A TARIFF COMMISSION.

WASHINGTON, April 13.-In the Senate to day Mr. Eaton, from the committee on finance, reported a bill creating a new tariff commission. It creates a commission to be called the tariff commission, to consist of nine members, to be appointed from civil life by the President, by and with the consent of the Senate, the first-named of whom shall be president of the commission. The commissioners shall receive ten dollars per day each during the period when engaged in active duty and other necessary expenses. The commission shall have power to employ a stenographer and messenger. It shall be the duty of the commision to take into con sideration and thoroughly investigate all the various question relative to the agricultural, · commercial , mercantile, manufacturing, mining and industrial interests of the UnitedStates, so far as the same may be necessary to the estab. lishment of a tariff or a revision of the existing tariff upon a scale of jus_ tice to all interests, and for the purpose of fully examining the matters which may come before it. Such commission is empowered to visit such different portions of the country as it may deem advisable. They shall report to Congress the results of their investigation and the testimony taken in the course of the same from time to time, and make their final report not later than the first Monday in Dcember, 1881.

The Lewisburg papers say that Hon, A. H. Dill will be the chairman of the Democratic State Committee. None better could be selected.

Tioga County Democracy.

WELLSBORO', April 14 .- The Democratic County Committee met here this afternoon. Walter Sherwood and J. G. Parks were elected representative delegates and H H. Goodrich recommended as senatorial delegate. Delegates were instructed to vote for Edward Herrick for Anditor General. No instructions as to President. It requires the vote of Potter and M'K-an counties to confirm the election of sen-

Our Washington Letter.

WASHINGTON, April 17, '80.

It is a hard thing for the extra virtuous Republicans of Massachusetts that all the Presidential candidates who have any probability of nomination are such wicked men as to be unworthy of support; while the candidate they long for is so virtuous that the average Republican will have nothing to do with him. Massachusetts always

One good thing is now assured and bat is the abolition of the Board of Indian Commissioners. The House decide that question yesterday. This Board has never done any good, while, by a sort of confidence that people generally put in mere numbers, it has made us all less suspicious of the real Indian management of the Interior De partment. Frauds that would have been suspected, inquired into and prevented or punished, have been carried out with impunity, the average citizen thinking to himself that this Board was an honest one and was busily en gaged in watching the interests of the public and the Indians. In point of" fact, however, it is only when members of the Board have quarreled a mong themselves that any exposure has been made. The Board does not

When the Indian appropriation bill was up vesterday in the House, besides' the above important amendment, was offered one to transfer the Indian Bu reau to the War Department. Some tim- since I gave the reasons urged in favor of this transfer. The c ange will not, probably be made at this ses sion. A new plan, and one that promises much, is urged now. It is for Congress to authorize the appointment of a sufficient number of gentlem in of standing, to be confirmed by the Senate, who shall prepare a new system of Government for the Indians, to be submitted to the next Congress. t is believed that the importance of the service would induce gentlemen to serve whose recommendations would be entitled to and would receive consideration. It is further urged that the Indians would not suspect such men, as they do the ordinary white man, of being a thief, and so would be glad to have such arrangements.

The subject of the Geneva Award is airly up in the Senate for discussion There are above \$10,000,000 remaining in the Treasury to the credit of this fund, and there are three or four ways proposed for the disposition of it. The Judiciary Committee wants to reimburse the Insurance Companies, a sub stitute for paying the money to the vessel owners, Senator Eaton's bill to turn the money over to reduce 'he public debt, and fourth, to return the money to England.

News Miscellaney.

SUFFOCATED IN A WELL.-Lancaster, April 14. Early this morning two men named Daniel Miller and Charles Fraser, were suffocated in a well near Bird-in-Hand. It appears that a blast had been set off, and one of the men went down before the gas had time to escape and was immediately overcome. His comra le went to his rescue and lost his life in the attempt. Both men were unmarried and about twenty-five
