did its work nobly by nominating a good, strong ticket, and it now becomes the duty of every Democrat to give it a full and hearty support. Those candidates who had not the good fortune to be nominated will best show their devotion to principle by giving their successful competitors their cheerful support. This is essential to the proper organization, discipline and success of the party. Where so many worthy men compete for office the majority of them must of necessity be defeated. All cannot succeed, and the lucky ones are entitled under all the rules of party and of honor to the fullest aid of all. Conventions are but the agents of parties, to unite and centre the voting power on one set of candidates, and all who submitted their names to its actions are bound by its rules. But one state officer—State Treasurer—is to be elected the coming fall, and if the proper man be nominated he will stand at least an even chance with his Republican competitor. The state convention will not be held until late in September, the State Committee having wisely decided on a short campaign. The outlook is auspicious and if the Democracy of Old Centre does its duty as we believe it will, we can keep up and even increase the large majority given for Gen. Hancock last fall.

The Democratic State Committee has fixed upon Sept. 28th as the time and Williamsport as the place, for the meeting of the Democratic state convention. A resolution was also passed authorizing Chairman Dill to appoint a committee of six to prepare rules and regulations for the government of the party in the state. It is thought that Ex Senator Wallace and Ex-Speaker Handall will be the leading spirits of said committee. Up to the present, Hon. Orange Noble seems to be the most prominent candidate for State Treasurer.

The Democracy of Clinton county held their convention at Lock Haven, Tuesday the 9th instant and nominated the following ticket, which is considered a very good one: Associate Judges—W. W. Rankin, Isaac Frantz; Sheriff—P. B. Smith; Treasurer—Wallace Gakle; District Attorney—George A. Brown; Commissioners—D. M. Morris, Jos. W. Hubbard; Auditors—W. T. Young, L. R. Paup.

Prohibition in North Carolina was defeated the other Friday by a majority of 109,000. The Republican and colored vote combined did it.

"AT DEATH'S DOOR."

"The President in a Very Precarious Condition." The above are the significant headlines in the Patriot of yesterday regarding the condition of President Garfield. The physicians however keep up hope. The President may recover but he has at this time hardly an even chance between life and death. This is the feeling of the people, notwithstanding the cheerful tone of the doctors' bulletins. But the nation should not give up all hope as long as the President lives. Let us pray that Providence may spare the precious life.

The Ignored African.

Although there have been republican mayors in Philadelphia from 1858 until 1881, with the single exception of the one term of Mayor Fox, no colored man was ever appointed as policeman until a democratic reform mayor commissioned him. For a period of sixteen years the colored voters have held the balance of power, as a rule, in both city and state, and they have, with rare exceptions, uniformly voted the republican ticket, but no colored voter was ever elevated to any position of honor or profit either in Philadelphia or in Pennsylvania. The colored citizen has never been nominated for either legislative or congressional honors, nor has he ever been seen in the councils of this or any other city in the state. He was a brewer of wood and a drawer of water for politicians, and a few glib and unscrupulous colored leaders have sold the colored vote for a price as regularly as important elections came along.—Philadelphia Times.

Politics and Farming in Virginia.

From the Petersburg (Va.) Index-Express. A farmer writes to us that in consequence of the political agitation in his county this summer the colored labor has become so disorganized that it is next to impossible for the farmers to secure help. He himself lost the better portion of his hay crop by this cause. Again we say that there should be a time for politics and politicians, as for everything else, and they ought not to be permitted to absorb the whole time of the people.

The integrity of the newspapers of the State is shown in the fact that all save two or three oppose the Legislative salary grab and hail the able opinion of Judge Pearson with the most positive demonstrations of applause.

The Republican convention of Dauphin county completed its organization had everything in perfect order. How convenient to have a machine to do your work.

The Democrats of Snyder county last week nominated the following ticket: President Judge—Hon. Jos. C. Bucher; Sheriff—I. S. Longacre; Treasurer—Moses Krebs; Commissioners—Jacob G. Snyder, H. N. Wetzel.

