"The appointment of Andrew G. Curtin to the chair manship of the House Committee on Foreign affairs means that when there is anything to be done with the British lion the animal will be pensive presents to their wives and approached from the front and not from daughters, and always has friends on

they have no prominent candidate much higher than 35.25 miles an hour. 294 Its greatest speed is on the run between whom they could carry through. Ed-New York and Philadelphia, and here munds is considered about their strongest man, but he is not likely to be nominated, and he says he would not run if he was. They are talking about "Bob" Lincoln, who some think might pull through on the strength of his father's name: but there is not much sentimental politics now-a-days. Young Lincoln is a very clever gentleman, but there is not much Presidential timber in him, being quite an ordinary man in all respects. General Logan is really in the field, and is a stronger man in many respects than Arthur, but the prevailing opinion is that neither of these two could be elected if nominated. Considering the importance of Ohio, to the Republicans John Sherman has lately gathered a new impetus to his old boom. Some pretend to believe John will make it, but he won't. The leaders of the party are looking for some very rich man who will buy his way through That is their only chance. Speaking of lobbyists and the methods of securing legislation, reminds me that there are some queer things. For instance, year after year the Sundry Civil Appropriation bill has contained a clause preventing competition in contracts for photo-lithographic work to be done for the Patent Office. A Mr. Peters, who has an establishment for doing that kind of work here, makes a profit of from \$75,000 to \$100.000 a year on work done for the Government. Under the terms of the law the work must be awarded to a Washington bidder if he is as low in his proposals as an outside bidder.

the slowest time is made in two minutes, and the fastest in fifty-seven seconds. Many a mile is made in sixty seconds. The locomotive on which Mr. A. Sinclair of the "American Machinest" made the trip from Jersey City to Broad Street, Philadelphia, weighs seventy-four tons, and draws a train weighing 200 tons, and on descending grades, when the machine was doing a mile a minute, the driving wheels made 251 revolutions a minute. #### Claimants by the Hundred.

WASHINGTON, January 11.-Representative Brown, of Pennsylvania, who is a member of the House claims committee, said that the bills referred to his committee already numbered over three hundred for the two bill days called by the Speaker. It was impossible to estimate what would be piled upon the committee's shonlders at this rate, and the subjects embrace everything except war claims. In order to facilitate the transmission of business pending the appointment of sub-committees each of the fifteen members of the claims committee had been assigned three bills to investigate.

#### WASHINGTON LETTER.

WASHINGTON, D. C., Jan. 15., '84. An air of business pervades the Capital now, and since the recess the temper of Congressmen seems to be in the direction of attention to duty. If professions are any index of intentions the present Congress will be long remembered for its virtues and its good works. There is talk of lobbies and lobbyists, and no doubt they are here, considering the various schemes and interests which need their aid, but the present indications are that they will find hard picking if their returns depend upon success. It looks like a cold winter for the lobbyist who works for a contingent fee. Concerning tariff legislation, there is a good deal of talk about an alliance between the Republicans and high tariff Democrats to prevent the passage of any bill; and no doubt there are those on both sides who would like to see such an alliance made, but those who understand the situation know that there is the same diversity of opinion among the Republicans on this question as prevails among the Democrats. A debate would develope this fact, and for that reason the Republican leaders are anxious to keep the subject out of sight Cambria, Blair, Huntingdon, Miflin, at present.

The discussion of probable, and possible, Presidential candidates is a leading industry around the hotel corridors and public loafing places, and it increases apace as the weeks bring nearer the nominating conventions. Mr. Blaine has recently declared very positively that he is not a candidate, and people begin to think he means is.

#### Fearing an Overflow of the Delaware.

TRENTON, January 11.-Watermen have been watching the Deleware river suspiciously for days past, during which time it has presented a marked similarity to the comdition of affairs in the winter of 1877, when the back-water freshet occured, doing untold damage on both sides of the river. The rain on Tuesday and last night caused an overflow on the Pennsylvania shore for a considerable distance inland. Farmers along the river found their horses and cows standing waist-deep in water in their stalls this morning.

### Death Under the Ice.

WILKESBARRE, Jan. 6 .- Alice Major and Sarah Marsden, of the town of Forty Fort, Luzerne county, cultured

young ladies and highly connected, were drownded in the Susquehanna river yesterday evening. They were skating in company with a young man, who also went down but managed to save himself. The girls did not utter a word when they went through the ice, before sinking cried out "Goodby." At the plazethe accident occurrec the ice is fully eight inches thick. The searching parties, which were organized this morning with implements to remove the ice, found the bodies about 1,000 feet from where they broke through the ice. The girl's bodies were taken to the homes of their par-

## A Big Mortgage.

ents.

The Sunbury Daily says that on last Friday evening there was filed in the recorder's office, in that place, a mortgage executed by the board, Pa. & Western railroad company to the Farmers' loan and trust company, of New York, trustees, for the sum of \$11,500,000. Said sum too is in order to enable the railroad company to construct, equip, complete and put in oper ation its line of railroad between the city of Pittsburg and the borough of Ashland, in the county of Schuylkill, and is to extend through the counties of Alleghany, Westmoreland, Indiana, Juniata, Snyder, Northumberland and

Behuykill to the borough of Ashland with second track and branches. The road is to cross the Susquehanna river at Herndon from which point it will very likely follow the course of the Reading road to Ashland.
