A KNOTTY PROBLEM.

We received from a correspondent the following somewhat incoherent account of a duel which was fought in his neighborhood. Some way or other, we are half in the dark about the result of the duel in question, but we shall leave the decision to our readers: A duel was lately fought in Texas by Alexander Shott and John S. Nott. Nott was shot and Shott was not. In this case it is belter to be Shott than Nott. There was a rumor that Nott was shot, and Shott awows that he shot Nott, which proves either that the Shott shot at Nott was not shot, or that Nott was shot, notwithstanding. It may be made to appear on trial that the shot Shott shot Nott, or as accidents with fire-arms are frequent, it may be possible that the shot Shott shot shot Shott himself, when the whole affair would resolve itself into its original elements, and Shott would be shot, and Nott would be not. We think, however, that the shot Shott SEC. 3. No person shall be allowed shot shot not Shott, but Nott; anyway, an abatement of his highway tax, as it is hard to tell who was shot .- Har-
