

Church & Sunday School Directory.

Evangelical. Rev. B. Hengst and J. B. Fox, Preach's Rev. B. Hengst will preach next Sunday morning, English.

GEN. Grant and son are heavy losers by the failure of the banking firm of Grant & Ward in New York. The ex-president, as a general thing, has the sympathy of the country in his financial affliction.

New York city had a meeting of various manufacturers to form a union for tariff revision, to be known as the Manufacturers, Reform League.

That correspondence be opened with other manufacturing centres, inviting their co-operation in this and other states to memorialize congress for the adoption of articles 1 and 2 as guiding principles of tariff reform.

Every man in the United States who wears clothes and pays for them should read this: The New York Times publishes a comparison of the difference in the prices in New York and London of men's clothing, which no fair-minded reader can consider without acknowledging the injustice of the outrageous system that makes such a difference possible.

For instance, a broadcloth dress suit which costs \$50 in New York costs only \$22 in London. A heavy business suit which costs \$30 in New York costs but \$13 in London.

A silk hat which costs \$5 in New York costs only \$3 in London. These articles all together cost in New York \$140. In London they cost but \$61. The man who buys these clothes, therefore, in New York pays \$79 more for them than he could buy them for in London.

What causes this difference in the prices of the two cities? Our tariff. No one will dispute that, with the tariff removed, the same goods could be purchased as cheaply in New York as in London, at least as cheaply plus the freight rate between the two cities.

The man who pays, therefore, \$140 for clothes in New York really buys \$61 worth of clothes, on which he pays \$79 taxes.

And where do these taxes go? If the goods are manufactured in this country, not one cent reaches the Treasury. It is simply \$79 taken by law from the man who buys \$61 worth of clothes and given to the man who grows wool and the man who makes cloth.

If the goods are manufactured abroad, \$79 goes to a treasury that does not need it and which can raise all the revenue it requires on whiskey, tobacco and articles of luxury.

In either case the purchaser of the cloth gets absolutely nothing for the \$79 of the \$140 which he spends. If on buying the clothes he had to pay \$61 to the collector, and \$79 directly to a tax collector, how long would he stand such extortion.

In result there is not a particle of difference between that system and the present tariff system, according to which he is thus unnecessarily and exorbitantly taxed, not only his clothing but on nearly every other necessity of life.

How long will the people of a country which claims to be free submit to this legalized robbery, which those who uphold it, and grow fat upon it, are pleased to call a "protective" tariff?

WASHINGTON LETTER. WASHINGTON, D. C., May 14th, 1884. It seems after all that the old patriarch Edmunds is no more proof against the political scandal-mongers than any other of the Presidential candidates.

In the tilt between him and the erratic Phelps of New Jersey, the latter came out a good way ahead, and left the incorruptible judge with any quantity of railroad stock on hand, representing roads that had been cutting no small in the body over which he now presides.

The man who can popularize himself enough to be talked about for the Presidency nowadays, is not the man to escape an overhauling of record, and Mr. Edmunds can rest assured that an accurate as well as a complete history of his political career, with all of its side issues and financial switch-offs, will be promptly furnished. And in this connection it would hardly be out of place to say that the elements of opposition to Arthur and Blaine and the other candidates of the Grand Old Party, who are distinctively known as machine politicians, are proposing to concentrate upon Edmunds—the noblest machinist of the whole pack of them!

The volume of the tenth census report which pertains to agriculture, for which there has been an unprecedented demand, is delayed because the maps showing the range of cultivation of the several crops have not been engraved! "This excuse for a four years' delay of this important work is a most ample and plausible one, because no farmer would ever think of prosecuting any branch of husbandry without a refer-

ence to these maps, which are the refinement of the closest analysis of scientific humbuggery. The yellow and the blue and the green and the red and the purple spots on the map show to the pruner those meteorological conditions under which alone he must sow and reap and plow and hoe, and his scientific mind will grasp at once the simple axioms that got the better of LeDuc, though they fail to confound the present head of the Agricultural Bureau, who is versed in both Hebrew and Greek.

Arrangements for Spectators at Chicago.

WASHINGTON, May 12.—Senator Squires having received numerous inquiries regarding the manner of securing tickets of admission to the convention says: "The members of the national committee from each state and territory will have charge of the tickets for his state or territory, and will distribute them to the delegates according to their numbers and in just proportion. Thus the delegates from each state and territory will have the distribution of the tickets assigned thereto and they are therefore the proper and only persons to whom the application should be made. Owing to the vast number of weekly newspapers, it has not been found possible to make any provision for them. Ample arrangements will be made for the accommodation of the several press associations and also for as large a number of reporters for the daily newspapers as may be possible."

A Millionaire Cleaves the Air.

DAYTON, O., May 8.—William K. Vanderbilt, the railroad king, passed through here to-day en route for Cincinnati, in a special coach, making the fastest time on record. The train came from Lima to this city, a distance of seventy-four miles, in sixty-six minutes and from here to Hamilton, a distance of thirty-five miles, in thirty-six minutes. The train made the trip from Detroit to Cincinnati, a distance of 263 miles, in five hours and thirty-nine minutes, an average of fifty and seven-tenths miles an hour. It is estimated that in some places the train travelled a mile in from forty-eight to fifty-two seconds.

NEW MUSIC.

J. Fischer & Bro., 226 E. Fourth st., New York, have sent us a copy of a new and most charming Irish Song, entitled "Annie of the Moy," composed by John Wiegand. This song has been sung with unprecedented success at the Academy of Music and other popular concert rooms, and is dedicated to Madame Adelina Patti. It is quite a characteristic, sweet and pathetic composition, and admirably well adapted for public entertainments as well as for the parlor. Can be ordered through any book or music dealer or direct from the Publishers, J. Fischer & Bro., 226 E. 4th St., New York. Price 35 cts.
