### In the Camp.

AGRICULTURE,

On the Delta of the Nile, the English DRIVING Cows.-There is one practice and Egyptian camps are now facing each almost universally in use which is unpro-The Egyptians, should they be fitable and cruel. It is for a man or boy other. defeated, have Cairo and the Libyan De- to take a horse to drive milk cows to and sert to fly to; the British, with Alexandria, from the pasture. A horse walks much moreover, which is covered by the guns of faster than a cow whose udder is distendone of the strongest fleets that ever went ed and heavily loaded with four or five forth to do battle with an antagonistgallons of milk. And yet we are pained have a tolerably secure place of retreat in every day to see town boys (some of them the event of any disaster befalling their pretty old for that term) hurrying a cow, arms. The routine of the British soldier's in this condition, along at a dog trot, and, life in the time of warfare is similar to on her falling to keep out of the horse's that of the American. In the morning he way, to receive a cut from a villanous must fall into the ranks at bugle call and whip. And there is scarcely an evening answer to his name; later he has to take but that we see a family cow brought home his turn at guard or picket duty; he may from the pasture with a horse at fu'l trot. have to fall into a patrolling party or take And this is only what can be seen almost part in a reconnoissance; then, when he anywhere. Before boys got too lazy, or has nothing more to do, he may lounge before mothers thought it disgraceful for about among the tents, smoking his clay their sons to walk, a horse was not used pipe or chatting with a comrade. The for such a purpose. The boys were taught scene differs strangely in the camp of the to drive the cows quietly and slowly, and Egyptians. There the majority of the especially in the evening, when the cow is soldiers are dressed in a mongrel European | carrying her precious load to feed the fafashion, with the tarboosh or fez as the mily. But the cruel and uamerciful way most conspicuous national characteristic this business is done now, it will be strange of their uniform; but there is a minority it jadgments are not visited on the famiwhose picturesque costumes are distinctly hes that permit such things. It will, and Oriental. The Bedouin, with his gaudily does, come in rendering the cow almost colored handkerchief wrapped about his worthless. And in many cases the cow head, leaving ends that float upon his is entirely ruined. The judgment comes shoulders, his long white, mantle-like gar- to the family in using uanealthy milk by ments, and his sandalled feet; the Soudaninjuring the udder, and sometimes overese, with white turbans, flowing raiment heating the cow. When children are weak and baggy trousers; the Abyssinian advenor sickly where there is a cow belonging turer, who dresses as he pleases, much as to the family, it may be attributed in many his brother the Nubian does-all form a cases to unnecessary cruelty to the animal singular contrast with the quietly uniby rash drivers. There should be no com. formed soldiers of the "regular" torce. plaining, for judgments frequently come On the eve of battle these soldiers show a in that way as the necessary results of bad different scene in camp from that which conduct. We have no doubt that many their antagonists present. Sitting crosscases of sickness, and some deaths are legged in front of their tents, which are caused by this inhuman practice, and there but pieces of thin canvas stretched on ought to be more. A boy who will be thus cross-sticks, and are so low that their occruel to the kind and faithful family cow, cupants have to enter them by crawling, will be a cruel man, dangerous to society, they assemble in groups and pass around and the sooner he is removed from the evil the chilbouque or narghileh, the bubbling to come the better. And in such cases the sound of which as the smoke passes tears of the parents should be few.

through the water is almost the only sound that is heard except the neighing or the stamping of the horses that are picketed by the heels behind the camp's irregular lines.

