there, d me some tes in the gray of the morning, and set me up with a fresh horse. To make a long story short, I rode into Landman's Drift between two and three in the afternoon of the 5th, having ridden about hundred and ten miles in twenty hours; the road, in getting fresh horses &c. 1 tells fearfully on these colony ponies. Yet Dawnay did not reach Landman's Drift till 10 p. m. on the 5th inst. Leaving the Unfaloosi one hour behind me, he did not me. My riding, it appeared, was not yet red to General Marshall, in command at Landman's Drift-Marshall is about the clearest-headed of our chiefs-that some time might elapse before direct communication could be opened up between Wolsebe able to tell him regarding details might seen in more and better eggs. be of service to the former if I were to hurry through with all possible speed to Port Durnford. I wasn't in the best case for spent bullet. It had not broken the skin, but made a contusion, and the long ride had set up not a little inflamation. But it was not bad enough to let it beat a fellow, and off I set for Landman's Drift about one in the afternoon of the 6th, bent on reach-

Skulls of Murderers.

which I did.

One of the most curious collections in the great Anthropological Museum in the Paris exhibition of last year was a collection of thirty-six skulls of murderers who have been guillotined in France. This collection has been carefully studied by Dr. Bournier, who has published the result of rearing of the 'ship of the desert," says or three minutes, and serve while warm his studies in the last number of Broca's they are no more trouble to raise than horses with sugar. Revue d'Anthiopologie. The most strik- or cattle. The colts for the first three or ing result of his observations is the very four days are rather tender, and require large cubic capacity of these crania. In close attention, but after that they take fact, the average volume of the thirty-six their chances with the herd. They feed skulls, measured with shot by Broca's on cactus and brushes chewing all grasses method, is as much as 1,547,91 cubic cen- that cattle and horses eat if the favorite timeters. Eliminating, however, one of cactus can be had. The females, with the skulls, which is of anusual size (2,676 proper care, give a colt every year, and the cubic centimeters) and is obviously abnor- price at which they are sold, the ease with light. mal, the average is reduced to 1,531 cubic which they are raised, their extreme docicentimeters. But even this figure is con- lity, and the adaptability of our climate to siderably higher than the average of any their nature, would seem to indicate that ordinary series of modern crania. In order camel raising is a profitable business in to find skulls of equal capacity it is neces- Texas. Mr. Lantear says there is one sary to go back to prehistoric times; thus camel in the herd that has traveled 150 the capacity of Solutre skulls is 1,515, and miles between sun and sun, and that almost that of the type from the cave of L'Homme any well-broken camel is good for more Mort is 1,906.5 cubic centimeters. The de- than 100 miles in a day. velopment of the murderer's skull is not in frontal but in the parieto-occipital the region, and it appears to indicate a low inlectual standard, with a strong tendency to powerful action. Most of the cerebral characteristics presented by the skulls of these criminals are comparable with those of prehistoric races. A murderer may be ter may be explained on the principal of atavism, or reversion to an early type. If a prehistoric savage could be introduced into regarded as an anachronism, and his characodern society he would probably become a notorious criminal; on the other hand, if one of the brutal murderers of modern times had lived in prehistoric ages he might have been a chief of his tribe, highly respected.

Passion gets less and less power the stomach, bowels and liver common to such after each defeat,

making him go round in a circle. If condition of the body, which is relieved the first dance of this kind doesn't cure by an occasional dose of Dr. Bull's Balhim, the second one will be sure to do timore Pills. Try them, they will do it. To cure a balky horse, simply place you good your hand over the horse's nose and shut off the wind till he wants to go. one hundred and ten miles, using six horses. The brains of horses seem to entertain It was not much of a ride for speed—one but one idea at a time; thus, continued whipping only confirms his stubborn but look at the delays in losing and finding resolve. If you can by any means give him a new subject to think of, you will know that I never halted in any one place have no trouble in starting him. A more than half an hour, and that I made simple remedy is to take a couple of good speed is evident from the following turns of stout twine around the fore fact: After I had left Lord Chelmsford leg, just below the knee, and tie in a changed has mind, and started off Guy bow knot. At the first check he will Dawnay an hour later, under escort with go dancing off, and, af er going a short ful of butter. his formal despatch. I am nearly three distance, you can get out and remove stone heavier than Dawnay, and weight the string to prevent injury to the tendon in your further drive.

