Watchman thinks that Milheim needs a first class shoemaker. But how about Frank Kister and our new high constable? Are they not good mechanics ? Of course they are. The truth is however that Millheim would be vastly benefitted by several manufacturing concerns and about a dozen live, thriving mechanical establishments. Variety in tusiness is what makes a town. Who will build or establish something new? There is ample room for improvements.

SINGULAR AND DISTRESSING ACCI-DENT .- A very singular as well as distressing accident happened at Mr. John Long's sale near Milheim, on Friday the 24th inst. A party of young men were engaged in playing "corner" ball in the barnyard where the sale was going on. By an unfortunate course of the ball, Mr. Emanuel Cronmiller, of Aaronsburg, was severely hit on the bridge of the nose and had an artery burst. He bled profusely but was atsupporting home industries. But the tended to by a doctor who was on the truth is too, that Mr. Camp can do ground, and afterwards conveyed home such a job just as well and cheaply as He had several severe spells of bleeding explain; but when the time arrived Broadway Street, near P. & E. News Miscellany.

IT cost Schuylkill county \$546 last year to keep her prisoners in tobacco.

The United States Marshal at Washngton has up to date received about Wheat fifty ropes to hang Guiteau with.

THE Pennsylvania Nail Works at Harr isburg produces 220,000 kegs of nails and spikes annually and employ 300 men. The Central Rolling Mill at the same place employs 125 men, and the pay rolls of both places amount to \$350,000 per a nnum.

THE Franklin Repository gets off the following: "The ten plagues of a newspaper office are bores, poets, cranks, rats, cockroaches, typographical errors, exchange fiends, book canvassers, delinquent subscribers and the man who always knows how to run the paper better than the editor himself."

ONLY 117,710,150 gallons of whisky were made in the United States last year. This is hardly more than two gallons to each citizen. The query is how this limited quantity can be made go around when there are hundreds and thousands of men who drink five and ten times the above quota. Only the skillfull bartender knows how much pure water a gallon of whiskey will bear and how much of the former must be mixed with the whisky in order that the latter may go around.

In July, 1881, the Williamsport Sun and Banner made a very scathing expos ure of the official corruption of the Lycoming county Commissioners. The county Auditors have made a thorough investigation and find the published charges true, and now charge against said commissioners in favor of the county over \$1800 that should have gone into the County Treasury but went into the pockets of the Commis sioners. To these charges the commis sioners and their counsel asked time and opportunity to make answer and signed at H. K. WHITMAN'S RESIDENCE, sible article in the furniture line, is tion, but his physicians now think them liable for embezzlement, fraud

Mr. Eli Hollinger, of Harrisburg, DR. J. W. STAM has in his posssession sixteen hens which, during the month of February, yielded him 379 eggs, or about thirteen eggs a day. The same chickens since the first day of December laid 937 eggs, showing that about twelve out of the sixteen chickens laid an egg every day for the last three months, This success Mr. Hollinger attributes to proper care. He asserts that if hens are properly cared for they will lay more eggs in the winter menths than any other time of the year.

RECENT outrages by a band of burglars in the Lebanon, Susquehanna, Cumberland, Lehigh, Wyoming, Lackawanna and Schuylkill valleys of Penn sylvania, have created much excitement. The post offices at Scranton, Honesdale, Ashland, Ashley, Tremont, Minersville and Sunbury have beenbroken into and plundered. Between Harrisburg and Reading twenty stores and dwellings and numerous mills were broken into and plundered. Near the village of Highspire the dwelling of an old couple named Ulrich was entered and \$5,000, the entire earnings of their lives, carried off. No arrests have been made, excepting two tramps, who are supposed not to have been connected with the band of burglars guilty of the main robberies. Some persons believe that the law breakers are recently liberated convicts whose terms of imprisonment had expired, but others think that the Molly Maguires are the real culprits. The excitement over the outrages has induced the people to form vigilance committees, and they promise to give the burglars a warm reception.

THE LATEST.

A speculator in country produce calls on a farmer; purchases \$10 or \$15 worth of eggs, butter or poultry; says that he wants a receipt to show the firm he represents that he paid the money; breaks the point of his pencil before the signature is reached; then takes from his pocket a fountain pen and the farmer uses it to sign his name. The swindler then goes to town, sells the produce, erases the body of the receipt, writes instead a promissory note for \$60 or \$100 and has it discounted at the bank.
