—The Supreme Court of this State has decided that money paid for all trials of speed in horses is illegal, no matter whether paid in the way of bets or premiums. This the agricultural societies had better note down.

—It is estimated that there are 1,000 hotels and restaurants less in this state than there were a year ago. This is the result of the temperance people's opposition to the granting of licenses.

—Our citizens have petitioned for an afternoon mail from Coburn. Under the present arrangement our western mails lie over at Coburn until the next day, while the mail from Brush and Sugar valleys seldom comes here in time to connect with our mail. If the powers at Washington do us justice there will be difficulty to get the new accommodation.

—It must be confessed that Venor is the boss weather prophet that has yet arisen. True to order the snow came, and a right big, ugly one it was, for the season. It snowed at intervals Wednesday, Thursday and Friday. The roads were almost impassable either for wagons or sleds, and the fittings had a sorry time of it.

—Town Council met on Monday evening in the Journal office, Present—Musser, Hartman, Bron, Stoner and Luse. J. C. Smith was elected borough treasurer. A Resolution was passed requiring side walks to be built along certain properties, and the secretary was instructed to notify the owners of the action of council. A resolution was also passed that council build a sidewalk from Jacob Gephart's to F. Catherina's. Secretary was instructed to give notice of letting.

—The Clinton Democrat waits its readers against the insane insurance rage that now sweeps over our state in the following pungent words:

We again caution the public against the bogus co-operative life insurance companies. It would take a whole newspaper to expose their ignominy in detail but they mean to swindle everybody. Don't touch them.

The proper way, if you want to insure, is to go to a reliable agent that you know to be honest and then select a company of unquestionable good standing, with secured capital for the payment of losses. Even then there are risks to run.

—The New Cash Store of Whitmer and Co., Spring Mills—is just a little the nearest, cosiest place of business in the Valley, and we don't wonder that people go there in crowds.

—The following item we clip from the Lewistown crumbs of the Millburg Telegraph. It must mean our own Ralph whom we used to flageellate a little once in a while as occasion required years ago in school. Glad that he is coming nearer home again and that he gets a good situation:

Uncle Joe Shirier has secured the services of a first-class western Miller in the person of Mr. K. H. M. Musser of Illinois. The manufacture of flour by the "new process" will now be practically tested, and if we don't sadly mistake, the public will be gratified with the result. The mill is being run to its utmost capacity—night and day—on custom work, which speaks well for that establishment.

—The man who makes haste to be rich, says the Almanac "Gibbous," generally ends his life in squalor and poverty. The speculator who is independently wealthy to-day may be a beggar to-morrow. The chances in any game of fortune are against the gambler as ten to one. The daring speculator who flutters before the adoring gaze of his fellows to-day a glittering human butterfly, to-morrow as low as the humble worm. The honest farmer or mechanic, who is content to gain, slowly, surely, honestly, ends his days in competence and happiness.

The man who can't spend his evenings at home in the midst of his family, says an exchange but who chooses to lounge around the street corner, or to loaf in store-rooms or bar-rooms, displays wretched taste, and need not be surprised if his children imitate his example and graduate in the streets. The example of the father is a potent force in the formation of juvenile character, and more than one bright boy has joined the crowded ranks of the army of the bacchanals because the head of the household failed to set a good example or to exert a proper influence in his home.

BURGLARY.—On Monday night a bold attempt was made to rob the dwelling of Mr. Jonathan Harter. At about one o'clock in the night, Mr. Harter, who sleeps up stairs, heard an unusual noise below. He quickly and quietly went down a flight of steps that enter the kitchen and tried to open the door quietly, but the creaking of the hinges, he thinks, must have frightened the burglars, who made a hasty flight. Mr. Harter found the window hoisted and securely fastened with a chisel that was tightly stuck between the sash and frame, no doubt to leave an easy retreat for the robbers in case of emergency. On looking out he saw two men walking the street, but made no attempt to go after them.

The soundrels would have badly fooled themselves, if they were after Mr. Harter's cash, as he never keeps much of that article in his house. If they want any of his spondoosities they had better ask Mr. Harter for it. The owner of the chisel is hereby kindly requested to call for the same.

Our citizens had better prepare themselves to give such visitors a warm reception.

—The Lovett malpractice case, on trial for twelve days, ended yesterday afternoon. Dr. Lovett has to pay \$2,500 for improper treatment of Wendell Farland's broken arm. Ten thousand dollars was asked.

—"When the swallows homeward fly" they always look longingly at the New Cash Store of Whitmer & Co., Spring Mills Pa.

—Some think the weather we are now furnished is a dis race to the civilization of the age. Others are mad as blazes over the prophet Venor, while others again are out of humor, cross and crabbed as bears. Patience, friends, the weather will yet level itself to your heart's content.

—The subscriptions for the projected Lutheran church here now nearly reach the sum of \$3000. There is yet a considerable gap between the sum subscribed and the amount needed, but the returns are not all in yet. Let the good work go on. The committee is in readiness any time thankfully to receive your subscription.

—The New York World's Fair in 1883 goes begging for a President and is likely to prove a failure. Gen. Grant resigned and the Hon. Hugh J. Jewett will not accept. It seems that the country had about enough "centennial" for a while.

