DEMOCRATIC STATE TICKET.

FOR AUDITOR GENERAL, COL. ROBERT TAGGART, OF WARREN COUNTY.

FOR STATE TREASURER, HON. JOSEPH POWELL, OF BRADFORD COUNTY.

DEMOCRATIC COUNTY TICKET.

FOR DISTRICT ATTORNEY, W. C. HEAL.

FOR ASSOCIATE JUDGE, Dr. J. R. Smith.

OF FERGUSON TOWNSHIP.

FOR COUNTY SURVEYOR, Ellis L. Orvis.

OF BELLEFONTE.

The republican senate now meets but twice a week, the sessions lasting from twenty minutes to half an hour. They merely go through the forms of holding sessions, while the spirit of the constitution and laws is utterly ignored. And this is called legislation. Truly we are a grand, great, glorious country!

The democrats of Clearfield last week nominated the following ticket: President—Judge—David L. Krebs; Prothonotary—James Kerr; Register and Recorder—George Ferguson; Surveyor—E. G. Read.

Mr. Krebs is a native of Centre county, and if we mistake not, Senator Wallace' son-in-law.

Wednesday last was a good day for political conventions. The democrats of Maryland met at Baltimore and nominated Robert McLane for Governor, J. F. Turner for Comptroller and C. B. Roberts for Attorney General.

The Massachusetts republicans met at Boston and nominated Robinson for Governor, Oliver Ames for Lieutenant Governor, H. B. Price for Secretary, Daniel A. Gleason for Treasurer, and E. J. Sherman for Attorney General.

In New York the republican convention met at Richfield Springs and nominated Gen. J. B. Carr for Secretary of State, I. C. Davenport for Comptroller and Pliny J. Sexton for Treasurer.

Get on Board.

The Democrats are harmonizing in New York and will elect their State ticket. The Democratic nomination for governor in Maryland insures harmony and success there. In Virginia the Mahonites give it up. New Jersey has only had one Republican governor since 1860, and will never have another; Abbot will be elected. In Ohio Hoadley's election becomes more likely every day and some of the "visiting

Republican statesmen" who went out there from Pennsylvania recently to spy the ground concede Hoadley's election. Pennsylvania Democrats should not wait for the returns from other States. Get on board.

Governor Pattison on Compensation.

On the 18th inst Gov. Pattison returned to the senate without his signature the concurrent resolution passed by both houses, to the effect that the pay of senators and representatives should cease after the 10th instant.

Ordinarily this would be a veto, and so it is improperly called by most papers. This is a misnomer, however, as the Governor has no control whatever over the compensation of our legislators, save when the matter comes before him in regularly passed appropriation bills, and even then his duties are more ministerial than discretionary. The compensation of members and senators is fixed by law under the constitution, and can not be changed either by the passing of resolutions by either or by both houses, nor yet by the signature or veto of the Governor. The resolution, if valid at all, is just as valid without the Governor's approval as with it. But it is not legally binding on any one. Even those members and senators who voted for the resolution can draw their "ten dollars a day" all the same, if the moral obligation by them assumed does not restrain them.

These points are all fully and clearly set forth in the Governor's message, who furthermore reads the senate majority a deserved lecture for their obstinate, partisan and revolutionary course in refusing just and constitutional representation to the people of the state.

1883 vs. 1881.

The regular session of the legislature for 1881, when the republicans had control of both branches and when a republican governor presided in the executive office, cost the people of the state for salaries, mileage, postage, stationery, supplies, special committees and printing, \$506,017.61.

The two sessions of the present legislature regular and special, with one house democratic and a democratic governor in the executive chair, will cost the people of the state for salaries, mileage, postage, stationery, supplies, special committees and printing less than \$800,000.

Thus the democrats have held two sessions of the legislature for a much less cost to the taxpayers than the republicans held one.—Patriot.

Get out the vote.

It is not likely that there will be as full a vote polled this year in Pennsylvania as there was last fall. There is neither the incentive nor the disposition to the same political excitement as there was then. Each party has in the meantime had its natural increase of voters, and the struggle between them this year will be to poll the largest possible proportion of their respective votes. From the results of such exertion the Democrats have nothing to fear. The total vote which they mustered last year was in the aggregate substantially as many as the combined vote of the two Republican candidates and the running majorities of the opposition in this state for the past ten years have not been more than about twenty thousand, which is really only one in forty, and to reverse it scarcely needs the change of an average of two persons in each election district in the state. Every person familiar with politics knows that there are always more than that whose votes are uncertain. Now there is no reason this year to apprehend any Democratic defection; there is no valid reason to expect perfect Republican union; all the signs point to greater apathy in the opposition ranks than in the Democracy; in fact, many of the majority Democratic counties report unusual activity and interest, and the accession of people who believe that eight months of Democratic administration have vindicated the wisdom of a change and are resolved to extend it to other departments of state government. The duty of this year is to get out the vote that was polled for an elected state ticket last year.