THE GRAIN CROP.—From the New York Produce Exchange, which is the reliable grain report of the country, we gather the following points: The wheat crop of 1881 is as yet an unknown quantity. The opinion most generally prevails the output of the spring wheat will be fully equal to the crop of 1880. The winter wheat crop will be deficient as compared with the crop of 1880, chiefly in Ohio, Indiana Michigan, Illinois and Iowa. The output of the spring and wheat crop of 1881, as it now looks and promises, will be about 400 million bushels, with between 50 and 60 million bushels of old wheat in the country carried over from the crop of 1879 and 1880 to July 1, '81. The wants of Europe, as now claimed, will be from 75 to 100 million bushels less wheat this year than last. It is, however, quite probable that the output of the European wheat will be less than present expectations. The German crop is deficient in wheat, rye and barley. In Scotland the wheat is poor. In Ireland it is very fine, in England irregular. In the United Kingdom the wheat is under average. There was July 30th, 1881, in store at the principal cities the following large amount of grain wheat 16,772,569 bushels, corn 15,929,014 bushels, oats 7,373,906, rye 187,833.

A Noble Example for Doctors.

Recently while Dr. Agnew was in Washington, he was urged to remain, but he declined because of patients requiring his attention in Philadelphia. One of the resident physicians asked what kind of patients they were, and the eminent surgeon replied that one was a laborer in the shipyard, who had a badly fractured skull, and the other one of the same character, who was suffering from a wound in the abdomen, and he thought he might be able to save their lives by his presence. When it was urged the president's life was more valuable, he remarked that the president was attended by skillful surgeons, while these poor men had nobody. Human life was human life, and his presence was actually necessary at Philadelphia at that time.

News Miscellany.

A Peddler's Crime. LANCASTER, August 15.—John W. Wright, a patent medicine peddler, who claims Philadelphia as his home, was committed this evening in default of \$1,000 bail for trial on a charge of rape, on complaint of Mrs. Elizabeth Rutter, a young married woman, residing on Low street, this city. She alleges that the accused entered the house about noon to-day under pretext of selling his goods and seeing her alone committed the crime.

A Woman Killed by a Bull.

BRIDGEPORT, Conn., August 9.—Mrs. H. Robinson, a resident of Monroe, a small town about ten miles west of here, while visiting a neighbor on Sunday afternoon attempted to head off a pair of bulls which had escaped from a neighboring field. One of them turned on her, forced her against a fence, goring her in a shocking manner. She succeeded in making her escape from the infuriated animal, climbed over a fence and fell insensible. She died from the injuries. She leaves a husband and two children.

The merchants of McVeytown have agreed to inform each other as well as merchants and business men of other places, of all persons who neglect or refuse to pay their bills. Such a system strictly carried out would starve out a lot of skippers in every community or drive them to stealing—or may be to work.—Ex.

Finley, Young & Co., of Williamsport, became financially embarrassed a few years ago, their liabilities reaching nearly a quarter of million dollars. A meeting of their creditors was held and the firm proposed to pay dollar for dollar in installments, give their notes payable at bank with interest at seven per cent. The proposition was accepted and a few days ago the firm paid their last note. They not only paid their own debts, but about forty thousand dollars of notes on which they were indorsers.

In the whole History of Medicine.

No preparation has ever performed such marvelous cures, or maintained so wide a reputation, as the Compound Symplicial, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long continued success of wonderful cures in all climates, has made it universally known as a safe and reliable agent to use. Against ordinary colds, with sore throats, whooping cough, influenza, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords to the throat, and chest disorders, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will from their knowledge of its composition and effects, physicians who have practiced extensively in their practice, and everyone who recommends it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. FOR SALE BY ALL DEALERS.

TO ADVERTISERS.

GEO. P. ROWELL & CO'S SELECT LIST OF LOCAL NEWSPAPERS. An advertiser who spends upwards of \$5,000 a year, and who invests less than \$500 of it in this list, writes: "Your Select Local List paid me better last year than ALL THE OTHER ADVERTISING DID." IT IS NOT A CO-OPERATIVE LIST. IT IS NOT A CHEAP LIST. IT IS AN HONEST LIST. The catalogue states exactly what the papers are. When the name of a paper is printed in FULL FACE TYPE it is in every instance the BEST. When printed in CAPITALS it is the ONLY paper in the place. The list gives the population of every town and the circulation of every paper. The rates charged for advertising are barely one-fifth the publishers' schedule. The price for single States ranges from \$20 to \$50. The price for one inch one month in the entire list is \$625. The regular rates of the papers for the same space and time are \$2,800. The list includes 162 newspapers of which 187 are issued DAILY and 75 WEEKLY. They are located in 70 different cities and towns, of which 20 are State Capitals, 363 places of over 5,000 population, and 468 County seats. For full particulars and other information address GEO. P. ROWELL & CO., 10 Spruce St., New York.
