STRAIGHTENING UP TREES. -In August and September trees begin to harden their wood, and as the twig is then bent the tree will be inclined. A tree will usually arrange its foliage symmetrically, the shoots that are laggard this year receiving the most impetus next year, and so filling up vacancies and irregularities. But a stem once hardened in deformity cannot recover without aid. Only a stake stiffer than itself, so applied as to press against the convexity of the bend, while the "learing off" portion is drawn toward the stake and tied clo e up to it, will remedy the disfigur ment. It is surp i ing bow few of those who attempt to straighten a trees em by a stake apply the stake so as to effect their object. Set it on the side from which the stem leans, and close to the stem. Set it now, just before the wood hardens. T.e it at bottom, top and middle, so that the tree stem will be straight as the stake, and so that the wind n.ay not displace it. Add a brace, if necessary, to hold the stem erect after the stake has made it straight (by October the stake may le dispensed with), and if you have got a per, endicular eye in jour level head it will be a continual pleasure to look ever thereafter at that erect support of the head of foliage. Un the other hand crooked stems are, as long as they stand, not only vexatious eye-sores plumb metrically, but monuments of neglect or of want of knowledge on the part of HORSES IN HOT WEATHER -We went

into a stable where the air was stifling hot, and reeking with odors from the manure beneath the horse's feet. The poor brutes were perspiring freely while swarms of flies tormented the very life out of them. the horses were being fed and recruiting for a heavy atternoon's work in the mowing machine. We feel that we are perfectly safe in saying that an hour's imprisonment in that stable on a hot day would enervate a team more than half a day's work out in the pure air. And there are many s ab es I ke this through the country. In nine c ses out of ten, no thought is ever given to h matter of ventilation, in the construction of stables. This was low, with narrow stalls, a long feed trough running the whole leng h, and a feed rack above it. There was no chance for introducing a current of air, which would be appreciated fully by a horse as by his owner. Stables should be kept scrupul usly c'ean, and even disinfected during the close, sultry weather of midsummer. We know of one farmer who makes it a business to wash out his stalls with cold water before putting in his horses at noon, and it is a practice to be commended where water is convenient But at least, give the tired horses clean, "wholesome stalls, and plenty of air.

FATTENING SWINE .- When hogs are being fattened in peus there should always be two apartments, the one for feeding and the o her for sleeping in. The one should be cleaned daily, and the other kept well littered with straw, and the straw renewed as often as the nest becomes very dirty When first penned, mix with the feed of teaspoonful of pulvetized copperas. Feed regularly three times daly. A rubbing post in the inclosure will be of advantage. Also place in a trough under shelter a mixture of rotten wood, pulverized charcoal, ashes and salt. These methods or an : pen range are indispensable to the good

REMEDY FOR WORMS IN PIGS. - A Wesgood. For pigs under three months old a small ta lespoonful. It may be given four days in succession, morning and evening, and repeat d every other week. Give pleaty of sour milk, green food, celery tops, acorns and siced raw onions. Avoid stagnant and putrid wate. Give access to charcoal and ashes.

bones because they like the ta-te of them. and will rarely hurt themselves chewing them if let alone, and never, unless frightened by a passon or some master animal. Therefore a cow when chewing a bone, should never be chased or started up suddenly, or she may be tempted to try to

DEEP CULTIVATION, -We do not realize that deep and thorough pulverization is equivalent to a chenical change of soil. The more the partic'es of earth are separated and exposed to the sun the higher they become electrified; they inhale the air ir ely and carry the surplus water de per.

HINTS -Coal ashes are useful for mulching young trees and bushes. They prevent the soil from drying out, and keep down grass and weeds. A simple and effective remedy for lice on cattle is to give them a thorough dusting over with wood asles every other day, brus' ing them clean the following day.

For a kick ng herse fili an old sack with of a rope, in sucn a manner that the horse will be able to kick it every time it swings | ble in a hot dish, with the gravy poured against him. Let him kick until he stops of his own accord, and you will have more trouble with him that way.

astonishing.

DOMESTIC.

