#### Last Century Hurricanes.

The colonists in Louisana during the year 1723 were dragging along slugkishly and miserably a rickety sort of existence, when, on the 11th of Septem ber, there burst upon them a tremendous hurricane, which lasted three days. The church, the hospitals and thirty houses in the modest little hamthe wind. Three ships that were in port were completly wrecked, the crops were destroyed, very few of the edifices on the embryo farms of the colony so widely spread and so intensely felt that that the first impulse of the peocolony for ever; and no doubt they would have executed their design it they could have procured means of that had embarked at Biloxi for New possession of the vessel and forced her captain to sail for Charleston, where they landed safely with their arms and baggage. On the 25th of February, 1741, Beauchamp, the French commander at Mobile, gave in a dispatch to his Goverment the description of a dreadful hurricane which began on the 11th of September, 1740, and which produced very extensive disasters in what was then called the Colony of Louisiana. "The hurricane," he said "was so violent that here (Mobile) it blew down several houses, and among others the edifice which Mr. Bizeton had constructed, not only as a store, but as a house of refuge for sailors. Unforunnately it contained all the flour and provisions destined for the subsistence of the garrison, I was obliged to send the garrison a fishing along the coast for the barrels which had been thrown into the water and part of which were staved in. Without this barrel-fishing we should have run the risk of dying of hunger, as our resources were limited to six or eight barrels of four which were in the fort .. "The wind was so furious that if it had continued forty-eight hours, as all hurricanes season better than any other. The roll them in baked bread crumbs. generally do, we should have been in- best test of a sand or gravel soil as to After the lapse of an hour egg and Duca girls make good preserves," but undated. Fortunately it blew only twelve hours, but with such force that half of Dauphine Island was carried away, and more than three hundred head of cattle were drowned on the island. We have lost a greater number of them on this coast and at Pascagoula. This loss is severely felt by the bushes have in many localities become poor population of this section of the a troublesome pest, and to eradicate country. The effect produced by the

THERE may be sweeter music than a

"Go to shlape me babby. 

Arrah, ef you don't shet yer two eyes an' shtop yer howlin' thish blessid minit I'll wing the neck o' ye-yer crossh little brat." Yes, it is very sweet.

A LADY had in her employment a young man from the country. On certain occasions he was instructed to inform any company who might ring at the door, that "Mrs ---- was not at home." One day John made this reply to a lady, who shortly went away, leaving a card and a promise to call again. As the card was handed to his mistress, she said, "John, what did you say to the lady ?" "I to'd her that bells, used with a view of strengthen you were not at home." "Well, John, ing the chest, is decidedly injurious, hepe you did not laugh. "Oh, no, ma'am," said John, "1 never laugh when I tell a liv."

THEY were walking arm in arm up

ting sun was gilding the western crimson glow all over the earth. He said, in a subdued tone, "Isn't it lovely?" "Well, i don't know," was into which I had previously dissolved the reply of his fair companion; "I a tablespoonful of copperas, and then don't think the trimming matches very I dipped a dark woolen cloth into a dye | well, and it doesn't fit her a bit." He made by dissolving about five cents shuddered.

"PA, are you in favor of the Bible in the breakfast-table. "Why, of course I am," responded the father. "What to get the dye of, so that it would not makes you ask such a question, my blacken; then by adding a new bind- son?" "Oh! only I thought maybe to cold and macky land. Here there ing and button, the ceat looked nearly you wasn't, as you never read it at home." The urchin dodged, but he wasn't quick enough.

A FOP, in the country, met an ugly steer in a narrow lane, and called out Melt a piece of butter in a saucepan, to a farmer in an adjacent field, "See here, Mister, is this your animal?" "Yes," answered the farmer. "Well, were lower, from the great local comhe won't let me pass." "Suppose you petition ; but as esparto grass has risen lime, potash and phosphates, is the until the mixture looks like minced let him pase, then?" "There isn't in value, it will very soon favorably veal: then stir into it off the fire a room." "Well, then, perhaps he'll influence the price of wood pulp, the couple of yorks of eggs, and put it by toss up with you for it." The fop climb- more as the English paper makers coned the ience and made a safe detour.

A BOYISH novic in smoking turned eggs are at least flashy, because the air deadly pile and threw away his cigar. Said he: "Thar's sumthin' in that air maintained, eggs will keep sweet and cigar that's made me sick." "I know what it is," said his companion, pull-ing away: "What?" "fobacker."

M. Marcy, the distinguished French professor, has been making exact observations with the pneumograph, an instrument which registers with precision the respiratory movements. Choosing five young men belonging to the school for military gymnastics at Faisanderie, observations were made during five months, both after pretor. ceribed exercise and during repose. It was found that the number of respirations was reduced from twenty to twelve in the minute, while their amplitude was more than quadrupled. More than this, after five months of gymnastic exercise the respiration became independent of the periods of exervice and rest. Consequently, the normal circulation was made more active, about twice as much blood passed through the lungs with each respiration, and the general health was improved. The machine burnt more carbon and give out less smoke, These results are of a highly practical charac-

ter, and show how much the general health is influenced by a proper use of the lungs. At the same time, violent Going home from church. she reexercise, such as with heavy dumbbells, used with a view of strengthen-

Wood Products of Norway .- The Build . ing News (London) states that a great revival has lately aken place throughout Norway in all department of the timber and planed-wood trades, which public schools ?" asked a youngster, at have suffered severely from a protracted depression. The wood pulp manufacture, however, has fared better, the demand from Geett Britain and France being persistently on the increase. At the commencement of the year there were 21 factories at work, the production for the last three years being as ollows: 1877, 295,700 cwt., value £78,300; 1878, 386,482 cwt., value £96,-600; 1879, 400,000 cwt., value £90,000. Although the production in 1879 exceeded what the previous years, prices tracted pretty largely for paper pulp during the winter, to the amount of 2,000 tons in excess of the ordinary demand. The wood pulp used in England contains about 50 per cent of moismployed in making miliboard from

paper pulp. These are used for baudooxes, and are all sent to England.

