

AGRICULTURE.

SELECTING SEED CORN.—The yield of corn is very greatly reduced in many fields every season by the poor quality of seed that is planted. Seed that is immature, or which was injured during or after the curing process, was planted, and much of it failed to germinate. After waiting several days for sprouts to appear above ground, the farmer ascertains that entire the seed has rotted. The length of the growing season in the Northern States is ordinarily required to produce a good crop of sound corn. If planting is delayed ten or twelve days after the usual time, the prospect is that the crop will be injured, if it is not entirely destroyed, by an early frost.

If one is assured of a good crop from corn that is planted late, the trouble of cultivation is very greatly increased. When good seed is planted on land freshly prepared it will come up quickly, and deep in advance of the weeds. Cultivation will, of course, be necessary, but it may with safety be delayed till the young corn is sufficiently high to mark the rows. If it is necessary to replant however, the weeds will be in possession of the soil, not only before the corn is up, but before it is planted. To have a clear field in such circumstances will require almost constant labor throughout the season. It is difficult to fight weeds that have obtained the start of cultivated crops.

In case part of the corn germinated and part does not the situation is not much better. Considerable work is required to replant seed, and as it will not come up till after that planted work will be required in cultivation during the entire season. Whatever be the character of the season, the corn will not mature at the same time, and the chances are that the portion last planted will not ripen before early frosts occur. It is the practice of some farmers to replant "missing hills" with seed of some early variety, so that the two kinds may ripen at about the same time. Securing a uniform period of ripening, however, does not secure a uniform lot of corn. It will be a mixed lot which will rank low in the market.

The first essential to success in corn raising is good seed. If a farmer has a good variety of corn, and it has attained a fair growth in the field, he can, by taking sufficient pains, secure reliable for planting. He should select only the best ears for this purpose. He can make a much better selection when the stalks are standing on the hill where they grow, than after they are cut up and put in shocks. All but two or three husks should be removed from each ear, when they should be braided together and hung in some airy place to dry. An equally good plan consists in tying the ears in pairs and hanging them over a wire suspended in a chamber or some outbuilding, where they will be protected from the rain or snow.

If a farmer has not a first class variety of corn or has not raised a good crop on account of a bad season, he should procure his seed from some person who has secured a superior crop. It is generally better to procure a supply in the fall than in the spring, as the price will be likely to be lower. No crop is more dependent on the quality of the seed than corn. In this case of small grains it is very difficult to select individual kernels to sow. Most persons object to hand picking kernels and peas with a view of selecting choice specimens for planting. It is comparatively easy, however, to select not only ears but the kernels of corn for planting, as the amount of seed required for an acre is comparatively small.

Eggs are lined by packing them in a liquid made as follows: A peck of fresh lime is slaked in sufficient water to make a thin mortar. When thoroughly slaked, which will require twenty four hours, water is added to thin it so that it can be strained through a fine sieve into a clean barrel, which is then filled with water, when the eggs, perfectly fresh, are laid carefully into kegs of barrels, and the strained lime is poured over them, a board being floated on the top to keep the eggs under the surface. In this way the eggs may be kept six months.

One great object in feeding animals should be to enrich the land, hence it becomes of the greatest importance to know what food can be produced that will injure the land in the least, and enrich the manure heap the most.

DRAINAGE improves the texture of the soil because it renders it mellow and friable.

Every one knows that a glass given a graver sound on being struck when containing water than when empty. The relations of this class of phenomena have been studied by M. Montigny, who got eleven bells belonging to the chime of an old clock and compared their tones when merely filled with liquids, or when immersed in liquids, with those they give in air. He tried different liquids, viz.: water, alcohol, ether, and sulphide of carbon. He found that, however the liquid was applied, the sound given in contact with it was always graver than the natural; that the lowering of the tone was marked the denser the liquid (thus it was less with ether than with sulphide of carbon); also more marked, whatever the liquid, when the bell was completely immersed than when it was merely filled; and that, with either mode of application, the lowering was greater for graver than acute notes.