—Report of North Street School for the month ending March 31st 1881.

Whole number in attendance during month, males—35, females—27, total—62. Average attendance, males—22, females—18, total—40. Per cent. of attendance, males—81, females—78, total—79. No. of scholars during whole term, males—40, females—29, total—69. Average attendance during term, males—27, females—22, total—49. Per cent. of attendance during term, males—83, females 77, total—80. Visitors during term—60, addresses—3.

Considering the inconvenience of an overcrowded school room, and the lack of interest of some of the parents, this has been a pleasant, and I trust a profitable one. I feel thankful for the kindness shown me by parents and children, and take leave of my school with the best feelings to wards all.

M. I. JAMMON, Teacher.

Pay the Small Debts.

The first of April has come and gone, and there was a general paying off of payments. As far as we could learn obligations were very generally met and of disappointments there were none. This shows that money is easy and really seeks good borrowers. And now is a good time to pay off small debts. Pay off your store accounts in order that your merchant may be enabled to sell at the lowest living profits. Pay off your doctor who has faithfully ministered unto you day and night. Pay off your mechanics—your blacksmith, your shoemaker, your tailor. Pay off your laborer, who may have suffered for the common necessities of life. Pay off your taxes—in fact you should have paid them long before this; don't leave them stand until another year's taxes are added. Lastly—pay off your printer. He needs what you owe him just as much as any one. Pay up as much and as fast as you can, for that's the way to keep business moving.

News Miscellany.

Teachers' State Certificates.

Dr. Higbee, the new state superintendent of public instruction, is calling in the teachers' certificates, and will compel them to undergo a re-examination before they can take out new ones. Many of the teachers employed in this city hold such certificates from the state, which license the holder to teach in any part of Pennsylvania. Without one a Harrisburg teacher cannot teach outside of Dauphin county. The examination of applicants for state certificates is very rigid, and teachers in the city holding such certificates will likely be compelled to devote months to refreshing their memory in certain branches.—Ex.

A Little Child Shot.

ERIC, April 3.—Last Sunday a young child of Major Crine was found insensible. Its brothers, with whom it had been playing, said it had fallen against a trunk. Last night the child died, and it transpires that it was shot by one of the children with the father's revolver. Fear deterred an earlier confession.

Improper Treatment and its Consequences.

ERIC, April 3.—The Lovett malpractice case, on trial for twelve days, ended yesterday afternoon. Dr. Lovett has to pay \$2,500 for improper treatment of Wendell Farland's broken arm. Ten thousand dollars was asked.

A Canadian Goose Story.

From the Toronto Globe. A Stone Ridge farmer lost a goose. Two weeks afterwards he happened to visit a neighboring saw-mill. While there he heard a goose and started in pursuit. After a long search, guided by the noise, he came to a hole in the ground, and looking down he saw the head and part of the neck of his bird. It appeared the goose had fallen into the hole, which, being too small to allow of a spread of its wings, the poor bird could not fly out. While kept a prisoner thus the snow had melted and run into the hole. As fast as it reached the bottom of the hole away from the sun it had frozen, and it had continued to freeze until the entire bird, with the exception of its head and about two inches of its neck, was encased in an armor of ice. The owner procured an ax and cut out a chunk of ice, goose and all, which he deposited on the ground and poked away until the goose was released from its confinement, and marched home in search of its first meal for two weeks.

A Bursting Locomotive.

TYRONE, April 1.—Locomotive 148, attached to the Clearfield passenger train, exploded at this place about 9 o'clock this morning, shattering everything in the vicinity of the new depot. The Ward house and Ray's tannery were damaged, and windows were broken for two squares distant. Mr. Williams, of Orisisonia, had an ear cut off and was otherwise badly hurt. Henry Haupt, the telegraph operator, had both legs badly bruised. Mr. Test, of Phillipsburg, badly cut a-bout the face, and Michael Bollinger, of Tyrone, face badly cut. A great many others received less serious injuries. The engineer of the wrecked engine escaped unhurt. The cause of the explosion is unknown.

BURIED TREASURE.

Pots of Gold and Silver Discovered by an Administrator. GREENCASTLE, Pa. March 29.—Administrator Hines, in settling up the estate of the late Jacob Schellinger, is believed to have discovered a treasure which proves interesting. The will leaves each of his three sons a farm, and to each of his three daughters the sum of \$1,000 is left. In addition to this part of his estate, was left three pots of gold and silver coin which had been buried under the hearth in the kitchen. The exact amount cannot be correctly determined, but it is supposed to be in the neighborhood of \$10,000. No one even suspected that such a treasure was buried there, as the old man had never mentioned it to any one. The deceased carried a tumor weighing sixty pounds on his right leg for the last thirty years of his life.

By Universal Accord.

ATYR'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long laborious and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them to be the most perfect purgative yet discovered. Being purely vegetable no harm can arise from their use. In their composition they contain powerful cathartic and curative powers. Other pills can be compared with them, and every person, knowing the value of their medicinal qualities, they are especially adapted to the needs of the digestive apparatus, derangements of which will produce all the ills that afflict humanity. They are the best and safest purgative to employ for children and weakened constitutions, where a mild but effectual cathartic is required.
