-On Sunday last Mr. A. Walter and F. P. Musser met with an accident, which though bad enough came very nigh of being much worse. They were in a buggy on their way to Clintondale campineeting, and were overtaken just before crossing the bridge, near Loveland's store, by a party of three or four, in so many conveyances, who were racing and by driving around them they cut off the bridge. Their horse took fright and sprang down the embankment, upsetting the buggy. The top was broken clear off and the buggy otherwise badly damaged, and it is a wonder in view of the nature of the accidept, that both the occupants escaped without any material injury to them-

=PERSONAL.-Mr. Jonathan Philips one of our oldest men and citizens, seems to be on the decline. He is still able to be up but can no longer walk around town. He is in his eighties.

At the Union County Harvest Home we had the pleasure for the first time to meet Thos. Gucker, Superintendent, and Mr. E. S. Harrar, General Ticket Agent, of the Williamsport Division of the P. & E. R. R., of which our road is a branch. They are said to be rail road men of a strictly No 1 grade, as regards qualification and efficiency. On this point we are no judge, but we do know that both of them impressed us with the fact that they are gentlemen in the best and fullest sense of the word.

Somebody sent us the fall catalogue morning the day passed off without of the Central State Normal School, of tions of its kind in Pennsylvania. Ex-Gov. Curtin and Ex-Gov. Bigler are both members of the board of Trustees -the latter being President. The faculty consists of nine professors and teachers, among whom we notice the name of Prof. James W. Bright, A. B., son of the late Samuel Bright, of Aaronsburg. James has charge of the Ancient and Modern Languages.

The location of the fine building as well as the building itself, is all that could be desired. Situated on a hill overlooking the young and enterprising city, the Central State presents a very imposing appearance; and if the internal arrangements (which we have not seen) are as practical as the external appearance is symmetrical and peautiful, then indeed are the comforts of students well cared for.

The rules and regulations of this institution are stringent, but salutary, and the moral and social culture of students seems to be a primary consideration with the teachers.

The institution can safely be recommended to such as wish to make teaching their profession and it is much to be desired that our teachers, by attending this or some other institution of the kind will fit themselves better to fulfil the duties of their high and responsible calling.

For the Journal.

AN EVIL.

There is indeed no more pleasing sight than a well-behaved child. How parents drudge for it! How the whole household is ready to humor its whims! Grandpa takes it on his back and plays with it; the ferocious watch-dog will not harn, it; robbers and pirates become kind and gentle toward it; even snakes, as stories go, respect its formidable innocence.

But there is one place where the child is enwalk about. Hope he may continue to | tirely out of place-I mean the church. It rare ly behaves there, and is nothing but a disturber. How often have we seen the restless infant at church, "mewling and pucking in its nurse's monizing and scattering the attention of the audience to the four winds. Mothers mean well; they want to get the little ones into the habit of church-going and show off the prettiness of their treasures to the neighbors. But it will not do. The audience is in danger. Sleeplessness, pins, or green apples may at any moment throw the little darlings into convulagainst the bringing of little children into church. Mothers, let your good sense triumph over your indulgent fondness and make your

BURBANK, OHIO, Aug. 20th, 1879. Friend B. O. Deininger:

This is to inform you that your humble servant and wife arrived safe home from our visit and John D. Foote that made board at 11 o'clock the same evening landed us in Pocket Bibles, Photograph Albums, Burbank, a distance of 350 miles. How does that compare with stage travel 40 years ago? The wheat crop of Illinois this year according to the returns of the State Board of Agriculture, amounts to 42,-041,252 bushels, an average of 192 bushels to the acre. This crop is valued at \$37,277,757, or an average of 88 cents per bushel in the farmers' hands. It is the largest and most valuable wheat crop ever sown in Illinois. The area of land sown in wheat was 2,137,063 acres.

Miss Helen Reade, daughter of a prominent attorney of Ebensburg, Cambria county, was married a few days ago, contrary to her father's desires. Her brother made an effort to shoot her husband, and the young lady was so prostrated with the excitement that she died on Friday.

The San Francisco Chronicle says: 'Dr. Hugh James Glenn, one of the great farmers of California, has 45,000 acres in wheat and expects 1,000,000 bushels, worth in California 90 cents per bushel. To put out this immense crop he has 130 gang plows, 60 headers to cut the grain, to which belong 180 wagons, 6 cleaners, 100 harrows, 18 seeders, 6 threshers and 6 engines. He employs nearly 500 hands. He has 1000 work horses and mules, and 1000 brood mares. He has on this farm 32 dwelling houses, 27 barns, and other buildings to make up 100. Such is a specimen of western farming."

A TERRIBLE FIGHT.-Kansas City, Mo., Aug. 24. James Dobbins and Michael Burns, farmers and neighbors living six miles west of here, in Kansas, had a desperate and fatal encounter Friday eyening, in which both were killed. It appears that Dobbins owed Burns money, and on the evening named, while passing Burns' place, was dunned offensively for it by Burns. The latter having a revolver in his hand, Dobbins said: "You have the drop on me now, but if you'll wait till I come back I'll be ready to meet you." Dobbins then drove heme got two revolvers, went back to Burns' house, found him sitting on the doorstep and opened fire upon him. Burns went inchanged in very close quarters.
