

Discovery in Alaska.

A New River, and Flowers Blooming Within the Arctic Circle.

Lieutenant Storey, who went up on the last trip of the revenue steamer Thomas Corwin for the purpose of distributing among the Tachakchee Indians of Alaska the \$5,000 worth of presents given by the government in recognition of the fact that they afforded shelter and food to the officers and crew of the steamer Rogers, burned in 1881, reports the discovery of an immense river hitherto unknown to geographers. The river had been vaguely spoken of by Indians to former explorers, and Lieutenant Storey, being compelled to await the return trip of the Corwin, determined to see if it existed. Accompanied by one attendant and an interpreter he proceeded inland from Ilohat inlet in a southeasterly direction until he struck what he believed to be the mysterious river. He traced it to its mouth, a distance of about fifteen miles, where he saw such huge pieces of floating timber as to satisfy him that the stream must be of immense size. He retraced his steps for a distance of fifty miles, where he encountered natives, from whom he learned that to reach the head waters of the unknown stream would take several months.

The Indians told him that they had come down the river a distance of 1,500 miles to meet a fur trader, and that it went up higher than that. Having no time to go further, Lieutenant Storey returned. In his opinion, as stated by those on the Corwin, from which this information was obtained, that the discovery of this river accounts for the large quantities of floating timber in the Arctic ocean, which was popularly supposed to come down the Yukon river. The Indians stated that the river in some places is twenty miles wide. It lies within the Arctic circle, but in August, when Lieutenant Storey was there, he found flowers and vegetation not hitherto discovered in so high a latitude. He has forwarded his report to the Secretary of the Navy, and hopes to be permitted to go back and continue his explorations.

MGR. CAPEL was asked what struck him most forcibly in this country, and he replied, "The precociousness of children. He says that while in Baltimore the Archbishop took him to call on a lady. While making the visit a boy aged four years came in the room, and his mother said, "My son, speak to the Archbishop." He obeyed readily, and, holding out his hand, said: "How do, Arch?"

FRANCE AND EGYPT.—France's proposition, made through M. Waddington, to land troops at Saoum and march them to Khartoum to relieve that city, leaving the ultimate settlement of the Sudan question to a conference of the Powers, is a generous and magnificent offer, but hardly helps England out of her scrape, as it contemplates the submission of the whole subject of dominion in Egypt to the judgement of Europe. This time France strikes while the iron is hot.—Herald.

A WHIPPING.—The Indianapolis police were told that a man was whipping his wife in a tenement block near the heart of the city; but instead they found the wife, arrayed in only one garment cowering her husband. He was once Superintendent of the State Institute in Ohio. Lately he had been reduced by drink, until his wife had to support herself. She told the officers that the doctor had reached home drunk, and that, patience having ceased to be a virtue, she had resorted to the cowhide to bring him to his senses.

Address, JONES OF BINCHAMTON, BINCHAMTON, N. Y.

DELAWARE RIVER CHEMICAL WORKS, BAUGH & SONS,

Philadelphia, Feb. 1, 1884.

To Farmers of Pennsylvania:

Gentlemen:—For over twenty-eight years we have manufactured Bone Phosphate, and our brands have become household words in nearly every section of the country. In many communities the demand for them has increased, while in others the price has declined, on account of the preference for lower priced goods. Six years ago, finding that the demand for goods of lower cost had become most interesting, and having peculiar advantages of raw materials and manufacturing facilities, we determined to meet this demand, and introduced a TWENTY-FIVE DOLLAR PHOSPHATE, made by a NEW PROCESS EXCLUSIVELY OUR OWN. The quickness with which this Phosphate sprang into use among intelligent farmers will be shown by the following statement:

Of the \$25 Phosphate there were sold

During 1879, 1,287 Tons.

" 1880, 3,957 "

" 1881, 5,147 "

" 1882, 8,288 "

" 1883, 10,128 "

The reports of the action of the \$25 Phosphate have been satisfactory in every case from a wide inquiry. We want to be informed upon this point very particularly, as it is our interest to know if the article continues to produce good results. We will thank any farmer, having used the \$25 Phosphate with disappointing results, to let us hear from him with full facts.

Yours truly,

BAUGH & SONS.
