The McDonald judiciary apportionment bill was agreed upon in committee and presented to the House last Saturday. It divides the state committee claims that the proposed apportionment will save the state a sum of \$40,000 in salaries each year. Thirty-eight out of the forty-six districts have each a population of over 40,000, and are entitled to a presidest judge respectively, under the constitution. Centre, Union and Snyder are joined together as the Fortieth District. This would give us two judges, same as now, and Judge Bucher would presumably be the President Judge, he being the oldrangement would no doubt be satisfactory all around.

From the Lancaster Intelligencer. The Press, which has been proving itself big enough to print the news and broad enough to tell the truth, allows an "Invisible" correspondent, writing from Harrisburg, to say in its columns that a committee "appointed to ascertain whether certain house officers could not be dispensed with," "report. ed that all were absolutely required, and those held in abevance were sneaked in by peace-meal, and to-day they are all in, except two sergeant-at-arms, who will be in in plenty of time to get the full salary," and upon such allegations as this he concludes that the cause of reform at Harrisburg is hopeless in the democratic house and has only a chance in the republican senate. Now the facts are just the reverse. The house did dispense with a dozen officers allowed by law and not one of them has been sneaked in nor filled in any other way. The senate, on the other hand, has filled its quota. Every officer elected by the democrats has to do his work in person, and, as even the Press correspondent admits, one who was unfit for his position had to resign and was neither allowed to hire a substitute nor shirk his duties.
