over such a calamity.
