Vegetine Cured His Daughter.

CALLIERSVILLE, Chilton Co., Ala. } May 15, 1878. Dear Sh:---My daughter has been afflicted with nasal catarrh, affection of bladder and kidneys, and is of scrofulous diathesis, and, after having xhausted my skill and the most eminent phys ans of Selma, I at last resorted to the use of your VEGETINE (without confidence) and, to my great surprise, my daughter has been restored to health. I write this as a simple act of justice, and not as an advertising medium. T. E. CALLIER, M. D.

Work of a Farmer's Wife.

1 am a farmer's daughter, and a farmer's wife, and know how many hours of hard labor we have to perform from one year's end to another. I also know the ways and we please-not to spend "loating 'round,"

but for the comforts of our homes. Still. with all the toil of a farm life, I would not exchange it for a life in town with double the income. Now, let me tell you some of the hard-working members of the Home how I have obtained quite a revenue the two past seasons. The head of the family said I could have all the poultry I could raise, but at the same time added that it would be time and trouble thrown away. I had turkeys and heps. The first year had poor success on account of storms and accidents. The third year sold twenty six dollars worth of eggs, and received over eighty dollars in the fall for my poultry, and did not get fancy prices. The third season (last summer and fall) I sold thirtyeight dollars worth of eggs, and my turkeys brought forty dollars. When I add that I did all the household work on a large farm, often milking, feeding hogs, and not one minute's help even in threshing time, you will acknowledge the money was well earned, but, as I look around the house, and see what comforts it has brought I wonder how 1 got along without them. Every dollar was used for something that would benefit the whole family, except a trifle given to some one whom I knew to be very needy. I find that young turkeys condition. must have black pepper mixed with their

food. It is also well to give a trifie of red pepper. Give them corn meal after they are ten days old, but scald it in sour milk. in a kettle kept for the purpose. If they are cooped up their coop must be moved every day or they will die. If young turkeys have a turkey mother, she will be apt to keep them dry through cuite a storm. When they are reared with a hen they must be furnished with a shelter when it rains. Now, how many rosy lassies in the Home circle are going to volunteer to rise at five o'clock every morning from now till the first day of June next, and prepare breaksast with her own hands while tired mother naps?

WELLFLEET, MASS., April 10, 1876. MESSRS NEUSTAEDTER & Co.

Dear Sirs: Enclosed you will find one dollar, for which please send me a box of Anakesis. Direct it to Muiford Rich, Jr., Wellfleet, Barnstable Co., Mass. My wife has suffered terribly with piles for ten years, and had tried all kinds of remedies that she could hear of without much relief. Last summer I happened to hear of Anakesis when I was in Boston and so I procured a box and she experienced immediate relief. She says she can exclaim with the cele brated professor: Thank God for Anakesis ! She gave part of the contexts of the box to a friend of hers in Provincetown, and they helped her so that she sent the next day and bought some. The most of the inhabitants of this place and vicinity are sea-faring people, and by being exposed to wet and cold, a hard pulling at ropes, nine out of ten are troubled with piles, and have tried so many remedies without relief that they are discouraged and have no faith in anything, but I know that they are a good article. Now I will tell you my plan; I am a peddler and travel in Barnstable county, and times are so hard that money is very scarce, but if I can afford it this summer I want to buy about a dozen boxes or purpose to give away to the unbelievers, and I think that by so doing, and being acquainted with so many people, that I could get up quite a trade in Anakesis if you would give me the sole right of this county.
