A Wonderful Mesmerizer.

Strange stories come from India of platform it was writhing and hissing flercely. Buni bent over the cage and fixed his eyes upon its occupant, gently waving his hand over the serpent's restless head. In less than a minute the she did not want him to come home a snake stretched itself out, stiffened and "nigger." lay apparently dead. Buni took it up and thrust several needles into its body, but it gave no sign of life. A few passes then restored it to its former angry activity. Subsequently a savage dog, held in a leash by its owner, was brought in, and, at Buni's command, let loose upon him. As it was rushing towards him, bristling with fury, he raised his hand, and in a second the fierce brute dropped upon its belly as though stricken by lightning. It seemed absolutely paralyzed by some unknown agency, was unable, to move a muscle until released from the mesmerizer's spell by a majestic wave of his band.
