I finally thought I would give Vegetine a trial, with little faith, I will admit; but to my surprise and great relief, a few do-es conv need me that I had got hold of the right thing for my difficulty. It sent out humor right thing for my difficulty. It sent out humor from my blood that, I have no doubt, was the cause of the misery I had endured, and I found relief as soon as a medicine could relieve a disease of that kind. When I began its use I seldom got a night's sleep, or half a one, and my appetite was poor, and as a consequence, I was running down rapidly; but, after a few doses, I saw a radical change every way, and am thoroughly satisfied with Vegetine, and recommend it to any person suffering as I did, Respectfully, MRS.