Additional Locals.

—The Northern Conference, Synod of Central Pennsylvania, will meet at Boalsburg, October 30th proximo, and will be called the "Memorial Conference," the 10th of November next being the 400th anniversary of Luther's birthday. The programme has been arranged with special reference to this circumstance and its several parts will all have direct relation to the history and doctrinal stand-point of the Lutheran Church. The following is the order of exercises:

Tuesday evening, Oct. 30th, "Luther—his life and Character," by Rev. S. E. Furst, alternate Rev. Geo. S. Diven.

Wednesday morning, "Occasion of the Reformation of the 16th Century," by Rev. J. A. Koser, alternate Rev. A. C. Felker.

Wednesday afternoon, "The Nature and Influence of the Reformation," by Rev. J. K. Miller, alternate Rev. M. L. Furst.

Wednesday evening, "The Lutheran

Church in Europe and America," by Rev. S. Henry, alternate Rev. W. H. Diven.

Thursday morning, "The General Synod of the United States," by Rev. J. W. Goodlin, alternate Rev. A. K. Zimmerman.

Thursday afternoon, Children's Meeting—"Luther as a Teacher of Children," by Rev. S. F. Greenhoe; "Luther as a Musician," by Rev. W. E. Fisher; "Lutheran Sunday Schools," by Rev. P. A. Heilman.

Thursday evening, "Luther in the Armor of God," by Rev. John Tomlinson, alternate, Rev. Geo. W. Christ.

Around Farmers' Mills.

Messrs. A. P. Luse, John N. Dunkle and Wm. Luse are painting the Union church.

The Farmers' Mills Cornet Band intends holding a picnic at Penn Cave, October 6th proximo.

Samuel Long, the pilot, still makes a business of "taking in" people. He "took in" just 200 persons during the last ten days.

Mr. F. F. Jamison will be our teacher for the coming winter term. Fred is an old, experienced teacher and school boy expects to learn.

Maj. Fisher, Geo. Darst and D. C. Keller are out in Ohio after cattle.

Mike Ulrich, your boss saddler, in company with a Mr. Rumlanger and another young man, were here to see the cave and shake hands with friends.

Our farmers are done seeding. Next—cutting corn—next husking—next threshing, at intervals—next butchering—next "and such is life" around Farmers' Mills. SCHOOL BOY.

SPRING MILLS ITEMS.

Spring Mills sports a boy fourteen years old, who can not wear a boot under men's No. 10. If those understandings continue to develop at the same rate that boy may do some lively "kick-in" some day. His success as a politician seems assured.

Saturday afternoon a son of John Grove accidentally shot himself in the fingers while trying to shoot a hawk with a pistol.

Sabbath last seven persons were received as members of the Methodist congregation here.

The bridge abutments are now ready for the superstructure. Let the job be completed without delay.

A good-sized riot occurred on one of the wagons returning from the Granger Picnic last Thursday. Bad—Shameful!

Our citizens are much dissatisfied with the appointment of one of our teachers and an "indignation" meeting was held in consequence. Gentlemen, the school board should and no doubt will respect your rights and wishes, but don't forget the great Apostle's injunction: "Let all things be done decently and in order." BROAD AXE.

The Sunbury Lead Mine.

Sunbury paper gives a glowing account of their lead mine and the smelter. The Democrat says that on Friday evening, 7th, ult the smelter was crowded to its full capacity with visitors to see the tapping of the furnace. The furnace was charged at 6.30 with 3,000 pounds of ore and was tapped at 9.15. The result of this charge was 1600 pounds of pure metal. Upon opening the tap hole the molten metal poured out in a clear stream for several minutes, followed by the slag, which seemed limpid as water, showing the smelting operations to be perfect. Tests of the slag having been made from time to time, and in no case has a trace of metal been found. All the ore smelted thus far has been the product washed out of the fine dirt from the mine. The lump ore, which is five times richer, could not be handled without the proper machinery to crush and pulverize it. Boiler, engine, crusher and pump will soon be in place and working. The ore will be concentrated up to sixty per cent. A charge of 3,000 will yield 1,800 pounds of lead. Smelting only four charges of lead per day would be about three and one-half tons of metal. An average value of \$100 per ton would give \$350 per day. The full capacity of the furnace with this grade of ore is seven charges per day or six tons of metal, worth \$600. This will give some idea of the possibilities of the business.
