Lamp chimneys will last a great deal longer, if, when new, they are put in a kettle of cold water with a handfull of salt, boil a couple of hours, then take off and let the chimney stand in it until cold. This process, I can say so from experience, toughens them very much.

The Philadelphia Times, 1884.

THE TIMES will enter upon the new year stronger and more prosperous than ever before in its history -more widely read and quoted, more heartily commended, and more fiercely criticised with a more complete organization, and an abler staff of contributors-and with the same independence and fearlessness that has made it successful and powerful in the past.

THE TIMES has no party to follow, on candidates to advance, but will meet eyery issue, as it has ever done, with consistent devotion to the right, to honest government, had the public welfare. And, while maintaining its position as the leading paper of Phila-de phia, it will aim to be continually in advance in all that can add value to a newspaper.

The value of a newspaper is not in its size or display, but in the intelligence and care, the conciseness and reshness with which it is edited. THE Times spends laivshly for news from and attractive shape, and with it a Sold by J. Eisenhuth, large variety of entertaining and instructive reading. The best writers at home and abroad are imployed to enrich its colums, and to make it a journal adapted both to the busy man and to the leisure of the home circle, a welcome visitor to intelligent and honest citizens of every political, religious, and social taste.

THE WEEKLY TIMES is altogether different from the weekly newspapers of twenty years ago. The telegraph and better local newspapers everywhere, especially in the thriving centres of rural population, have made the old weekly metropolitan newspaper unsatisfying. Those that cling to their ancient usages have lost their hold on our forwardmoving people; they are but shadows of their former greatness, and they have but a shadow of their former power. Those papers have had their usefulness, but it is gone; and, with it, they are going, too. It was not the fault of papers; it was the improvement of the country that brought a-bout the change. Men and women, wherever they live, now require fresher news; and they require more than

DR. JOHN BULL'S **FEVER and ACUE**

Or CHILLS and FEVER,

AND ALL MALARIAL DISEASES. 2,1 The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PER-MANENT cure of Ague and Fever, or Chills MANEMY cure of Ague and rever, or Units and Fever, whether of short or long stand-ing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the direc-tions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usu-ally this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be suf-

ficient.