More work could be done with the cultiva-An officer gallops along and warns them tor, and it could be done with greater ease. to be ready. They rise hastily to their The more the cultivator was improved the feet, crawle into their tents for their more farmers became attached to it, and weapons and hustle up together before the greater was their reluctance to handle they finally fall into line. But they do the hoe. At present the implement that It all with very little noise. It is possible has been used longer and to better advanto find not a noisy but a hilarious group; tage than any other in the cultivation of but this is generally where a chosen few crops is generally discarded on Western of the black faced and laughter loving farms. Indeed, many market gardeners taithtul from the Soudan have surrounded manage to raise most of their vegetables a story-teller, whose narrations of the without using the hoe to any conside rable deeds of genii or the merry tricks among extent. 'The horse cultivator is certainly a very desirable implement to employ in mortals of lesser supernatural worthless alternately excite their deep-voiced wonboth the field and the garden, but its use der or their spontaneous, child-like mirth. should be supplemented by that of the A British soldier seeing an Arab or Egypthand-hoe. It is profitable to continue the ian camp, and noting the recumbent posiuse of the hoe in every garden and cultition and social manner of the majority of vated field. Work can be performed with its occupants, might imagine that such it that can not be done with any implement people as these had no energy for fighting drawn by a horse. The hoe should be -but he would be egregiously mistaken. used in every corn and potato field before A French traveler, who recently closely the cultivator is put into operation. It observed the Egyptian army and all its should be employed to remove stones, turts and pieces of hard earth that may be over incongruous elements of pure fellaheen, Copts, Berbers, Nubians, Western Christthe plants that are making their appearians, Turks, Abyssinians, came to this ance above ground, and for stirring the conclusion :- They are admirably trained, soil around them. The cultivator is exceldrilled and disciplined under the superlent for working the ground between hills vision of an exceedingly able staff of but for cultivating the hill itself there is American and other toreign officers, and no implement like the hand-hce. It is very difficult to keep a field devoted to any the result is that a finer looking soldier than a Egptian soldier can be seen nocultivated crop entirely clear of grass and where. "Such is a brief sketch of the weeds without using the hoe. A field that troops that are now waiting." Arabi's has been worked at least once with a hand men are strongly posted in the vicinity of hoe is always more productive than one Ramleh; but his strongest position is on that has been tended with the cultivator the narrow neck of land which stretches alone. The truth is, the former performs from the Aboukir Lake to the northern some work which the latter cannot do. verge of Lake Mareotis. With a broad country behind him, a railway and plenty POTTING MOULD. - There is one infallible method of treating potting mould it susof water in the Mahmovdieh Canal, Arabi pected of containing vermin of any kind-Bey ought to be able to make a stubborn resistance to any British force attempting that is, to fill the pots the day before they to move along the neck and drive him are to be used, and water the soil in them and powdered sugar till it is as light as with boiling water. Scald also as much as from his position. A conspicuous teature you will require for filling in. Next day of that neck of land is that it is filled with it will be none too moist to work with, and marsh ground, which will seriously interthere will not be a live creature in it. Do of it on the top of each saucer of pudfere with the free movements both of British cavalry and artillery. The ground not mix coal ashes with your potting Arabi has chosen is, on the contrary, firm mould, that is just the way to spoil it. enough to permit of very effecting man-Earth-worms are not the enemies you suppose them to be, and they should not be œvuring. ruthlessly destroyed, they are appointed

## DOMESTIC. THE following rules, if strictly followed, will stimulate and promote the growth of hair, so long as the hair follic-

les have not lost their vitality: Keep the scalp scrupulously clean, and particularly free from dandruff. Brush the scalp lairy with a moderately stiff brush without using too much friction. Wash the head occasionally with soap and water. to remove fatty substances which have pecome acid. Keep the head cool and do not unnecessarily keep it covered in doors, particularly in warm rooms. Keep the skin of the scalp soft, pluable and faintly moist, if not naturally so, by the judicious application of some bland substance as vaseline, castor oil or al-mond oil, all of which may be perfumed. THE following simple method of keeping ice water a long time in a common

pitcher is worth knowing. Place between two sheets of paper (newspaper will answer, thick brown is better) a layer of cotton batting, about half an inch in thickness, fasten the ends of paper and batting together, forming a stove-pipe minus the rim. Place this over an ordinary pitcher filled with ice the table, so as to exclude the air, and you will be astonished at the length of h s fingers for a ladle. time this ice will keep, and the water remain cold after the ice is melted.

