SETTING MILK .- It seems now to be admitted by all scientists in dairy management that the sooner we can cool until the deep-setting system is adopted, cooled as soon as it is drawn from the cow, and before it is set for ly and more efficiently done by passing it over a milk refrigerator, when that can be had; but when that s not in use it can be cooled very fairly by the process adopted in Holland, viz.: by putting it in tin or brass vessels to stand for a short time in a cistern in cold water. If the shallow system be followed, I am disposed to recommend tin pans pressed out of a solid piece and not jointed, as being about the most generally useful. Glazed earthernware is used, but unless of a good quality and well glazed, I do not re-commend it and when of a good quality it is expensive, and being very easily broken it is a costly item. Enamelled iron pans are used, but are liable to the objection that the enamel does not wear well, and that they are cumber-some and expensive. Wood keelers the application. have been very generally used in Ireland and on parts of the continent, but owing to the labor required to keep them clean, they must be superseded, which I find is rapidly happening. I have already described the deep-setting system; and so far as experience goes, it would appear as if it is probable that it will be more largely adopted as it becomes known.

DRY Cows .- It is a common practice among some dairymen to give their cows, when dry, but scanty living. mistake, and the result is a diminished product of milk, both in quantity and rying it, and to keep the cow in good condition good food is an important as | tion of bleached shellac. when she is giving milk. It is my opinion that one dollar's worth of food when the cow is with calf is worth one and a half dollars after she coues in. ·An animal in poor condition cannot digest as much food as an animal in good condition. If a cow is poor when she comes in she will not digest enough food to support the system, and, at the same time, to make large quantity of milk.

INJURING YOUNG TREES .- We have not he least doubt that allowing trees to tear heavily when young is injurious, both to the health of the tree and its future bearing. We have noticed upon our own premises on several occasions, that whenever we allowed young trees to bear unreasonably, it butter to a quart of sauce, and, moreaffected their future bearing for two or three years. We have since reduced A little lemon peel makes a fine flavor. the early product of a tree from one to three specimens, the number being increased with the increased age and vigor of the tree, and have found the trees afterwards, to go on bearing regularly. It is the same case when a tree, of whatever age it ma . be, is permitted to mature three times as much fruit as it ought to do.

THOSE farmers who have no saphouses and large evaporators in which to make maple sugar, will find a deep dripping pan when placed on the top of a cooking stove from which the covers have been removed, will be much better and more convenient vessel to boil down maple sap in than kettles or pots. A Word to Tourists. You cannot have a better companion on your journey than Hostetter's Stomach Bitters. That prime medicinal agent will enable you to drink brackish water without running the risk of disordered stomach and bowels, will neutralize the influence of foul or miasmatic air, and will prove a most agreable and wholesome stimulant and means of counteracting the fa-tigue of traveling and sea ickness. Change of climate, water or diet, is apt to induce har-assing and often dangerous diseases. The three changes combined are fa'al to thousands of emigrants and travelers every year. Is it not, then, of the last importance to know that Hostetter's Stomach Bitters are an absolute preventive of the hurtful consequences arisng from these causes? A Joyful Announcement to suffering millions is the glad tidings that a last a certain cure for piles has been discovered. 500,000 persons who have used Dr Silsbee's Anakesis, pronounce it infallible Doctors of all medical schools prescribe it in practice; empiries and nostrum venders counterfacts and programme of the process of th terfeit and imitate it, and all, without excepterreit and imitate it, and all, without exception, admit that it is entitled to the name of 'Medical 'Miracle." Nothing in medicine is more simple, rational, prompt and certain. It is not an accidental blunder of inexperience, but the scientific solution of a most difficult problem, by an accomplished physician of 40 years, practice and study. Apalegis is a years practice and study. Anakesis is a happy combination of a soothing poultice, happy combination of a soothing positice, supporting instrument and curative medicine. It alleviates at once the most excruciating pain; it holds up the raw, sensitive tumors, and by firm, continued pressure and medication applied to the swollen veins is able to cure the most inveterate cases of blind or bleeding piles. The inventor of "Anakesis" may well be regarded as a public benefactor, and sufferers from this terrible disease will thank us for calling attention to a discovery so worthy. It is not less singular that in the circular concerning Anakesis, full directions are given for preventing Piles, a fact never before observed in any medicine the proprietors wished to sell. "Anakesis" is sold by druggists everywhere. Sent free on receipt of price, \$1.00 perbox; samples gratis by P. Neustaedter & Co., Box 3946 New York, sole manufacturers of "Anakesis."

HEALTH IS WEALTH. Health of Body is Wealth of Mind.

Radway's Sarsaparillian Resolvent Pure blood makes sound ilesh, strong bone and a clear skin. If you would have your flesh firm, your bones sound, without caries, and your complexion fair, use Radway's Sarsaparillian Resolvent.

A GRATEFUL RECOGNITION. "To cure a curonic or long standing dishase is truly a victory in the healing art; that reasoning power that clearly discerns defered and supplies a remedy; that restores step by step—by degrees—the body which has been slowly attacked and weakened by an insidious disease, not only commands our respect but deserves our gratitude. Dr. Radway has furnished mankind with that wonderful remedy, Radway's Sarsaparilifas Resslvent, which accomplishes this result, and suffering humanity, who drag out an existence of pain and disease, through long days and long nights, owe him their gratitude."—Medical Messenger.

FALSE AND TRUE. We extract from Dr. Radway's "Treatise on disease and Its Cure," as follows: List of Diseases Cured by

Radway's Sarsaparillian Resolvent. Chronic Skin Diseases, Caries of the Bone, Humors in the Blood, Scrotulous Diseases, Bad or unnatural Habit of Body, Syphilis and Venereal, Fever Sores, Chronic or Old Ulcers, Salt Rhevm, Rickets, White Swelling, Scali Head, Uterine Affections, Cankers, Glandular Swellings, Nodes, Wasting and Decayof the Body, Pimples and Blotches. Tumors, Dyspepsia, Kidney and Bladder Diseases, Chronic Rh-umatism and Gout, Consumption, Gravel and Calculous Deposits, and varieties of the above complaints to which sometimes are given specious names. and Gout, Consumption, Gravel and Calculous Deposits, and varieties of the above complaints to which sometimes are given specious names. We assert that there is no known remedy that possesses the curative power over these diseases that RADWAY'S RESOLVENT furnishes. It cures, step by step, surely, from the foundation, and restores the injured parts to their sound condition. The wasten of the body are stopped and healthy blood is supplied to the aystem, from which new material is formed. This is the first corrective power of RADWAY'S RESOLVENT. In cases where the system has been salivated and Mercury, Quicksliver, Corrosive Sublimate have accumulated and become deposited in the bones, jointy, etc., causing caries of the bones, fickets, spinal curvatures, contortions, white swellings, varicose veins, etc., the SARSAYARILIAN will resolve away those deposits an iexterminate the virus of the disease from the system.

If those who are taking these medicines for the cure of Chronic, Scrothious or Syphilitic diseases, however slow may be the cure, "seel better," and find their general health improving, their flesh and weight increasing, or even keeping its own, is a sure sign that the cure is progressing. In these diseases the patient either gets better or worse—the virus of the disease is not inactive; if not arrested and driven from the blood it will spread and continue to undermine the constitution. As soon as the Sarsa-ARLILIAN makes the patient "feel better," every hour you will grow better and increase in health, strength and fiesh.

OVARIAN TUMORS. The removal of these tumors by Rabway's Resolvent is now so certainly established that what was once considered almost miraculous is now a common recognized fact by all parties.