The additional fact that the lowering of tone when a bell is merely filled with a liquid and that which occurs when, being empty, it is immersed in the liquid up to its lip, are exactly the same, shows that the alteration is due to the influence which that part of the liquid in contact with the metal has on the vibrations of the latter (not to any metal and liquid forming a vibrating whole). Further, the compressibility of the liquid is a factor in the result. Water is both less compressible and more dense than alcohol and ether, and it lowers the tone more. The result is also affected by the form of the bell and the elasticity and density of its substance. It is obvious, lastly, that a chime which presents a perfect gamut in air no longer does so when in contact with liquid.

The Royal Engineers have tried the effect of gun cotton bringing down two old chimneys at the Dockyard Extension Works, Chatham, England. The first was demolished by placing a neck-lace of gun cotton inside the chimney, the total charge consisting of about four and a half pounds. The second was destroyed by placing six charges of the explosive in the centre of the base of the chimney, the total charge weighing 28 ounces. The experiment was very successful. At the instant the electric spark ignited the gun cotton, the chimneys became wrecks,

DOMESTIC.

EASY HOUSEKEEPING NOW-A-DAYS.—A couple may set up for themselves with very few utensils, scarcely any provisions, and next to no knowledge of cookery. A gas or oil stove takes the place of a costly and cumbersome cooking range. Coffee is not only parched but ground. Spices and pepper come all ready to use. Every kind of bread, cake and pastry can be purchased at a slight advance on the cost of the material they contain. If one wishes the sport of making them self-rising flour may be had at any grocery. Fruit of all kinds, all ready for the table, can be purchased about as cheaply as that which must be prepared. Not only lobster and shell fish, but salmon may be bought cooked and ready to be served at a price little above what the crude articles cost; and cooked corned beef, tongue, pigs' feet and ham have long been in the market. There are also canned soups, that only need to be diluted; mince pies all ready to be put between pie crusts; and roast meats and fowl of all descriptions. Some grocers keep much prepared for frying. Boston baked beans, put up in cans, have had a great run during the past few years. English plum pudding is also upon the market. Fried potatoes are an article of commerce. Cans of cooked green corn, beans, peas, tomatos, cauliflower and asparagus are found on the shelves of every corner grocery. It is no longer necessary to have a cook, or to be a cook, in order to keep house. It requires scarcely any cooking utensils to provide a warm meal. A can opener, a frying pan and a coffee pot are the principal requisites. Even the last is not absolutely necessary, since all prepared coffee, sugar and cream can readily be obtained. It is even practical, now, for the novice to dispense with a cook book, as the label on every can tells how to treat the contents.

A GOOD AND CHEAP WHITEWASH.—Few people know how easily white wash is made and how valuable it is when properly applied. It not only prevents the decay of wood, but is greatly conducive to the healthfulness of buildings, whether wood or stone. Out buildings and fences, when not painted, should be supplied once or twice a year with a good coat of whitewash, which should be prepared in the following way: Take a clean, water-tight barrel or tub, and fill it with clean water to about half a bushel in height; slack it by pouring water over it, boiling hot, and put in a sufficient quantity of water to cover it five inches deep, and stir it briskly till thoroughly slackened; when the slackening has been thoroughly effected, dissolve in it water, and add two pounds of sulphate of zinc and one pound salt. These will cause the wash to harden, and prevent the cracking, which gives an unseemly appearance to the work. If desirable, a beautiful cream color may be given to the wash by adding three pounds of yellow ochre; or a good pearl by lead, lamp, or ivory black. For lawns, sidewalks, and the like, use a Turkish or American—the latter is the cheapest—one pound of Indian red, one pound of common lamplack.

