The Pittsburg Dispatch of Saturday contains four columns of matter on the subject of speculative life insurance, in which it asserts that Governor Hoyt, Secretary Quay, Attorney General Palmer and other state officers hold large sums in policies on aged persons insured in speculative companies. Governor Hoyt was interviewed on Saturday in regard to the statement in the Dis patch and declared most emphatically that the charge is utterly without foundation. He went on to expres self in terms of decided hostility to

speculative insurance, declaring tha no charters would have been granted to companies organized on that plan but for the fact that the law is manda tory on the subject. Secretary Quay and Attorney General Palmer are not in the city, but it is understood that they hold the same yiews as the gov ernor in regard to the matter.

### -9.0 THE CROPS.

### Condition of Spring Wheat, Tobacco and Corn.

WASHINGTON, Aug. 16,-The following reports showing the condition of the spring wheat, tobacco and corn crops were issued at noon:

DEPARTMENT OF AGRICULTURE, August 16 .- Spring Wheat-The returns of August 1. give a condition of spring wheat of eighty-one against eighty-eight last year and eighty-one in 1879 at the same time. Compared with the crop of last year there is reported a heavy decrease in the States of Iowa, Illinois, a slight decrease in Minne sota, Nebraska, and California; while than that shown by General Hancock in Wisconsin and all the New England States there is an increase. Report from Dakota indicate a fair crop, with a large increase in acreage.

Tobacco-The condition of tobacco at the date of the returns to this de condition. He had been especially in- partment was somewhat lower than a this time last year. In the northern and middle Atlantic States the crop was reported as better than last year tion of so doing when the news of the In Kentucky, Tennessee and Missour relapse was announced. The general average condition of corn in August is seventy-seven, a very considerable decline since last month, when it stood at ninety. In August 1880, the condition was eightyeight, which, however, was exceptionally high.

The Atlantic coast States make a showing somewhat better than the general average, except in South Carolina, where excessive drought has cut down the figures to forty-one. Louisiana and Texas are the next lowof the interior States, its average fallng to sixty four. in the great corn growing region the lightest reports are two in Nebraska, and the lowest, seventy-tour, in Kansas.