CUP PLUM PUDDING .- One cup each of raisins, currants, flour, bread crumbs, suet and sugar; stone and cut the raisins, wash and dry the currants, chop the suet and mix all the above ingredients well together; then add two ounces of cut candied peel and citron, a little mixed spice, salt and ginger, say half teaspoonful of each; stir in four well-beaten eggs and milk enough to make the mixture so that the spoon will stand upright in it; tie it loosely in a cloth or put in a mould; plunge in boil-

USE OF THE HAND HOE. With the introing water and boil for three and a half duction of the horse-cultivator the handhours. hoe went out of use on most Western farms. As flies this s ason of the year are

very troublesome, and as troublesome things are not healthy things, we give a cheap and effective fly-paper recipe below: In a tin vessel melt one pound of resin, and then add about two fluid drachms of linseed oil, While the mixture is warm, dip a spatula into it, and spread what adheres to the blade on a cool. When the mixture is found to be too hard for spreading add more oil; when too soft, add resin.

WHEN Dr. Wheatley had a headache, ne used to take off his coat, lay hold of the axe, and rush out of doors and belabor some old tree till he found himself in a profuse perspiration, when down went his axe and off went the o'd doctor as hard as he could tear to wrap himfelf up in his blankets, go to sleep, and wake as fresh as a four-year-old. Cheap medicine that, and good, too.

BRICKS FOR FURNACES. - French steam engineers deprecate the use of any bricks for the construction of furnaces except bricks which are very elosely pressed

# HUMOROUS.

"OH, ma! yer oughter seen Mr. Ligh ted the other night, when he called to take Angie to the drill. He looked so nice sittin' 'long side of her with his arm--" "Fred !" screamed the maiden. whose face began to assume the color of the well-done crab, quickly placing her "Yer hand over the boy's mouth. oughter seen him," said the persistent informer, after gaining his breath and the embarrassed girl's hand was re moved; "he had his arm-" ' Freddie!" shouted the mother, as in her frantic attempts to reach the boy's angular appendage she upset the contents of the teapot in Mr. Lighted's lap, making numerous Russian war maps over his new lavender pantaloons. "I was just

going to say," the half-frightened boy pleaded, between a cry and a half-injured whine, "he had his arm\_"" "You boy," thundered the father, "away to the woodshed." And the boy made for the nearest exit, exclaiming as he waltzed, "I was only going to say that Mr. Lighted had his army clothes circle, then sew or paste a crown over on; and I'll leave it to him if he hadn't!" one end, making a box the shape of a And the boy was permitted to come back, and the remainder of the meal was spent in explanations from the famwater, making it deep enough to rest on ily in regard to the number of times Freddie had to be talked to for using

### A Voice from the Press.

I take this opportunity to bear testimony to the efficacy of your "Hop Bitters." Expecting to find them nauseous and bitter and composed of bad whiskey, we were agreeably surprised at their mild taste, just like a cup of tea. A Mrs. Cresswell and a Mrs. Cornor, friends, have likewise tried, and pronounce them the best medicines they have ever taken for building up strength and toning up the system. I was troubled with costiveness, headache and want of appetite. My ailments are now al. gone. I have a yearly contract with a doctor to look after the health of myself and family, but I need him not S. GILLILAND. now.

July 25, 1878. People's Advocate, Fittsburg, Pa

A GENTLEMAN was going out one day in his carriage, to call with his wife, when he discovered that he had left his visiting cards. He ordered his footman, who had recently come into his service, to go to the mentlapiece in the sittingroom, and bring the cards he should see sheet of foolscap paper and allow it to there. The servant did as he was ordered, retaining the articles to be used as directed, and off started the gentleman, sending in the footman with cards wherever the "not at home" occurred. As these times were very numerous, he turned to the servant with the ques-

> tion\_ "How many cards have you left?" "Well, sir, said the footman, very nnocently, "there's the king of spades, the six of hearts, and the ace of clubs,' "The deuce !" exclaimed his master. "That's gone."