As a general thing it is cheaper and more convenient to get seeds of the rereach Landman's until seven hours behind gular seedsmen than to save them. But if any are saved, let them always be of over. On the morning of the 6th it occur- the earliest, fairest and best specimens. hot water, and stir until it begins to thicken like soft custard.

It is stated that Indian corn charred into charcoal will make a valuable condiment for poultry. It will put the hens in good health, and cause a generley and Chelmsford, and that what I would al toning up of the system that will be

THE manure of cows and pigs resists decomposition for a longer period than another long ride, it was true. ALWAYS some hitch about it-a har-

Indian Depredation.

The fair reader shudders when she home-made yeast or two tablespoons of thinks of the settler's wife watching, brewer's yeast, and Graham flour to from the door of her rude hut, the remake a thick batter; bake as soon as | treating form of her husband going out to his daily labor-going out perhaps to return not again, for before nightfall BEAUTIFIERS. - Ladies, you cannot a savage hand may have laid him low make fair skin, rosy cheeks and sparkamong the prairie grasses. Or it may ling eyes with all the cosmetics of be a child, a bright-eyed daughter, is France, or beautifiers of the world, snatched away in an unguarded mowhile in poor health, and nothing will ment, to grace the next war dance. give you such strength, buoyant spirits When we read the heartrending details and beauty as Hop Bitters. A trial is of these savage depredations, we are apt to blame the government for not taking more strict precautions to insure the settler's protection. But we daily SOFT MOLASSES GINGERBREAD.-One read of the depredations of that archup of molasses, a spoonful of saleratus, fiend, consumption, with scarcely a one of ginger, one tablespoonful of butthought of the terrible inroads it is

making in human life. Tens of thousands of homes are annually desolated by consumption to one by Indian outrage. Like the Indian, consumption oftenest comes stealthily, and no danger is apprehended until the victim boiled potatoes, add to them one pint of suddenly finds himself hopelessly ensnared, and death's fatal arrow ends the scene. Dr. Pierce's Golden Medical Discovery, a powerful alterative, or

blood-purifier, and tonic, has restored thousands of consumptives who had tried every other remedy recommended BILIOTS DISORDERS. Liver Complaint, Costive-ness, &c., are speedily removed by Dr. D. Jayne's Sanative Fills, a remedy mild and cer-tain in action, and may be taken at any time without risk from exposure. Sold everywhere,

What Frank Leslie's Illustrated Newspaper Says 0 A good plano at a fair price is one of the wants of the times. An instrument that is durable, that is substantially made, and has all those qualities of tone which make a first-class plano can be had from the Mendelssohn Plano Co., 21 can be had from the Mendelssonn Franceto, z East Fifteenth Street, New York, from \$140 to \$400. For over thirty-seven years their factory has been producing planos, and adopting every new invention which has proved liself to be COMPOUND OXYGEN The new ourse for na, Catarra, Bronchiliu, Acadache, Dyspopsie, and all valuable. They can be compared by an exper with the instruments of the highest name and fancy price, and the result is surprisingly satis-factory. The Plano is warranted for five years REMARKABLE CURES which are offered and no purchaser has ever made a complaint. From personal knowledge and critical examina-nation we can recommend any one to send for a catalogue to the above mentioned manufac-tures. turers. The Mendelssohn Plano Company's Organi

The Mendelssonn Plano Company's Organs are eminently the people's organs, and are worthy of the enviable reputation t ley so certainly enjoy. We cordially recommend them to the confidence and patronage of the public; and if our readers cannot find them for sale in the town where they live, or its vicinity, we ad-vise them to communicate with the Company, at its bedouarters in New York and look over at its headquarters in New York, and look over their circular and price list .- The Independent.

IF YOU ARE NERVOUS AND DEPRESSED tak HOOFLAND'S GERMAN BITTERS.

To whom it may concern. We are not in the habit of puffing, but since we came across the Ri th Bower of cigarettes, the Lone Jack, we are constrained to deviate and find ourselves continually puffing. We would say to our read-ers that the Lone Jack cigarcties are con-sidered by old puffers to be by far the most superior article extant, and if you will give Lone Jack civaret es a trial we feel puffed up to say you will be a first-class puffer, and our efforts will not end in smoke.

HIESKELL'S TETTER OINTMENT will cure all scabby or scaly diseases of the skin.