PLAIN DUFFS. You may call it steam of it. You are caught sometimes, and a teacupful of currants and a tablespooncold water to make a stiff batter; put it in a pudding Itin, cover it with a cloth, and let is go it in a steam boiler for one hour and a half. If you want a richer duff, just go through the same thing, adding the yolks of five eggs and a tablespoonful of butter. The sauce-You see you ain't got no sugar in them. This here sauce is quick, too. You want two tablespoonfuls of butter, and dash it! I mean hurling a foe-to the just a trifle less of sifted flour, and death!" you grate a quarter of a nutmeg into it, and you add a teaspoonful of vanilla extract, or half a teaspoonful of lemon essence, and a whole teacupful of granulated sugar. Now smooth it altogether, adding teaspoonfuls of warm water from time to time as you boil it until you get it to the thickness you want; but after all, I've seen many a nice lady take that sauce' and then dash molasses on the whole thing, and say molasses was the best.

CARE OF VACCINATION. -Avoid having a flannel or woolen sleeve or a linen band around the arm, as they irritate it and keep it sore much longer than it should be, and it will also prevent the vaccination from becoming perfect. Be careful that the sore be not scratched or torn. Either leave the armentirely bare or cover it with a thin, loose sleeve of calico or muslin. In case the arm becomes very much inflamed after the tenth day do not poultice it, but keep it covered with cloth wet with lake warm praise it highly .- Indianapolis (Ind.) water, and it will usually heal very rap- News. idly. Babies should be vaccinated before they are five months old, if possible, so that they may get entirely over the effect of it before teething begins. It makes no difference at what time of the Fogg. year the vaccination is performed. Vaccination such as we offer, will always prevent small pox if attended to in time.

PANCAKES FOR LUNCHEON. -These are made of eggs, flour and milk. The just proportions are one tablespoonful of flour to each egg. To make small pancakes, beat two eggs thoroughly and add sweet mllk. Then take two tablespoonfuls of flour, work into a thin paste and ductile batter by adding the milk and eggs and a little salt. Grease the pan with a piece of sweet lard or butter and stir briskly to prevent adhering to the bottom. When the underside is sufficiently browned, turn it, leave the cakes folded, with su ar or honey and butter between the folds, or sugar alone. If this be too solid, add more eggs and less flour. A slight sprinkle of grated nutmeg will be an addition,

To Cook a White Fish.-Choose one that weighs about seven or eight pounds, boil it until it is done, then take out all the bones; take a quart of sweet milk. two onions, and a little summer savory; This was during the hour of noon when boil until the milk is thoroughly seasoned and thicken it with flour, using enough to make a thin paste; add butter, pepper to suit your taste. Then put in a a pudding dish a layer of fish and a layer of dressing; cover the top with rolled cracker, as you do scalloped oysters; bake for three quarters of an hour, or until the top is a golden brown. Serve with mashed potatoes, spiced currents and the vegetables of the season.

CREAM TO USE WITH LAYER CAKE. - Take one pound of blanched aimonds, pound to a paste, one coffee cup of thick sour cream, two tablespoonfuls of corn starch scalded in a little sweet milk, beat altocake; flavor with a little almond extract.

This is very rich, and is suitable for the nicest kind of cake. For more common use an inviting cream may be made in this way: Take a pint of sweet milk. thicken it with half a cup of corn starch, add half a cup of sugar, and boil until the cream or custard is of the consistency of starch. When almost cool add one tablespoonful of lemon and vanilla and spraed between the layers of cake.

BAKED EGG PLANT .- Trim off the stem end and boil the egg plant for twenty minutes in salt water and then lay in the colander to drain until perfectly cold; peel open and take out the seed, mash the egg plant smooth, poureach hog at least three or four times a ing off any water that comes, and add to week a teaspoonful of sulphur and also a it half a grated nutmeg, a saltspoonful of white pepper, half a teaspoonful of salt, a teacupful of milk, a teaspoonful of butter, two eggs, and bread crumbs enough to make a thick batter of it; bake for twenty minutes in the dish you will serve it in; two tablespoonfuls of minced ham is an improvement.

OMELETTE. -Beat up well four eggs, add a teaspoonful of cream or milk and tern paper says that flour of sulphur is a a little salt. Have hot in a skillet a simple and effective remedy against worms half ounce of melted butter, and pour in pigs, and the animals readily partake of in. During the frying, move the skilit, when mixed in gruel or other sloppy let continually to and fro. Continue this until there is a soft, juicy cake formed; teaspoonful is a do e, and for older ones a then let remain still a moment to color. Turn out on a dish, and serve at once.

