A MURDEROUS TRAMP.

He turned on her, threw her down, pounded her snockingly and stripped off her clothing, when she told he could have the money which was in the house it he would let her get up. A Shippensburg butcher, Mr. Ed. Earley, made a narrow escape from being gored to death Yedently. He en. tered a pen in which a steer was confined, and by some means the door was closed, so that he could not get out. The animal attacked him with great ferocity and threw him to the ground, but the man kept coel and preserved himself from fatal injury by keeping his body between the wide-spread horns. He finally regained his feet, only to be again attacked and thrown down, escaping as before. The butcher escaped a second time, and tried to climb out of the pen. While doing this the sharp horns of the animal were at work, and by the time Mr. Farley had forced a board from the pen near the roof, thus securing an avenue of escape, every particle of clothing except his from his body. Dog Laws .- If anybody is attacked on the highway by a dog the party has a right to kill the dog, and the cwner can be held accountable for an injury inflicted by the animal. Even on the premises of the owner of a dog, should a party be attacked and injured, after endeavoring to protect himself, the owner can be made responsible for damages inflicted, provided it can be shown that at the time he was in pursuit of business or on a friendly visit If a dog by barking at passing horses and vehicles occasions any damage, its owner is liable for the loss sustained. Thus the law very properly affords ample protection for loss or injury caused by dogs. This information is published because there are many vicious dogs ous complaints are made of them. In various parts of the city there are dogs who make a practice of flying furiously at the feet of horses and ladies. Persons driving spirited horses, when taken unawares, are thus exposed to the danger of a runaw It is therefore well to know the law on this subject.

THE ropes used in the execution of the Raber Murderers were cut up in small pieces and distributed among the people in the town to be kept as lelics. Ther is a superstition that the rope is a talisman against rheumatism.
