Now, from our own experience have a bottle on hand. and observation, as well as from conversing with a few of the most successful growers of this vegetable, we are may be made in the following simple led to conclude that creoked and curl-manner: Put half a pound of fresh to the shoot while it is pushing up till it is melted; then take a small tin through the soil. It may be caused by dish, fill it with water, and add a few spring of the year. And it may be color; strain some of it, and mix it done by carelessness while cutting the with the other ingredients according made up on the side of a shoot stops agreeable and favorite extract, and growth on that side. There is an effort then pour into small white jars or to heat the wound, but so far as the boxes. value of the shoot is concerned, it is always a failure. If any one doubts the truth, of this statement, he can easily satisfy himselt by simply causing an injury to a growing shoot before it gets above the surface. Much care should be used both in digging and raking over asparagus beds in spring, had tried several remedies without and also when cutting for the table. There is nothing coming from the garden in May that is a greater luxury to those who like it, than asparagus, and it is well to know how best to handle

TO PREVENT SHEEP GETTING OVER STOJE WALLS .- A great many men who so on account of their tarms being fenneighbor of time. It consists in setting posts against the wall, boring a hole through these about 16 inches above the top of the wall and running a No. 11 wire through the hole. This should be stretched very tight. If the first is well fastened, this may be done with a crowbar for a long way, using the bar tor a lever. The posts need not to be nearer to each other than four to six rode, if the top of the wall is straight; if it is not, they should be somewhat feetly satisfactory, so much so that a neighbor's big dog tried to get over it to the sheep once or twice and went away periectly disgusted. A much nearer and more durable plan, costing but little more would be to insert small iron posts into the cap stones at proper distances and bend the post so that the wire will hang directly over the lace of the wall on the side on which the sheep run. Either of these metheds costs so little that the profits of a the expense in one season.

For breeding purposes, in nine cases out of ten, such an animal is dear at any price. A good thoroughbred stallion would get from such a mare a colt far better than the dam, but her weaknessess and constitutional traits will sooner or later be come apparent in the off-spring. "Like begets nke," is a well established law, and a superior animal cannot come from one uecidedly inferior. Only from sound and vigorous mares can we hope rection by breeding from the best on relief. both sides.

TAR FOR WARTS .- A farmer writing to an exchange, says: "I had a mare some years ago that had a large wart on her side, where the harness rubbed and kept it sore. To prevent this I put on a good daub of tar, and has been practically proved lately. in a few weeks the wart was killed and disappeared. I have frequently tried it since on cattle and horses, and seldom had an occasion to use a second application. The remedy is simple and effectual."

HINTS .- It is said that if sod land 18 ploughed just before the corn is planted, the worms will feed upon the scd and not injure the corn. White flowers are generally more fragrant than colored ones. You may enlarge your pinks by watering them with a weak solution of nitre.

* An ingenious Frenchman has devised a game for facilitating the study of geography by children. It consists of a large planisphere map of the globe, accompained by numerous objects repre enting animals, plants, flags, costumos, towns and landscapes. These objects, of painted cardboard, stand upright when the small inscription accompaning them is folded back; and each one bears, moreover, a number corresponding to one on the map. Placing each in its proper position, the child quickly becomes tamiliar with subject illustrated; if it be a plant, he knows the place which produces it, and its use; is a town, he knows the population, position, etc. The new game has received the approval of the Paris Scciety of Geography.

To make caoutchouc indifferent to the action of oils and fats, without impairing the other properties of vulcanized rubber, the following method is employed at the works of C. Schwanitz, Jr., at Berlin. The caoutchouc is worked, by heated rollers, together with a mixture of 6 lbs. of prepared chalk, 1 ib. of glycerine of 123 sp. gr., 1½ cz. of litharge, and 3 1 5 oz. of sulphur. For vulcanizing, the mass, or the article formed thereof, is placed in a bath of glycerine, and exposed to a steam pressure of from two to three atmospheres.

Having had numberless inquiries for advertising cards from ladies in all parts of the country who are interested in the prevailing fashion of making "Card Collections," we are having printed for them a set of seven beautiful cards, each in six colors and on a gold background, in the very highest degree of art, illustrating Shakspeare's "Seven Ages of Man," We have spared no expense in these cards-they are simply little art gems. Our only aim has been to publish the finest cards yet shown. Applications for them have come in so rapidly that nearly the whole edition is engaged before the receipt by us of the cards from the artist. We have therefore been obliged to adopt the following plan for the distribution of the remainder: No more of the gilt Shakspeare cards, seven in the series, will be sent excepting upon the receipt of a statement from a grocer that the person applying for the eards has bought of him on that day at least seven bars of Dobbins' Electric Soap, with price paid for same. All applying in this manner will receive the full set of seven cards gratis by mail. This will insure us that our friends and patrons get their share of these beautiful designs, although it in no manner repays us for the cost of the cards, Your grocer has the soap or will get it, and the purchase by you of seven bars of it at one time will secure for you gratis seven really beautiful cards. The soap improves with age, and is an article of necessity in your house every week. Therefore you are not asked to buy a useless article, but one that you must have anyway. Please send us your application at once, and tell your lady friends making "Card Collections," to do the same. Grocers do not have the cards to deliver. Buy the soap of them, send us their bill, and we will mail you the cards free. Yours respectfully, I. L. CRAGIN & Co., 116 South 4:h Street, Philadelphia, Pa.

P. S.-Ladies not wishing to buy soap can get the cards by remitting cost price, 25 cents.

If as Jean Paul Righter says—"Happiness is the absence of pain," what shall be said of a remedy that will relieve instantly such pain as those endure who suffer from piles and of how much happiness must "Anakesis" be the author. 500,000 of the millions afflicted with piles gladly testify to its healing virtues. Doctors of all schools prescribe it and in 20 years none have used it without benefit. Combining the virtues of a poultice, an instrument and medicine, easy of application, safe and useful in all cases, it relieves pain at once, holds up the tumors and ultimately cures the worst cases of piles and what is equally worth knowing, by following the Doctors printed instructions as to diet, habits etc., keeps them cured. Samples of "Anakesis" are sent free to all sufferers on application to P. Neustaedter & Co., Box 3946 New York. Sold by druggists everywhere. Price \$1,00 per box.