Measrs, Editors

The above is a good likeness of Mrs. Lydia E. Pinks ham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of failing of the uterus, Leucorrheea, irregular and painful Menstruation, all Ovarian Troubles, Infiammation and sumption of the lungs, consumptive night sweats, spitting of blood, shortness of Ulceration, Floodings, all Displacements and the con-sequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weak PICKING up: "I guess you must be ness of the stomach. It cures Bloating, Headaches, better to-day," said Farmer Hodges to Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing a sickly neighbor, whom he found rusticating in his strawberry patch. "Oh, I'm picking up a little," was the reply, as the invalid bent over to gather a red down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only \$1. per bottle or six for \$5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply,

at her home in Lynn, Mass. For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

which cures all the painful maladies "Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation. Biliousness and Torpidity of the liver. Her Blood Purifler works wonders in its special line and bids fain "Is your wife a Democrat or a Republican?" asked one citizen of another.

to equal the Compound in its popularity. All must respect her as an Angel of Mercy whose sole mbition is to do good to others.

### Rivaling Electricity.

The following is a description of a newly-invented gas burner which is intended, and it is said promises, to compete to some extent with the electric lamp. There was a time, when the gas companies had their plants. own sweet will with the public, who were forced to deal with them, consume whatever quality of gas they might furnish, and pay pretty nearly what they saw fit to appetite, 'bake up behind,' mope around charge. Latterly, however, the condition and die. It is caused by feeding sour, unof affairs has undergone a change the eleccooked food, lack of gravel and green food. tric light proving a much more formidable The preventives are obvious. Feed only competitor of the gas companies than the cooked food, provide gravel and plenty of latter ever anticipated. The future of the green food. Onion tops or lettuce chopped electric light has, in fact, become so proand mixed with the softfood is excellent mising that the gas manufacturers have for young chicks and turkeys. Sometimes cause for serious a arm, and some of them a cure can be effected in the early stages are casting about for some means whereby they may cope with the dangerous rival. The burner before spoken of is the result of this demand for something more efficient and cheaper than the old form. The invention, which has been introduced lately in London with so great a measure of success that the inventors have obtained the young fowls in good order. privilege of using the system in one of the prominent thoroughfares of the city, is described as somewhat similar to the ordinary burner, with a gauze cap over it. It cloth or sail cloth, and give it two coats consists of two pipes-one for supply of on each side of the following composition: air, at a pressure sufficient to balance a Linseed-oil, one gallon; dried sulphate of six-inch column of water, and the other zinc and sugar of lead, each three ounces; for the gas, which is conducted from the meter in the ordinary way. On the top stirring until it drops in strings; then of the burner is a cap about two inches cool slowly, and your off the clear part, high and half an inch in diameter, formed if too thick thin it with boiled oil. This of platinum wire gauze of very fine mesh. varnish is flexible and can be folded or The air under pressure is delivered from an rolled. inner tube, opening into a larger one near the top of the burner, with an opening at if plants are wanted for winter blooming its lower end. When the air is turned on it is well not to allow them to bloom much an induced upward current is produced, during the summer. During their growth and gas being admitted at the same time, at this season, the ext emities of the shoc's the two combined and pass into the platinum cap. When the mixture of gas and may be punched in, to give them a proper torm, and only a small portion of the flowair is ignited the cap in a few seconds er-buds that are produced should be allowgives forth a brilliant incandescent giow ed to bloom-the others should be removof high illuminating power. The essential

feature of the burner seems to have been ed. The result in autumn will be handsomely formed and vigorous plants, ready suggested by the incandescent electric for blooming during the winter. lamp. The light is described as of great said to be very steady. A FAMILY living a few miles from Washington, Ga., were awakened on the PIG'S FOOT CHEESE .- Boil the hocks night the engine house buined by the lady of the house, who happened to be till the meat will fall freely from the awake, and saw the light. She awoke bones; season well with pepper and sait; the other members of the household, and when they saw the flames and heard Cut in slices and serve with vinegar or the thunder rolling one of them exclaimed, "Judgment day has come !" A few moments after the whistle at the

new mill began to blow; then the other members of the family began to exclaim, 'Yes, it is judgment day certain and that is Gabriel's horn." As long as the fire burned there was great consternation in that household, but finally things quieted down and the family telt in a measure relieved.

### Asthma and Hay Fever.

The L. A. Knight Company, 697 Broadway, New York city, advertise to send free on application Knight's new treatise on "Asthma and Hay Fever-their Cause and Cure." It is ably written and con-

tains a great many valuable suggestions to those who suffer from these distressing diseases. See testimonials of Knight's Asthma Cure in another column.

