-Preparations are being made by Trustees and President Atherton.-The some of our citizens to properly celebrate Decoration day. A commendable Board of Trustees of the State College

held a. meeting at the Brockerhoff House in Bellefonte on the evening of -Our friend J. W. Lose and his the 25th of March 1884, at which Gov. Pattison and State Superintendent Higbee made the "majority report" of a sub-committee, as reported below.

The correspondent of the Harrisburg Patriot sent an account of the meeting to that paper, prefacing the majority -Mr. H. G. Shafer, formerly of Aa-

report with certain remarks which we ronsburg, is the new landlord of Milherewith append as necessary to the ler's Hotel at Spring Mills. Henry proper understanding of the letter of just knows how to make the traveling President Atherton, which follows the public comfortable and no doubt will report: be successful in the hotel bussiness.

The object of the meeting was to hear from the committee appointed by -The band boys have considerable the board about two months ago to trouble in obtaining a place for their make a report relative to a more satisfactory working of the institution. For some time past, although the number of students has gradually increased, the efficiency of the faculty been enlarged. and a more thorough curriculum established, the firancial condition of the institution has been in a somewhat crippled state. While the amount set

apart by the United States and state governments for the purpose of this college has been \$600,000, yielding the institution \$30,000 annually, at five per cent, the amount of indebtedness for current expenses has been gradually growng until it now exceeds \$50,000. Furthermore, owing to some defect in the law, salaries have not been paid to the members of the faculty with Foote and received prompt attention. promptness, necessitating frequently the discounting of their vouchers at -The merchants' party which was bank that their living expenses might be provided for. When these subjects were brought before the board at its special meeting the appointment of a committee was deemed advisable, and Governor Pattison, Dr. Higbee and the president of the college, Dr. George W. Atherton, selected. Since then the committee have been in session once or twice. At the first session it became -A pocketbook containing from \$50 apparent that the entire committee could not work in harmony, as the president of the college insisted upon retaining the large faculty of sixteen instructors, which the other members of desk in the pottery preparatory to going the committee thought, owing to the to work when he discovered that the monetary condition of the institution, wallet, which had been in one of the should be reduced, and two reports were accordingly drawn. That of the coat pockets was missing. A certain majority (Governor Pattison and Dr. party is being suspected of the theft Higbee) was submitted at the special and proper means will be employed to

meeting of the board last evening, and after a warm discussion adopted as follows: The Report: In making the following report the indersigned have no disposition to reflect upon the past management of the State College or to criticise the ability

He did his work in a masterly style, as and fidelity of its present body of usual, and everybody left that church teachers. We have only taken into consideration its present financial condition and its relation to the large agricultural interests of the common wealth. The college has an annual income of \$20,000, three farms, a body of students numbering from 130 to 150, a large building requiring a considerable a-

mount to put it in repair and proper working order, a faculty consisting of sixteen teachers and a current debt reported as amounting to some \$55,000. The farms are widely separated-one

in the eastern, another in the western a candidate for the presidency. There and another in the central part of the a model farm, and in no condition to throw upon the market. In its present state it is an injury rather than a benefit to the college. It is an advertisement against scientific farming and notan il-

STATE COLLEGE .- The Board of | ident of the college, accordingly, long before the appointment of this committee was made, proposed to the executive committee of the board of trustees the Pendergast, in the County Court at abolition of the study of Greek, and Chicago, listened to the testimony. Nalater when the special committee met he proposed a still further reduction thaniel Rogalsky, a very emaciated Hethough not so great nor of such kind as was proposed by the majority of the committee.

3. It is not true that the report of the majority of the committee was adopted. On the contrary the report of the president of the college (the minority of the committee), was adopted with only a single modification, yiz: "Combining with another chair one that he believed it better to maintain separately.

4. The real question at issue, and one which it is important the people of the state should thoroughly understand, was this: Shall the college continue its present line of education policy, or shall its organization be recast on a widely different plan ? The scheme offered by the majority of the committee (as printed in the Patriot), was virtually to make the college exclusively agricultural. There is no doubt that uch a course would be acceptable to a considerable number of intelligent ersons, but it was decisively rejected

by the trustees. First, because it was regarded as a direct violation of the aw of congress, governing the instituion; and, second, because it was not believed to be in accord with the prevaling public opinion or wish. The law of congress, which the state of Pennsylvania has accepted, "with all its provisions and conditions," defines the scope of the institution in these words: "The leading object shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learnng as are related to agriculture and the mechanic arts, in such a manner as the egislature of the state may perscribe, in order to promote the liberal and pracical education of the industrial classes n the several pursuits and professions

n life.

It will be seen that this law requires provision to be made for teaching in he "branches of learning relating to mechanic arts," as fully as in those reating to agriculture. At the same time, the institution is to be a "college" devoted to "liberal" as well as "practieducation. Accordingly, the cal" strength of the institution is devoted to instruction in the mathematical, physical, and natural sciences, with a view to giving that broad and deep foundation of exact knowledge which will prepare the student for a successful career in any of the great industrial activities of of our time. We are doing more in the direction of scientific and progressive agriculture than when that was the exlusive work of the institution ; but, in addition to that, we are furnishing a sound and liberal college education, on

modern sciences. The decision of the trustees was simwhich is meeting with so many gratifywhich does justice to all interests, with

moved his dental office to the eastern American Newspapers in 1884. part of Main street, opposite the M. E.