An inquirer wants to know how to grow rhubarb, or pie-plant. This is easy information to furnish. In fact, rhubarb is so readily grown and kept growing in the same bed for so many years, that no one who has even a mite of a garden should be without a little bed of it. It is really the "pie-plant," as it is the first thing to grow in the garden that a pie can be made of, and hence comes very acceptably. As a sauce, too, or side-dish, it is excellent. It is easiest grown, and the most, with all seed-growers have for sale, and it comes a year earlier. Seed, however, can be sown in the early spring, and when once taken firm root thin out to about three feet square. In after years, when the stalks are cut off for use show signs of going to seed, cut off the tops. We have a small bed that has supplied us year after year with a well disturbed, except to cultivate among it, for some fifteen or twenty years.

SODA FOR BURNS.—All kinds of burns, including scalds and sunburns, are almost immediately relieved by the application of a solution of soda to the burnt surface. It must be remembered that dry soda will not do unless it is surrounded with a cloth moist enough to dissolve it. This method of sprinkling soda on the soda is sprinkled on and covered with a moistened cloth. It is thought by some that the pain of a burn is caused by the hardening of the albumen of the flesh which presses on the nerves, and that the soda dissolves the albumen and relieves the pressure. Others think that the burn generates an acid which the soda neutralizes.

CARVING KNIFE EXECUTION.—Here is my method of carving a fowl: Hold the bird in the right hand, by the legs and tips of the wings; grasp its neck with the left hand, close to the body, and lay its head on the knife; let an assistant place a carving-knife upon its neck and give it a couple of blows with a mallet; then slide the left hand down toward the neck of the fowl, and hold it with the left hand until it ceases to struggle—not too tightly, but so that it will bleed freely. The advantage of this method is that it prevents the fowl from flopping around and getting the feathers all bloody and soiled, and it can throw no blood upon the operator.

To remove ink stains from printed books, procure a cent's worth of oxalic acid, which dissolve in a small quantity of warm water, then slightly wet the stain with it, when it will disappear, leaving the leaf unharmed. The oxalic acid must be handled carefully, as it is a deadly poison.

SIMPLE and tasteful table covers for bedrooms may be made of pale blue Canton flannel trimmed with antique lace, or with velvet ribbon feather-stitched on, and finished with fringe made of blue split zephyr or shetland wool.

CHARCOAL powder is good for polishing knives without destroying the blades. It is also a good tooth powder when finely pulverized.

PREVENTION excels cure every time. Always keep Dr. Bull's Cough Syrup convenient; take it in time and you will be free from Coughs, Colds, &c. Sold everywhere. Price 25 cents bottle.

'JIMOROUS.

A MINISTER out in the far West, who has been troubled a good deal over marriage fees, issued the following circular and price list: "One marriage plain, \$2; ditto, kissing the bride, \$3; ditto, trimmed with one groomsmen and one bride's maid, \$4; fifty cents extra for each additional groomsmen or bridesmaid. Bachelors past forty will be charged extra. Maids of age, ten per centum off. Mileage will be charged in long distance matches. Liberal reduction to clubs. Payments in cash; no notes or receipts accepted. No money returned or rebates made for poor goods. Come early, and come often."

A CREDITOR who had given his debtor a week to contrive some plan to meet his obligations called at the ex-copied: "Have you thought over that matter yet?" "Not exactly," responded the debtor, with a troubled look; "you see I wanted to think of it a good deal, but the very day you left my doctor told me I mustn't do any brain work."

Rockford (Ill.) Register. Fell Against a Sharp Edge. This is furnished by Mr. Wm. Will, 1613 Frankford Ave., Philadelphia, Pa: Some time since I received a severe injury to my back, by falling against the sharp edge of a marble step, the stone penetrating it at least a half-inch, and leaving a very painful wound. After suffering for a time, I concluded to apply St. Jacob's Oil, and, upon the hostess asking if it exceeded my expectations. It speedily allayed all pain and swelling and by continued use, made a perfect cure. I really think it the most efficacious liniment I ever used.

Two urchins, dirty and ragged, were lying in wait for alms. A well-to-do looking gentleman passing at the moment was accosted by one of them. "Please, mister, gimme a penny to buy some bread," implored the gamine. "Get out, you little rascal, don't bother me," was the reply. Thereupon the discomfited urchin turned to his companion and observed, "Billy, he must be a millionaire."

