The Democratic Pruning-Knife. From the Harrisburg Patriot.

The appropriations committee of the house at Washington evidently be lieve in "administrative reform." Mr. Randall, Mr. Holman and Mr. Townshend have been interpreting the articles in the newspapers in favor of economical administration as honestly reflecting the sentiment of the country. They have therefore used the pruning-knife very freely in dealing with the estimates of the several departments of the government. They have done this especially in the case of the post office department.

The Postmaster General estimated a deficiency of \$3,000,000 for the next fiscal year which he asked congress to provide for. The appropriations committee, however, concluded that the best thing to do would be to prevent a deficiency. They therefore overhauled the Postmaster General's estimates and knocked a round million off the 'Star routes,' another million from postmasters' salaries, and another million from railway transportation

WASHINGTON LETTER.

WASHINGTON, D. C., March 10,1884. The tariff question remains uppermost in the Congressional arena, though just what will be done about it is as much in doubt as ever. From the best information I can gather, after sounding two thirds of the members of both reduce, is not generally understood, but tariff. They were glass and glassware, blockaded at Daggett, but provisions 0 98 per cent.; woolen goods, 2 19 per are plentiful.

cent.; cotton goods, 27 per cent., and a falling off of imports amounting in where he was with a number of friends. the aggregate to \$1,374,491. As to these, at least, the plea that the tariff bill of last session has contributed to the depression of trade is contrary to the facts. On two classes of goods there was a decrease in the average duty. One was sugars, on which the duty was cut down 277 per cent., and the imports increased by \$2,368,360. The other was iron and steel, on which the average duty was lessened 271 per cent, while the imports were reduced by \$8, 804,709. The latter class is one of the most highly and most unwisely protected of all our manufactures. Since the trifling reduction was accompanied by a heavy falling off in imports, the claim that the business has suffered by the

changi is untenable.

It is interesting for one who don't care a picayune which side comes out a- per cent. Since July 1st last there has head to watch the political chess-playing between Arthur and Logan. The latter has always been successful in the use of patronage for his ends, but the President being now his competitor has much the advantage in that respect. Whenever a Logan may be found in office he is pretty generally gotten rid of, if there is any way to do it: and on the other hand, if a Logan man can be won over to the administration by giving him an office, it is done. This anxiety to secure supporters has caused the estimates for the cost of manufacturing President to go square back on the position taken by him last fall, on his return from his western trip. He then said that it was wrong to send non residents or carpet-baggers to govern the Territories, but of the Territorial appointments just sent to the Senate, W. F. Fitzgerald, to be Associate Justice of the Supreme Court of Arizona, is a Mississippian: William M. Bunn, nominated to be Governor of Idaho, is from Pennsylvania, and John C. Perry, to be Chief Justice of the Supreme Court of Whyoming, is from New York. Fitzgerald was a Logan man, and the object was to get him away from the South, where Arthur is trying hard to get all the delegates. General Grant has lately declared for Logan, but unfortunately the 'ex-President's influence, here in Washington, at least, is pretty nearly gone.

That regular annual Congressional sideshow, the Woman suffrage Convention, commenced its session here on the fourth inst, with a promise to continue therein for five days, or long enough to get their work in before the Senate and House committees. Miss Susan B. Anthony, Phebe Couzzins, Lillie Devereaux Blake, and the other fair clamall on hand, and, so far, the Conven- lone. tion has been decidedly a breezy one. ranks of the suffragists have recently ties. been made, and among them is Mrs. Helen M. Gougar, of Indiana, the heroine of the celebrated slander suit against'a La Fayette, Indian, newspa-

PHONO.

The Union county democratic committee on Saturday nominated John A. Gundy to the district conference for delegate to the Chicago democatic conventiou.

Miscellaneous.

LAWRENCE, Mass., March 6.-The boiler in J. T. Tree's dyeing establishment exploded this afternoon, killing John Trees, jr., the engineer, and fatally injuring Wm. Mooreland and Michael Cronin, two employees. The buildings were shattered into splinters. Pieces of the boiler and debris were thrown 400 feet, crushing through roofs of dwellings, but fortunately injured no

The greatest depth of the Atlantic Ocean, according to recent investigations just published in Germany, was found to be 8341 metres (a little over five miles), in 19 degrees 39 minutes north latitude, and 60 degrees 39 minutes west longitude.

RUINED BY DIME NOVELS .- Easton March 4.—The dime novel has had its effect here, and numerous boys between 12 and 18 make a practice of carrying revolvers. This morning its result was evidenced when Harry Beatty, a boy 16 years of age, drew a cocked pistol on his father, Benjamin Beatty, when the latter chastised him, because of illtreatment of his younger brother. A scuffle ensued, in which both father and son fell to the floor. The pistol discharged and the ball struck the breastbone of the father, inflicting a slight wound. Harry fled and has not returned. He is wild and full of ideas about shooting, fighting and the like.

The Southern Country Flooded and the Situation Alarming. Instituting Colored Lodges. BUFFALO, March 9 .- Several Masonic lodges have been instituted in this city by Charles E. Newton, colored who claims to be working under a charter issued on September 28th, 1784, by Henry Frederick, duke of Cumberland, claimed as grand master of the Masons, at that time, which was granted to Prince Hall and other colored men.

A Falling off in the Use of Postal Cards caused by the 2-cent Pos-

WASHINGTON, March 9.-Since the introduction of the two centletter postage there has been an unexpected reduction in the number of postal cards issued. For five years the average annual increase in the issues has been 14 been an increase of eighteen per cent. in the number of adhesive stamps and twenty-five per cent. in the number of stamped envelopes issued. During those eight months the issue of postal cards only reached 256,552,770 as against 260,-226,250 during the corresponding period in the preceeding year. In consequence of the decreased demand for postal cards the postmaster general has sent a letter to the speaker of the house of representatives informing him that the the cards during the next fiscal year may be reduced \$35,000. The reason assigned at the department for the decreased issue of the cards is that many communications formerly made by that means are now made through letters.

PENN HALL SHAVINGS.

Major Fisher is nursing a boil. Mr. C. W. Rooker is off to Muncy on

Mr. John Condo has bought himself a brand new horse.

J. W. Bartges who has been on the sick list for a few days is out again. Mr. Yony Condo and his new wife

are visiting athis brothers, John and Cal. Fisher had turned his thoughts to the blacksmith trade, but when he hit his thumb in place of the iron he

concluded to turn back. Prof. E. F. Smith who has been rusticating at Dakota, Ill. for some time is here on a visit to his parents and many friends. Always glad to see you, Ezra.

E. F. Smith who has been West for nearly a year returned, but thinks of orers for a whack at the ballot-box, are going back ere long-presumably not a-