THEY had a good deal of trouble in a Montreal court, the other day, trying to swear in a Chinaman. He said he "be-

lieved" in anything; that he "no swearee crumbs of a stale loaf of bread, and sift at allee;" and he didn't swear on a sauout all the lumps. Stir in milk till a cer. When asked if he was a Buddhist, thick batter is formed. Beat eggs, al- he answered: "Me no knowee what you lowing two to every pint of milk, till say. What you talkes about?" In reply smooth, and add to the batter; add a to the question, "What religion do you little salt. Beat all we'l together, and belong to?" he said, "State of Ohio," and was finally sworn by crossing his hands on his heart.

> Pure cod liver oil from selected livers, on the seashore, by Caswell, Hazard & Co.. N. Y. Absolutely pure and sweet. Patients who have once taken it prefer it to all others. Paysicians declare it superior to all other oils.

Chapped hands, face, pimples and rough skin cured by using Juniper Soap, made by Caswell, Hazard & Co., New York.

UNDER false colors: "Wife," said a New Haven man, impatiently, "why do you let that child run around to day so dirty, so much like a little monkey? I LADY CAKE. -Beat the whites of four ran him in Neighbor Jones' yard just eggs to a froth, one and a half cups of now, the worst-looking object I ever sugar and half a cup of butter, heap two saw." "Was he over there, though?" cups of flour and dissolve half a teacup- was the r sponded inquiry. "Well, he'll pass for Mr. Jones' dirty brat so long as spoonful of cream tartar dry in the flour; he is there. I'm not going to worry.'

> Everybody is pleased with the improved Carboline, a deodorized extract of petroleum. It is as clear and limpid as spring water, and was originally intended by nature as a panacea for all diseases of the scalp and skin and as a natural hair renewer.

HAPPILY twisted: When Sir George Rose was dining on one occasion with the late Lord Langdale, his host was speaking of the very diminutive church in Langdale, of which his lordship was patron. "It is not bigger," said Lord Langdale, "than this dining-room." 'No," returned Sir George, "a.d the living is not half so good,'

Lydia E. Pinkham's Vegetable Combound ranks first as a curative agent in all complaints peculiar to women. Cures K dney troubles of either sex.

last night!" Sweet one-"Yes, sir. Mother kept on pinching me 'cause I was so sleepy?"

There is hardly an adult person living but is sometimes troubled with kidney difficulty, which is the most prolific and dangerous cause of all disease. There is no sort of need to have any form of kidney or urinary trouble if Hop Bitters is taken occasionally.

HOSTETTER'S THERE is nothing that so takes the starch out of a young man who has been wedded about a year as to have to go to a store where there is a girl-clerk that he used to keep company with, and inquire for those large safety pins.

> SCR FULOUS HUMDRS. -The Vegetine has cured many cases of scrofuls of five, ten and twenty years' standing, where the patient has had many physicians, tried many of the known remedies; and after trying the Vegetine, the common remark is "It acts differently, works differently from any medicine I have ever taken.". Vegetine will cleause scrofula from the system. Try It.

"Yes, sir," said Mr. Snooks, "it was funny enough to make a donkey laugh. I laughed till I cried." And then, as he saw a smile go round the room, he grew TERS red in the face and went away mad.

### Well Once More.

541 EAST ARCH STREE POTTSVILLE, Pa., Sept. 22, 1881. H. H. Warner & Co.: Sirs-I have suffered for many years with inflammation of the kidneys and bladder, and have never found anything that would give me any relief except your safe Kidney and

MRS. MARY STAGER. Liver Cure, The too free practice of removing the tops of grape-bearing branches must be guarded against, because, as has been proved by the researches of M. Macagno, the green branches act as conductors of glucose. The most active agents in the forn ing of glucose and tartaric acid are the upper leaves of the fruit-bearing branch. If there is enough of grapes care must be be taken to permit enough of leaves to re-

main for the preparation of the grape sugar

or the quality of the fruit will be deterio:-