When a boy gets whipped by the schoolmaster, the chances are that if he tells of it, the old gentleman will give him another beating and then go and thumb the schoolmaster. The boy can decide whether he prefers to avoid the second whaling or take it for the sake of getting the schoolmaster lammed. It sometimes tears a boy up terribly to make up his mind.

"Doctor," said one of our best young men in society; "doctor, there is something the matter with my brain; I know there is. What shall I do about it?" And the doctor calmly but firmly said he guessed it needed a little exercise about as much as anything else; and now the best young man goes around saying the doctor is a fool.

After vainly spending five hundred dollars for other remedies to relieve my wife, I have no hesitation in declaring that St. Jacob's Oil will cure Neuralgia, says M. V. B. Heron, Esq., (of Pinkham & Heron,) Boston, Mass., an enthusiastic indorser of its merits.

"Ball this evening, dear?" inquired Desdemona of Othello, when she saw him loading up his old navy revolver. "No, not this evening, love, sm'other evening," he replied, as he reached for the pillow and wedged it soddily down her scapulars.

They asked a Providence man if the girls of that city are handsome. "Handsome!" he cried. "Handsome! Why handsome is no name for them!" Thank Heaven, there is one honest man in Providence.

"Look here, boy, this is a miserable certificate your teacher sends me of your standing," said a Galveston parent to his son. "Tain't my fault, or it would have been all right."

PONDER on these truths—you cannot be well or get well if your bowels and kidneys refuse their healthful action.—Tribune.

No one ever yet saw a man who made a move to separate two dogs engaged in battle, as long as his own dog was having the best of it.

Vegetine Purifies the Blood, Renovates and Invigorates the whole System.

ITS MEDICINAL PROPERTIES ARE: Alterative, Tonic, Solvent & Diuretic

Reliable Evidence. Mr. H. R. STEVENS. Dear Sir, I will most cheerfully add my testimony to the great number you have already received in favor of your great and good medicine, Vegetine. For I do not think enough can be said in its praise for I was troubled over 30 years with that dreadful disease, catarrh, and had such bad coughing spells that it would seem as though I never could breathe any more and I do feel to thank God all the time that there is such a medicine as Vegetine, and I also think it one of the best medicines for coughs and colds, and I advise everybody to take the Vegetine, for I can assure them it is one of the best medicines that ever was.

MR. L. GORE. Cor. Magazine and Walnut sts., Cambridge, Mass. GIVES HEALTH, STRENGTH & APPETITE.

My daughter has received great benefit from the use of Vegetine. Her declining health was a source of great anxiety to all her friends. A few bottles of Vegetine restored her health, strength and appetite. N. H. TILDEN. Insurance and Marine Agt., Boston, Mass.

Vegetine IS SOLD BY ALL DRUGGISTS. DEDERICK'S HAY PRESSES are sent anywhere on wheels, and are used against all kinds of hay, and the customer keeps the hay in the best condition, and does not need to be dished up any other. Dederick's Presses are known to be beyond competition, and will save you the trouble of using any other machine to be used in the hay field. Dederick's Presses are sent anywhere on wheels, and are used against all kinds of hay, and the customer keeps the hay in the best condition, and does not need to be dished up any other. Dederick's Presses are known to be beyond competition, and will save you the trouble of using any other machine to be used in the hay field.

"WHAT are you doing there, Jimmy?" said a mother to her middle-aged son. "Looking for a lost 'art," replied the delver. "In a minute ple, black-berry jam, etc." "Let me assist you to rise in the world," responded his maternal relative, as she fondled him with a broomstick.

A VERY tall, thin Highlander said that he "had a cold in his head, originating in wet feet." She looked at him slowly from head to foot and back again, as if measuring the distance the cold had to travel, and then ejaculated, "Gracious me! you must have wet your feet some time last year."