Muffins.-Two eggs, one pint of flour, one teaspoon baking powder, one teacup of milk, a piece of butter half the size of an egg, and a little salt. Mix the flour, baking powder and salt together. In another dish beat the yolks Cows Chewing B. Nes. - Cows will chew of the eggs; add the milk and butter, then the flour, then the beaten whites. Beat well together, and bake in gem irons in a hot oven.

> Brown Bread .- "Auntie Brown' 18 famous for her brown bread, and this is how she makes it: Three cups of sour milk, one of sweet milk, three cups of Indian meal, one cup of rye meal, one cup of wheat flour, one cup of maple molasses, three teaspoonfuls of saleratus and a very little salt. Steam three hours and bake one-half hour.

> Delicious Cake. - Two cups of white sugar, one cup butter, one cup milk, three eggs, half teaspoon soda, one teaspoon cream tartar, three cups flour; beat butter and sugar together, add the yolks of eggs, then the beaten whites; dissolve soda in milk, rub the cream tartar in the flour, and add last. Very nice and easily made.

"That, Andromeda," spake her courtier knight, "is Mars, the wad of gore beg pardon, I mean the god of war." "Ah, yes; and looks he not like some gaunt Achilles, armored for conquest, bidding defiance to the hosts of Hades?" "He doth, Andromeda, he doth! Or

like some grim avenger furling a hoe-

Uncle Sam's Men.

Uncle Sam's letter-carriers are a hard working set of men, and are liable to contract rheumatism because of the constant exposure to which they are subjected. Calling at the post-office the reporter had a pleasant conversation with Mr. J. H. Mattern, one of the most popular and clever letter-carriers in Indianapolis. Mr. Mattern said that, while in the army during the civil war, he sprained one of his ankles, which was always worse in the spring during the period of the rapid changes in the weather. He did not find much relief from the several remedies he Branch News. applied. But two years ago he hit upon St. Jacob's Ol, and experienced wonderful relief from its use. Several applications of the Great German Remedy relieved him entirely. The reporter talked with others among the letter carriers and found that the great German Remedy was popular in the post-office. They use it for sore feet, rheumatism, etc., and

"How do you like my book?" asked Brown. . "I am delighted with it," replied

"Are you, indeed?" said Brown, his face glowing with pleasure. "Yes," responded Fogg. "In fact, I

don't believe I could live without it." "Oh, you flatterer," exclaimed Brown. "No, I'm no flutterer," returned Fogg, varmly. I tell you the truth. I used

to be troubled with insomnia, but all I have to do now is to take up your book, and 'pon honor, Brown, I'm asleep before I'vh read half a page. Couldn't get along without it, my boy." Brown simply said "Oh!" as he started to go. He didn't repeat the charge of flattery against Fogg. Perhaps it did not occur to him, or perhaps he did not want to hurt Fogg's feelings.

We see in the New York Spirit of the Times mention of the cure of Mr. George Drake, 46 Fifth street, Indianapolis, Ind., of a severe case of water rheumatism. by the use of St Jacob's Oil. - Cincinnati

THERE was displayed near the soda water fountain, in a drug store, the sign "Bovine Vaccine." A young man, accompanied by a young woman who might have been his country cousin or sweetheart, entered, and in response to sand by centrigugal force against a "wall" the inquiring look of the boy who tended the fountain, said: "You may give me bovine." The young woman's eyes had been resting on the unusual sign near the fountain, and when her companion turned to her and asked how s e would take hers, she said, timidly, "I guess I'll try a little vaccine.'

Dr. Holman's Aim

Is that of every legitimate physician, who, gether and spread between the layers of in writing a prescription, makes it his first business to select the best combination of elements that he can find for the de-ired purpose, let the cost be what it may. His experience with the Pad led him to give anusual attention to the invention of a useful Plaster and we risk nothing in saying that he has enabled us to present the best Plaster ever offered to the people,

> Mr. Longfellow was born in a wooden Me., house in Portland, which is still standing and which is known to all the children of the city as the first abode of their favorite poet. A teacher in one of the public schools, after giving divers lessons on Longfe!low's beautiful life, asked her pupils if any of them knew where the poet was born. A little hand went up in a hurry, and a small voice piped forth, "In Patsy Connor's bedroom,"-Master Connor being now one of the occupants of the old Longfellow house.

