

FARM AND GARDEN.

PLANT FOOD.—This must be in a soluble or liquid condition. All the necessary mineral fertilizing ingredients may be present in a soil and yet may be of no avail unless in a soluble condition, or unless they have a solvent.

THE ORCHARD IN SMALL GRAIN.—It not infrequently happens that wheat or oats are sown in the orchard. This, of course is not the best way of doing, yet from some cause or other, good, sufficient or otherwise, it is nevertheless done.

WATERING STOCK.—The supply of water in the winter is the source of trouble. Ice gathers on the troughs, and other drinking places, pipes freeze and burst or become choked, and many other inconveniences occur.

CABBAGES FOR SHEEP.—Cabbages are capital food for sheep at the present period; old shepherds always prefer them to turnips—they are such hearty food, so they say; and it happens this year, owing to the cool, damp summer no doubt, that all the early turnips are but in quality, or almost all, rot.

THE FARMER CULTIVATES HIS FARM IN summer and in winter. In winter he should improve his leisure time in cultivating his mind, so that it may yield a bountiful crop of thoughts.

As a food for horses, a mixture of oats and corn ground, to be fed with cut hay, is recommended.

How Savings Live.—The Utes live principally on bread and meat. When they can't get bread they live on meat, and when they can't get meat they live on bread.

COLOGNE WATER.—Take of alcohol one gallon; oil of bergamot one ounce; oil of roses one ounce; oil of lemon two drachms; oil of lavender, four drachms; oil of cassia and cloves, of each five drops; otto of roses, twenty drops; mix and filter.

EXCELLENT SUEP PUFFING.—Two eggs, one ounce of beef suet, six ounces of flour, three ounces of bread-crumbs, a little salt, and mix it slack with milk.

THE TOWER OF LONDON.—The tower of London is locked up every night at eleven o'clock, and the officials are obliged to go through an old-time ceremony which somewhat resembles the very juvenile games of "Queen Dido."

Help in Time.—Help, to be effective, should be timely. When the kidneys grow inactive, as they are apt to do, it is wise to lend them and the bladder early and judicious medical aid in performing their very important functions.

DOMESTIC.

COSMETICS.—Doctors, and chemists, and physiologists, all unite in saying that there is but one proper cosmetic—pure soap and water. Even scented soap is objectionable, unless the smell is an unhealthy one.

THE GUMS.—The daily precaution (the use of tooth-brush) for the preservation of the teeth, and the cleanliness of the mouth, will generally insure a healthy condition of the gums.

WE CAN insure any person having a bald head or troubled with dandruff, that he will not lose a single hair.

TO LOOSEN GLASS STOPPERS.—Put one or two drops of sweet oil round the stopper, close to the mouth of the bottle; then put it a little distance from the fire.

BREAD SAUCE.—Shred a large onion and boil it in a pint of milk till perfectly tender; sprinkle and stir in half a pint of fine bread-crumbs.

SODA FOR BURNS.—All kinds of burns including scalds and sunburns, are almost immediately relieved by the application of a solution of soda to the burnt surface.

THOSE COMPLAINING OF SORE THROAT, hoarseness or "taking cold," should use a "Singer's" Tincture of Myrrh.

VENTILATION OF BED ROOMS.—Each inhalation of pure air is returned loaded with poison; a hundred and fifty grains of it is added to the atmosphere of a bed-room every hour.

CAVENEY PEPPER FOR MICE.—If a mouse makes an entrance in any part of your dwelling, saturate a rag with cayenne, insolation, and stuff it into the hole which can then be repaired with either wood or mortar.

EXCELLENT SUEP PUFFING.—Two eggs, one ounce of beef suet, six ounces of flour, three ounces of bread-crumbs, a little salt, and mix it slack with milk.

HUMOROUS.

MR. CHAUNCEY M. DEWEY told this story at the recent New England dinner: In the Berkshire hills there was a funeral. The woman who mingled curiosity with pity was there with the mourners.

THE preacher was talking to the Sunday school about the power of religion and the devotion of the zealous to the cause and their attendance upon the services. Finally he asked if there was anything to which people would go twice every Sunday and through the week as they did to church.

A VASSAR college girl who visited her parents during vacation, and left little wads of chewing gum sticking in various out of the way places about the house—and in some places not so much out of the way—greatly disappointed her mother by not receiving a diploma or a gold medal for being the best gum chewer in the school.

SCENE: Recitation in English (A senior is discoursing on the Dunciad.) "With the third book the Dunciad properly ends. But Pope was induced to add a fourth, which, like every Annex, contributes no beauty itself, and impairs the strength and effect of the rest."

A MAN was indulging in the very intellectual occupation of sucking raw eggs and reading a newspaper. By some mischance he contrived to hold a live chicken. The poor bird chirped as it went down his throat, when he very coolly said: "By the powers, my young friend, you spoke too late!"