A Lady's Wish. "Oh, how I do wish my skin was as clear and soft as yours," said a lady to her friend. "You can easily make it so," answered the friend. "How?" inquired the first lady. "By using Hop Bitters, that makes your rich blood and blooming health. It did it for me, as you observe." Read it.—Caro Bulletin.

AMBITION'S BOY: "Mother, may I go out West and fight Indians?" Mother: "No, my son; but you may go down to the cellar and fetch me up a scuttie of coal."

We heard a man tell his son that maple sugar was produced from the maple tree. How can that man expect his son to grow up truthful if he sets before him such a horrid example.

PIMPLES and HUMORS on the FACE.—In this condition of the skin, the VEGETINE is the great remedy, as it acts directly upon the cause. It cleanses and purifies the blood, thereby causing humors of all kinds to disappear.

My little boy went to his first tea-party when 4 years and 3 months old. Upon the hostess asking if he liked his tea, he replied: "It is very nice, I but think it tastes very much of the water."

THERE is probably nothing so exhilarating in the experience of the amateur gardener as when he steps upon the hoe and the responsive handle immediately arises to implant fervent kisses between his eyes.

A SOUTH END maiden asks: "When a young man comes twice a week with a carriage and takes a young lady to the theater and a supper afterward, and makes her magnificent presents, what does it indicate?" It indicates, ma'am, that he has got more money to fool away than he have.

A POOR young man remarks the only advice he gets from capitalists is "to live within his income," whereas, the difficulty he experiences is to live without an income.

Can Piles be Cured? Is the most important question to-day with suffering millions who, when looking at the long list of useless pile nostrums, feel as the good Bible Patriarch like exclaiming: "I have heard many such things, miserable comforters are ye all, how long will ye vex my soul and break me in pieces with words?" It is not recorded that Job had piles, he could not have had anything more painful, and the same question might have been asked then as now. It is not recorded that Job had piles, he could not have had anything more painful, and the same question might have been asked then as now.

For all these Painsful Complaints and Weaknesses we recommend to our best female friends, PINKHAM'S VEGETABLE COMPOUND. It will cure entirely the worst forms of Piles, Hemorrhoids, Catarrhs, Inflammation and Ulceration, Falling and Displacements, and the consequent Spinal Weakness, and is particularly adapted to the female sex.

It will dissolve and expel tumors from the uterus in an early stage of development. The tendency to cancerous humors therein checked very speedily by its use. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and trouble, is always permanently cured by its use. It will at all times assist under all circumstances act in harmony with the laws that govern the female system. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

PINKHAM'S VEGETABLE COMPOUND is prepared at 233 and 235 Western Avenue, Lynn, Mass. Price, Six bottles for \$5. Sent by mail in the form of pills, also in the form of lozenges, one receipt of pills, \$1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Send for pamphlet. Address as above. Mention this Paper.

No family should be without LYDIA E. PINKHAM'S VEGETABLE COMPOUND. It will cure entirely the worst forms of Piles, Hemorrhoids, Catarrhs, Inflammation and Ulceration, Falling and Displacements, and the consequent Spinal Weakness, and is particularly adapted to the female sex.

The Purest and Best Medicine ever Made. A combination of Hops, Buchu, Marsh-mallows, and Dandelion, with all the best and most valuable properties of all other Bitters, makes this the most perfect and most effective of all Bitters. It is a Regulator of the Liver and Life and Health Restoring Agent on a monthly basis. It is a most valuable medicine for all who are afflicted with the following ailments: It gives you a good appetite, and it gives you a good sleep. It gives you a good appetite, and it gives you a good sleep. It gives you a good appetite, and it gives you a good sleep.

ENCYCLOPEDIA OF ETIQUETTE & BUSINESS. This is the cheapest and only complete and reliable work on Etiquette and Business. It tells how to perform all the various duties of life, and how to appear to the best advantage on all occasions.

TEACHERS WANTED. \$65 to \$100 per month. Steady work all Spring and Summer. For full particulars, Address J. C. McCURDY & CO., Philadelphia, Pa.