Suffering is Needles. Brooklyn, N. Y., June 21, 1881. H. H. WARNER & Co.: Sirs:-I find

that palgatation of the heart, shortness of breath, dyspensia and pains in the kidneys yield easily and gracefully to your Safe Kidney and Liver Cure. ROBERT H. THURSTON,

There are some dispensations of nature which are not easily comprehended by the casual inquirer, and do not become very much plainer when carefully examined. One of them was remarked upon the other day by a young lady. "It is unaccountable, indeed, that the tortoise combs has himself no hair whatever."

Could I but see Carboline made. And view the process o'er. No bald head pate would make afraid, Nor gray hairs fright me more. As now improved and perfected,

No oil was ere so sure, All skin disease, of limb or head, It never fails to cure.

A good fellow, a little deaf, went into theatre in London, the other day, his examination in the witness box, where a pautomime was going on. For five minutes he contented himself with paid for lying?" listening with all his might, leaning forward, making an ear trumpet with his ward, making an ear trumpet with his hand, etc. At last, finding himself still smock frock too," unsuccessful, he rises, and cries out in a rage, "Louder! louder, I tell you! No-

body can hear that!" Lydia E. Pinkham's Vegetable Combound has done thousands of women more good than the medicines of many doctors. It is a positive cure for all female com-

Glazed Photographs.—The beautiful gloss on photographs called enamelting is produced as tollows: After the prints have been toned, washed and trimmed in the usual way they are immersed in a warm aught save the intermitting fancies of filtered aqueous solution of gelatine of about the consistence of collodion, to which is after added a small quantity of sugar candy. When the paper has become well said: "Diomedes! what rufescent orb impregnated with the liquid the pieces are removed and placed, smooth face downward, upon a plate of glass previously coated with a four per cent. normal collodion, and air dried. In placing the print care must be taken to quickly press out all air bubbles. Afterward a sheet of stout white paper, cut somewhat larger than the prints, is cemented to the back of each photograph to protect the pictures in the event of their spontaneously leaving the glass on drying. The plates are allowed to remain over night in a dry locality, when the portraits may be separated from

> "how are You My Old Friends?" Asked a bright looking man. "Oh! I feel miserable, I'm bilious and can't eat, and my back is so lame I can't work.

all around the paper.

'Why in the world don't you take Kidney-Wort? that's what I take when I'm out of sorts, and it always keeps me in perfect tune. My doctor recommended it tor all such troubles." Kidney-Wort is the sure cure for biliousness and constipation. Don't fail to try it .- Long

Gas Lighting in Cities .- In addition o paying 70 cents per lamp for electric lights in the streets, New York has contracted to pay the several gas companies as tollows: New York Gas Light Company, tor the district south of Grand street, \$17.50 lamp per year; Manhattan Gas Light Company, district between Grand and Thirty-fourth streets, \$17 50 a lamp: Mutual Gas Light Company, certain streets between Thirty-fourth and Seventy-ninth stree's and the parks south of Thirty-fourth street, \$17 50 a lamp; Metropolitan Gas Light Company, district between Thirtyfourth and Seventy-vinth streets, \$17 50 a lamp, Harlem Gas Light Company, district north of Seventy-ninth street and south of Spuyten Duyvil creek and the Harlem river, \$19 50 a lamp; Central Gas Light Company, Twenty-third Ward, \$29 a lamp; Northern Gas Light C mpany, that part of the Twenty-fourth Ward formerly the village of West Farms, \$32 a lamp; Yonkers Gas Light Company, the remainder of the Twenty-fourth Ward \$39 a lamp.

If Nearly Dead after taking some highly puffed up stuff with long testimonials, turn to Hop Bit ters, and have no fear of any Kidney or Urmary Troubles, Bright's Disease, Diabetes or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters, besides it is the great family medicine on earth.

Dry Separation of Gold from Sand .-A novel apparatus for separating gold from sand without the use of water was recently completed and tested in New York. It is intended for use in the placer regions of the West, Mexico, and Central America, wi ere gold-bearing sand if found at a distance from water sufficient for hydraulic in diameter, and is arranged to throw the of mercury, maintained in position by centrifugal action. In this way it is claimed, every particle of gold is brought in contact with the mercury and amalgamated. while the sand is blown away by means of an air blast, The machine is said to clean a ton of sand in twenty minutes, and to le so thorough in its operation as to make it possible to work over with profit the tailings of mines worked by other systems. The power required to operate the machine is not given.

Every one of our lady readers should send five three cent stamps for a copy of Strawbridge& Clothier's Quarterly, one of the largest fashion magazines published. The present number contains 120 large pages, with 1000 engravings, illustrating the new fashions and four pages of new music. Strawbridge & Clothier, Sth and Market streets, Philadelphia.