"Home, Sweet Home," is much sweeter where D bbins' Electric Soap, (made by Cragin & Co., Philadelphia, Pa.,) is used; labor, clothes and temper are preserved by its use. Trial shows its merit. Have your grocer get it.

New Process of Embalming .- One of the most simple and effective processes, it would appear, for preserving the dead, has recently been brought for By this method, 11 ward in Germany.

Dyspepsia, Diarrhœa, Piles, etc., Dr. Simmons' Liver Regulator certainly has no superior. It acts like a charm, without debilitating the system. I have tried it thoroughly, and speak what I know.

"REV. S. GARDNER, Atapulgus, Ga." "Having tested personally and in my practice your Simmons' Liver Regulator, I have found it just the medicine needed as a family remedy, by persons living in a warm climate, and especially. by those inhabiting the more malarial districts of Florida.

"J. F. MCKINSTRY, M. D., Gainesville, Fla."

marked to her husband: "Did you notice that baldheaded man in front of us, and how young he looked? I never saw any one so young before, with a bald-head." Then he shut her up by replying: "My dear, I was baldheaded before I was a year old."

"MADAM, your boy can't pass at halffare; he's too large," said the conductor of a train, which had long been detained on the road. "He may be too large now," replied the matron, "but he was small enough when we started." The conductor gave in.

Don't take any of the quack rostrums, as they are regimental to the human cistern; put your trust in Hop Bitters, which will cure general dilapidation, costive habits and all comic diseases. They saved Isaac from a severe extract of tripod fever. They are the ne plus unum of medicine.-Boston Globe.

A Rare Pharmaceutical Product.-A specimen of the essential oil of aloes has recently been exhibited to the Medico-Chirurgical Society of Edinburgh. This oil is described as a pale yellow, mobile liquid, specific gravity

0.836, and boils at from 266 to 271 degives C., and though to its presence the odor of aloes is due, it exists in such quantities that only about two fluid drachms are obtainable from 500 pounds of aloes. In taste and smell the article resembles the oil of peppermint-the boiling point of the latter, however, being only about 190 degrees, C. Its qualities are presumably aro-

mantic and antispasmodic.

Behm and Wagner. in their sixth issue of the Population of the Earth, which has just appeared, estimate the total population at 1.455,923,450. Two vears ago the estimate was about 1,poor party men. They are generally 430,000,000. Europe is assigned 315, 929.000 inhabitants; Asia, 834,707,000; Africa, 205,679,000; Australia and Poly-000; the United States. 48,000,000,

The remedial management of those diseases peculiar to women has afforded a large experie the World's Dispensary and invalids' Hotel, in adapting remedies for their cure. Many thousa cases have annually been treated. Dr. Pierce's Favorite Preserption is the result of this soil ases have annually been treated. Dr. Pierce's Favorite Prescription is the treat the experience, and has become justly celebrated for its many and remarkable cures of all the

### WEAKNESSES PECULIAR TO FEMALES.

Favorite Prescription is a powerful Restorative Tonic to the entire system. It is a nervine of un-surpassed efficacy, and while it quicks nervous irritation, it strengthens the enfectied nervous system, thereby restoring it to healthful vigor. "\*\* following diseases are among those in which the Favorite Prescription has worked cures as if by 1. 'c, and with a certainty never before attained, viz: Lencos-rheat excessive flowing: painful mentruintion; numularil suppressions; weak back; prolapsus, or failing of the uterus; anteversion; retroversion; bearing-down sensation; chroale congestion, influa-mation, and uteration; internal heat; nervous depression; mervous and sick headache; debility; and burrenness, or sterility, when not caused by stricture of the neck of the womb. When the latter (see Invalids' Guide Book, sent for one stamp, or the Medical Advisor). Favorite Prescription is sold under a positive guarantee. For conditions, see wrapper around bottle. "DO LIKEWIES."- Mrs. E. F. Morgan of New Castle, Lincoin Co., Maine, says. " Five years ago 1

**FAVORITE Prescription is sold under a positive guarantee.** For conditions, see wrapper around bottle. **\*DO LIKEWISE.** - Mrs. E. F. Morgan, of New Castle, Lincoln Co., Maine, says. \* Five years ago i was a dreading subscrept from userine troubles. Having exhausted the skill of three physicians, I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking vour 'Favorite Prescription' and using the local treatment recommended in your 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them and modeling a stamped envelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and earnestly advised them to 'do likewise'. From a great many I have received second letters of thanks, stating that they had commenced the use of Favorite Prescrip-tion, sent for the 'Medical Adviser,' and applied the local treatment so fully and plathly laid down therein, and were much better already." Dr. Pierce's Favorite Prescription is sold by all druggists. **EVERY INVALUE LAPY** should read "The People's Common Sense Matched Adviser." In win a