> From the edition of Messrs. Geo. P. Rowell & Co's AMERICAN NEWSPA-PER DIRECTORY, now in press, it appears that the newspapers and periodicals of all kinds at present issued in the United States and Canada reach a grand total of 13,402. This is a net gain of precisely 1,600 during the last

twelve months, and exhibits an increase -A paying investment.-At this seaof 5,618 over the total number publish-

lustration of its benefits. The eastern farm is in a better condition, but it is far from being what a model farm should be. The central farm, in immedi ate connection with the college, is all that the friends of agricultural science ought to require.

To hasten the liquidation of the debt, to put the buildings in proper working order, to supervise the farms, so far removed from the college itself that, as model farms, they may properly exhibit to the people the rich result of mod ern sciences applied to agriculture, and to bring the whole work of the college into closer sympathy with the farming and industrial community of the State we respectfully submit to the board the following plan which in our judgement. will best subserve the ends above men. tioned, without detracting from the present professional thoroughness of

he institution: 1 President (duties as at present) \$3,000 2 Lecturer on Agriculture and Superintendent of the Farms, Professor Agricultural Chemestry and Superintendent of Experimental 2.50

Superimendent of Experimental Stations, 4 Professor of Chemistry, 5 Professor of Botany and Horticulture, 6 Professor of MathematicsJand Civil Engineering, 7 Professor of Modern Languages (French Corman and English) 1 200 (French, German and English)
8 Professor of Geology and Zoology and Head Preparatory Department
9 Deference Voltaging and Voltaging and Society 1.200

1,200 9 Professor of Veterinary Science and Physiology, and Assistant in Prepa-1,20 10 Professor of Military Science and

Tactics 11 Assistant 12 Assistant 500

Total cost of teaching force \$15,500 This plan removes from the work of the College the Latin and Greek languages, except so far as the former may be introduced in the study of the French. It adds, as we think, to the efficiency of agricultural studies by supplying a lecturer on scientific farming who shall at the same time act as responsible superintendent of the farms. and also make room for the important matter of yeterinary science. These additions we have thought well calcula. ted to answer the wishes of all inteligent farmers and secure their co-operation

Moreover, it leaves a balance of \$14,-000. This balance, we report, should be devoted to the following uses: \$6,000 to be applied to the farm distant from the institution, and the remainder to to be necessary to maintain the efficient working of the college.

Respectfully submitted. Signed: ROBERT E. PATTISON, E. E. HIGBEE.

THE ACTION OF THE TRUSTEES AT THE LATE MEETING IN REFERENCE TO THE INSTITUTION.

To the Editor of the Patriot. The Patriot, of Wednesday morning,

March 26, contains an article purporting to give an account of the proceedings of the board of trustees of the State College at its meeting on the evening of the 25th, which is so exactly the opposite of the truth, that I am sure you will desire to correct the error into which you have been unwittingly led. 1. The statement that "the committee could not work in harmony" is unsay that they could not agree in their fact.

New firm-J. S. Krape & J. M. Mc- Lard..... Cool, saw mill, planing mill, &c.

Schools opened up on Monday with a very fair attendance-Prof. W. P. Hosterman's with 24 students and Miss Bollinger's with 28 pupils.

W. Forry Confer, while driving on Sunday had a runaway which resulted in a smashed up buggy, himself and wife being thrown out but fortunately not seriously hurt.

Maj. J. B. Fisher shipped a car load of cattle to Philadelphia. Mr. R. Kline, who went along says-"Ugh, what a city Philadelphia is." Well, Reuben, the older we get the more we find out. The delegation from our neighboring city, Penn Hall, who paid our new landlord a visit on Saturday evening, were compelled on their return home to promenade the streets of their town, so as to get some of their number into a presentable condition before joining their families. Well, boys. never take more than you can haul-better not take any, and it will be so much more credit to you.

The R. R. bed is now ready for the iron up to the Old Fort, and as soon as the bridge is finished, the track will be put down. Soon the long looked for Iron Horse will be seen pulling into the town of Centre Hall. BROAD AXE.

Brutally Murdered.

ALTOONA, Pa., April 7.-Mrs. Dr. L. U. Beach, the wife of a prominent physician, was discovered in a room at her residence this morning, with her head cut almost from her body. An investigation developed circumstances of so suspicious a character that the doctor has been arrested. It is said that he has already admitted to a member of the family that he committed the deed. Two large knives and a clever used for amputation purposes were found beside the victim. The coroner's jury found that Mrs. Beach came to her death at the hands of her husband, and the doctor was accordingly remanded to jail. He admitted that he killed his wife and wants to be such incidental expenses as may seem hung or shot. Since his arrest he tried to borrow a knife, and on being refused, asked for a pin, which was also refused, as it is believed that de intends to commit suicide. He was received into the Lutheran church only yesterday morning and partook of communion. It is generally believed that he is insane. The inquest developed the fact that the couple did not live happily together. The woman, who was about forty years old, had been married twice before, her last husband having been shot and killed by a desperado two years ago. She married Dr. Beach a year ago. The doctor, who is of German birth and forty-four years old,had a lucrative practice here. When he the murdered woman was found shows evidence of a severe struggle, and the