FOR SALE. 5000 Shares New York and Ohio Tunnel Mining Co. \$1000 worth. Graduates guaranteed paying \$1000. Address VALENTINE BROS., Jacksonville, Wisconsin.

Ordinary letter paper, says the Compté Rendu, if well heated and briskly rubbed with the hand or with a brush, acquires electric properties. It adheres to tables and walls, and when the hand is brought in contact with it, slight electric discharges are quite visible if the experiment is made in the dark. Swedish filter paper will, however, give sparks several centimeters in length if it is thus treated: Steep the paper first in a mixture of equal volumes of nitric and sulphuric acid. After the paper has become pyrolyzed through the action of the acids, wash it well with water and dry it. If the paper is then placed upon a sheet of waxed paper and briskly rubbed, it soon exhibits energetic properties which may be used to repeat almost every one of the usual experiments in static electricity.

The main cause of nervousness is indigestion, and is caused by weakness of the stomach. No one can have sound nerves and good health without using Hop Bitters to strengthen the stomach, purify the blood, and keep the liver and kidneys active, to carry off all the poisonous and waste matter of the system. See other columns.—Advances.

A prize of \$200 in gold has been offered by Mr. H. H. Warner, of Rochester, N. Y., for the discovery of any comet during 1881. The comet must be unexpected (with the exception of the comet of 1812) and telescopic, and Prof. Lewis Swift, of Rochester, must be immediately notified of its discovery.

COULD I but see Carbonic made, And view the process o'er, No bald head pate would make afraid No gray hairs fright me more. As now improved and perfected, No oil was ere so sure, All skin disease, of limb or head, It never fails to cure.

Two friends meeting, the following colloquy ensued: "Where have you been?" "To my tailor, and I had hard work to make him accept a little money." "You astonish me! Why?" "Because he wanted more!"

MRS. LYDIA E. PINKHAM, OF LYNN, MASS.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Is a Positive Cure for all these Painsful Complaints and Weaknesses we recommend to our best female friends, PINKHAM'S VEGETABLE COMPOUND.

It will cure entirely the worst forms of Piles, Hemorrhoids, Catarrhs, Inflammation and Ulceration, Falling and Displacements, and the consequent Spinal Weakness, and is particularly adapted to the female sex.

DR. RADWAY'S Sarsaparillian Resolvent. THE GREAT BLOOD PURIFIER. FOR THE CURE OF CHRONIC DISEASES. SCROFULA OR STYPHILITIC HEREDITARY TUBERCLES, IN THE LUNGS OR STOMACH, SKIN OR JOINTS, FLESH OR NERVES, CORRUPTING THE SOLIDS AND VITIATING THE FLUIDS.

Chronic Rheumatism, Scrofula, Glandular Swelling, Racking Dry Cough, Cancerous Affections, Syphilitic Complaints, Bleeding of the Lungs, Hypocondria, Water Brain, The Dropsy, White Swellings, Trueness, Venereal Skin and Eye Diseases, Mercurial Disease, Pustule Complanata, Gout, Dropsy, Salt Rheum, Bronchitis, Consumption.

Liver Complaint, &c. We only do the Sarsaparillian Resolvent and all other preparations. It cures Chronic, Scrofulous, Constitutional and Skin Diseases, but it is the only positive cure for

KIDNEY AND BLADDER COMPLAINTS. Primary and Womb Diseases, Gravel, Diabetes, Dropsy, Stomach of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases of Urinary Affections, the cure of which is difficult, and in which the water is thick, cloudy, mixed with substances like the white of an egg, or crystalline, or sandy, or stringy, or contains a mucous appearance and white bone-like deposits, and when there is a pricking, burning sensation when passing water, and pain in the small of the back and along the urethra. Sold by Druggists. PRICE ONE DOLLAR.