In recasting old brasses sufficient care is not always taken to preserve the original proportions of the mix, and as a result it is sometimes said that they do not work as well as the first lot of the same receipt or formula. This is quite probable, for the reason that zinc burnt up rapidly, and the lead also when any 18 used. Enough of these metals should be added to all old recast brass to bring them up. About one pound of zirc and lead to 16 pounds of brass is said to give good sound castings.

On Thirty Days' Trial.

A contractor who is building a sewer up town, observed one morning that the face of a member of his gang was disfigured with bruises and plasters.

"Halloa, Jimmy," said he "what have ou been doin'?"

"Not vary much, sorr," answered Jimmy. "I was just down at Bill Mnlligan's last night, sorr, an' him an' me had a bit av discooshin wid sticks."

To Consumptives.

Reader, can you believe that the creator afflicts one-third of mankind with a disease for which there is no remedy? Dr. R. V. Pierce's "Golden Medical Discovery" has cured hundreds of cases of consumption, and men are living to day-healthy, robust men-whom physicians pronounced incurable, because one lung was almost gone. Send two stamps for Dr. Pierce's pamphlet on Consumption and Kindred Affections. Address World's DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

A young nobleman in a frightful railway accident missed his valet. One of the guards came up to him and said : "My lord, we have found your servant, but he is cut in two.

"Aw, is he?" said the young man, with Dundreary drawl, but with a trace of anxiety depicted on his countenance. Will you be good enough to see in which half he has got the key of my carpet bag?"

Young or middle aged men suffering from nervous debility, less of memory, premature old age, as the result of bad habits, should send three stamps for Part VII of Dime Series Pamphlets. Address WORLD'S DISPENSARY MEDICAL ASSOCIA-TION, Buffalo, N. Y.

Mrs. Malloy-"Shure, Mrs. McGinnis, an' it's rather poorly you're lookin this mornin'."

Mrs. McGinnis-"Indade, thin, Mrs. Malley, an' it's good raison I'm having to look poorly. Here's the postman just been to the doore to tell me there's a dead letter waitin' fur me at the post office, an' I can't fur the life of me think who it is that's dead."

Dr. Pierce's "Favorite Prescription" is the debilitated woman's best restorative

Dr. Rogers mentions a Kincardinesire husbandman who was expressing to his minister the high opinions he had of his personal virtues, and he wound up his eulogy by saying, "An' I a'ways and specially, liket your sterling independence, sir. I hae a'ways said, sir, that ye neither fear God nor man."

Habitual Costiveness is the bane of nearly every American woman. From it usually arise those disorders that so surely undermine their health and strength. Every woman owes it to herself and to her family to use that celebrated medicine, Kidney-Wort. It is the sure remedy for constipation, and for all disorders of the kidney and liver. Try it in liquid or dry form. Equally efficient in either. - Boston Sunday Budget.

A CLEVER actress was playing Juliet to crowded house in th the country. As she lay dead in the tomb, she contrived to ask Romeo how the scene was going. "Beautifully," he answered, "the people in the pit have to put up umbrellas to prevent being drowned by the tears of those in the gellery."

Bright's Disease, Diabetes. Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urmary or Liver Diseases, as they only relieve for a while and make you ten times worse afterwards, but rely soiely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

"I never thought of that before. I'il see the rest of the doctors in Austin, and if they all say I can take three drinks a day, that will make about sixty drinks a day, and that is as much as is good for an invalid,"

VEGETINE .- This preparation is scienifically and chemically combined, and so strongly concentrated from roots, herbs and barks, that its good effects are realized immediately after commencing to

A MINNESOTA girl walks eighteen miles every day, to and from the printing office in which she is employed, Her beau must be working somewhere in the neighborhood of that printing office.

For dizziness, headache, pain in the back, biliousness, and fever and ague, use only "Sellers' Liver Pills."

"You are looking bad," remarked Snowberger to Colonel Percy Yerger. 'What's the matter?"

PAILADELPHIA, 1882.

J. B. MAYER, Dear Sir; -Our son has been troubled with Ru ture many years. By your treatment, he is now entirely cured. He needs no Support or Trues. Our baby, also, when born had a Double Rupture, and s entirely cured by the use of your Liviment. Being now assured, by the success of my children, I am satisfied to come under your treatment, in which I lead no faith previously.