THE most absent-minded man was not the man who hunted for his pipe when it was between his teeth, nor the one who threw his hat out of the window and tried to hang his cigar on a nail.

TOM, Dick and Harry are now appearing with their Grandfather's recipes for Coughs, etc., and seeking a fortune through advertising, but the people know the value of Dr. Bull's Cough Syrup and will take no other. Price, 25 cents a bottle.

A SCOTCHMAN, having aired himself to a farmer, had a cheese set down before him that he might help himself. His neighbor, who writes, "Please hand me a long time to breakfast!"

"In troth, maister," answered he, "a cheese of this size is na soon eaten as ye may think."

TERRIBLE VENGEANCE of a husband. Wife has gone with a handsome man. "Dear me," she writes, "please hand the inclosed set of false teeth to my late wife, and ask her to be so good as to return my father's, which, in the hurry of the moment, she took by mistake."

I NEVER ARGUE again a success, says Artemus Ward; when I see a rattler snake's head sticking out of a hole, I bear off to the left and say to myself that hole belongs to that snake.

"Which side of the street do you live on, Mrs. Kipple?" asked a counsel, cross-examining a witness. "Oh, either side, sir. If you go one way, it's on the right side; if you go the other way, it's on the left."

In struggling to make a dull boy understand what conscience is, a teacher finally asked: "What makes you feel uncomfortable after you have done wrong?" "Father's leather strap," feebly replied the boy.

"KIND words can never die." How bitterly does a man realize that terrible truth when he sees all the kind words he ever saw in his life glaring at him from his published letters in a breach of promise suit.

ANSWER THIS.—Did you ever know any person to be ill, without inaction of the Stomach, Liver or Kidneys, or did you ever know one who was well when either was obstructed or inactive; and did you ever know or hear of any case of Rheumatism, Gout, or Gravel, cured by any cure?—Ask your neighbor this same question.

H. M. S. PINAFORÉ, translated into Russian, will shortly be performed simultaneously in St. Petersburg and Moscow. We knew the "Car" would yet find a way to drive the "Nihilists" out of the country.

"MOTHER"—"His name is George Smith." Father—"You mistake; it is Jacob." Son and Heir—"M! tain't either; it's John." Mother—"So it is; I know it was some thing that began with G."

"What is the difference between the masons and their rulers," asked Mr. Practical, "so long as they get the same pay?" "The difference lies in the hods," replied John, the Britisher.

ONE man stabbed another with the scissors in Brooklyn. It is always dangerous to interrupt a person who is writing editorialials.

ONE DOLLAR EXPENDED NOW in purchasing a bottle of JAY'S EXPECTORANT those troubled with a slight Cough or Hoarseness, or Sore Throat, may save the expense of a doctor's bill. A neglected Cough ends in Consumption. A slight inflammation of the lining of the wind-pipe, the usual symptoms of which are Sore Throat and a Pain in the Breast, frequently leads to Bronchitis. A day's delay may entail a permanent injury. Get at once Dr. JAY'S EXPECTORANT, a standard remedy, which cures the most stubborn Coughs, and deposits the keys in the licutenant's lodging.

WE HAVE KNOWN persons to doctoe for years for Consumption, all to no effect. Though they had a cough, felt pains in the Lungs, were depressed, weak and many other symptoms tending to that disease, yet they were no structural unsoundness of the Lungs, all these symptoms being caused by the Liver being sluggish, and the stomach weak. In all such cases the diseased conditions yield readily to Simmonds' Liver Regulator, and the patient is invariably brought back to health.

I have been down ten years with Liver Disease. I have had a severe pain in my left side for three years, with dry cough; this last Fall the cough became severe, and I coughed up half a gallon a day. The best doctors in Atlanta and my settlement said it was the last stage of Consumption. I was warned to give up by New Year day that I had to take my bed. I read and got your medicine, (Simmonds' Liver Regulator), and have taken it regularly. My cough is nearly gone; I am able to sit up half the day.

Therapeutic Use of Linseed.—Dr. Sherwell's paper on the use of linseed and its oil as therapeutic agents in diseases of the skin, recently published, has received considerable attention from the medical press. It appears that he was in the habit of employing it in a threefold administration, and these may be here briefly cited.

Free Shade, Middlesex Co., Va. Having used Dr. J. C. Williams' Baby Syrup in my family with the greatest degree of satisfaction, I unhesitatingly recommend it as the best remedy that I know of for children. THOMAS Y. LAWSON

Total Solar Eclipse on the Pacific.—At a recent meeting of the San Francisco Academy of Sciences, Mr. Brooks called attention to an eclipse of the sun on January 11, next year. The eclipse will be invisible east of a line drawn through St. Joseph, Mo., and Baton Rouge, La., and visible to the western portion of North America, the Pacific Ocean, and extreme northern edge of Australia—being central and total along a line distant twenty miles south of and parallel to a line drawn through Monterey, Cal., Mariposa, and Salt Lake City. Elsewhere it will be partial.