OVARIAN TUMOR OF TEN YEARS GROWTH CURED BY DR. RADWAY'S REMEDIES. One bottle contains more of the active principle of medicine than any other Preparation. Taken in Teaspoonful doses, with others require five or six times as much.

R. RADWAY'S Ready Relief. CURES AND PREVENTS DYSENTERY, DIARRHŒA, CHOLERA MORBUS, FEVER AND AGUE, RHEUMATISM, NEURALGIA, DIPHTHERIA, INFLUENZA, SORE THROAT, DIFFICULT BREATHING, BOWEL COMPLAINTS.

Looseness, Diarrhœa, Cholera Morbus or painful discharges from the bowels are stopped in 10 or 15 minutes by taking Radway's Ready Relief. No congestion or inflammation, no weakness or lassitude will follow the use of the R. R. Relief.

IT WAS THE FIRST AND IS THE ONLY Pain Remedy that instantly stops the most excruciating pains, allays inflammation, and cures Constipation, whether of the Lungs, Stomach, Bowels or other glands or organs, by one application. In from one to two hours, no matter how violent or excruciating the pain, the inflammation, whether of the Lungs, Stomach, Bowels, or other organs, is stopped, and the patient is able to eat and sleep. RADWAY'S READY RELIEF will afford instant relief in all cases of inflammation of the Kidneys, Inflammation of the Bladder, Inflammation of the Bowels, Inflammation of the Membranes of the Lungs, Sore Throat, Difficult Breathing, Hysterical Spasms of the Heart, Headache, Toothache, Catarrh, Inflammation, Nervousness, Sleeplessness, Neuralgia, Rheumatism, Sciatica, Gout, and Arterio Sclerosis, Chills and Fevers, and all other ailments.

The Application of the Ready Relief to the part where the pain or difficulty exists will afford relief in from one to two hours. Thirty to sixty drops in a half tumbler of water, will give a permanent cure. Gravel, Sprains, Sore Throat, Hoarseness, Sick Headache, Diarrhœa, Dysentery, Cholera, Wind in the Bowels, and all other ailments.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent motion sickness from coming on board of water. It is better than French Brandy or Bitters as a stimulant. Price Fifty Cents per Bottle.

Radway's Regulating Pills. Purged Purgative, Soothing Aperient, Act Without Pain, Always Reliable, and Natural in their Operation.

A VEGETABLE SUBSTITUTE FOR CALOMEL. Purportedly tasteless, elegantly coated with sweet red sugar, regulates, purifies, cleanses and softens the bowels.

Radway's Pills for the cure of all Diseases of the Liver, Bowels, Kidneys, Bladder, Gout, Nervous System, Headache, Constipation, Costiveness, Indigestion, Dyspepsia, Biliousness, and all other ailments. It is a most valuable medicine for all who are afflicted with the following ailments: It gives you a good appetite, and it gives you a good sleep.

Observe the following symptoms resulting from Diseases of the Digestive Organs: Constipation, Headache, Dizziness, Stomach Pain, Acid Stomach, Nausea, Heartburn, Discharge of Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Heart, Choking or Suffering Swallowing when in a lying posture, Dropsy, and Vision, Drops or Webs between the Eyes, and Pain in the Side, Chest, Limbs, and Sudden Flushes of Heat, burning in the Face.

A few doses of RADWAY'S PILLS will free the system from all the above named disorders. Price, 25 Cents per Box.

We repeat that the reader must consult our books and papers on the various ailments, and their cure, among which may be named: "Pain and True," "Radway on Irritable Uterus," "Radway on Sore Throat," and others relating to different classes of Diseases.

READ "PAIN AND TRUE." Send a letter stamp to RADWAY & CO., No. 23 Warren Street, Church St., New York. "Informations worth thousands will be sent to you."

TO THE PUBLIC. There can be no better guarantee of the value of Dr. RADWAY'S old established R. R. R. Pills than the base and worthless imitations of these as they are Pills, Biscuits, Balm, and other Remedies. Be sure and ask for Radway's, and see that the name "Radway" is on what you buy.
