LIEUTENANT GREELY and the other survivors of the Arctic colony, who were sent to the North pole regions,a few winters ago, on an exploring expedition, were rescued on the 22nd of June under difficult circumstances and brought to St. John's, N. F. Seventeen of the explorers became victims of the immense sufferings which the party experienced and the rescuing ed the seven survivors at the very at present, but are very weak and suffering from nervous prostration. Their removal from St. John's to Portland, Maine, is contemplated.

BLAINE AND LOGAN have sent their respective letters of acceptance to Republican headquarters and of course they are masterly productions, at least as far as the number of words are concerned. Otherwise they are are "little in much ', and what little there is are contradictions and arraignments of their own party.

Ex-SPEAKER RANDALL is entirely satisfied with the result of the Chicago convention. He says he only wants to be returned to congress to aid President Cleveland in carrying out the contemplated reforms in the general government.

HENRY C. LEA, a Philadelpdia re publican and member of the Committee of One Hundred, has declared for Cleveland and Hendricks. He say's Blaine's record forbids him supporting the republican ticket.

Ex-Senator Wallace is spoken of as chairman of the National Committee. No better selection could be made for that position, as the gentleman possesses the necessary ability

LIEUTENANT GOVERNOR CHAUNCEY "The Life and Public Services of Grover Properties of Grover Properties

Attorney General, died of peritonitis on Friday evening, July 18th, at the family's country seat at Washington Lane and County Line, near Philadel-

THE following are some of the most forcible sentences used by George William Curtis of Harper's Weekly, in an article setting forth the reasons why Cleveland should be elected:

The nomination of Grover Cleveland defines sharply the actual issue of the Presidential election of this year. He is a man whose absolute official integrity has never been questioned, who has no laborous and doubtful explanations to undertake and who is universally known as the Governor of New York elected by an unprecedented majority steadily withstood the blandishments and the threats of the worst, elements of his party and has justly earned the reputation of a couragous, independent and efficient friend and promoter of administrative reform. His name has become that of the especial respresentative among our public men of integrity, purity and economy of administration

which are the objects of the most intelligent and patriotic citizens. The argument that in an election it is not a man but a party that is sup-ported and that the Democratic party can is futile at a time when the Repubwhom a great body of the most consci-Mr. Blame will do so because they do not believe, as the protesting Republicans do believe, that he made his official action subserve a personal advantage. Nothing is more hopeless than an attempt to persuade such Republicans to sustain their party by voting for an undidate at the next election, and they could not consistently oppose the election of any candidate whom their party nominations is when they are made, not next time. The nomination of Grover Cleveland is due not so much to the preference of his party as to the general demand of the country for a candidacy which stands for precisely the qualities and services which are associated with his name

It is to be remembered that Harper's Weekly is one of the most influential Republican periodicals and has supported every Republican ticket for the last twenty years.

Monopoly and Labor.

The speech recently delivered in the House by ex-Governor Curtin, on the factional quarrels within the partysteady growth of land monopoly in this country, and its blighting effects upon the prosperity of labor, must attract very general and profound attention. It is not a campaign document freightother prejudices, but it is an eloquent review of the withering effect of land monopoly in other governments, and an impressive appeal to this country for the preservation of our public lands for | Centre county be placed in these severthe homes of actual settlers.

It will startle many even of the more intelligent yoters of the country to learn that in France with a population of 37, 000,000, there are 10,000,000 of propertyhomes, and that in the United States, with 55,000,000 of population, there are less than 4,500,000 property-owners. Another equally startling fact brought out by ex-Governor Curtin in the close relation the corporate investments of this country bear to the whole taxable property of the Union. There are \$7,-000,000,000 invested in railroads alone, and the whole taxable property of the country is only \$17,000,000,000. These are grave statements for intelligent citizens of every political faith to consider, and it is not wonderful that, with such a steady and rapid drift to landparty under commander Schley reach: monopoly and concentrated corporate wealth, there is deep and wide spread point of death. They are doing well concern among the productive classes made. There is a happy and confident

incisive and exhaustive review of the issue of land-monopoly and homes for the people, will increase the already general interest felt in the question. They must crystalize public sentiment strongly against the tendency of the last decade that has moved on in stealthy tread, until we find an immense erally making up their minds that a public domain monopolized by corporations and largely by alien investors to hand. They have been pinning considthe exclusion of actual settlers. This erable faith to John Kelly, but present issue goes to the very safety as well as advices indicate that he could not save to the prosperity of the Republic. It them if he would for according to all is in the homes of the land that the accounts the revolt among Republicans, safety of free government rests; and even in the interior counties of New when land-monopoly and imported contract labor come in powerful alliance strength Kelly could under any circumto hinder and paralyze the industry stances command. Furthermore Kelly that makes homes and creates the wealth of the nation, it is time for all to take pause and halt the evil day before it dawns upon the best and happiest people of the earth.—Times.

A Card from Mr. Alexander.

It has been a life-long custom (not. however, without exception) to give members of the Legislature at least two terms. B. F. Hunter and Henry Meyer were duly elected by the Democrats in 1882. They have served but one term. Why should they not be returned? I have watched their record carefully, and I see nothing in it that ought to exclude them or either of them from a re-election. Yet it is reported to me that there is a general deis less-to be trusted than the Republi- sire among Democrats that new men should be taken at this time in order to lican party has nominated a candidate insure success. I do not believe it necessary to insure success. If they reentious Republicans cannot support. ceive the nomination every Democrat No honest Republican would sustain will or should vote for them according his party for such a reason and the hon- to the usages of the party unless he can est Republicans who propose to vote for assign some better reason for not doing so than I have yet heard. But a number of new men are in the field (see announcements in the paper), and I have Leen urged to be one of them. To this request I have uniformly replied that I did not want the office. I have servworthy candidate. Should they help to ed two terms in the House of Reprereward such a candidate by conferring sentatives and two sessions in the Senupon him the highest official honor in ate of the State. I did the best I could the world they could not reasonably ex- to serve the people, and yet I have pect the nomination of a worthier can- found a number who, without understanding the questions, find fault with 28-3m my course. I could not serve everybody according to their diversified might select. The time to defeat unfit views on public questions. Two years ago, according to the custom of the party, I was entitled to and did receive a renomination for a second term in the State Senate, but a combination was made against me which I saw would require more effort to overcome than the honor or the profits of the place would justify, and hence I declined a nomination fairly made, and left the field open to those who opposed me. Now I say to my friends that I have no political debts to pay. Those who op-posed my just and fair nomination I money promptly refunded in eyery inshall not in any manner oppose. As for i stane

myself, I do not seek the office. I believe in the old-time principle that the office should seek the man and not the man the office. This is the only way to prevent a recurrence of the with which it is again threatened. The system of electioneering for positions of public trust is pernicious and destructive to the welfare of the party as well as the public service. The people should select the best men for the place ed with clap-trap to appeal to partisan or regardless of the importunities of candidates or their friends.

The next session of the Legislature will be an important one ; Legislative, Senatorial and Congressional apportionment bills must be passed. Where will al laws? None but men of experience in legislation should be placed on guard of these interests.

As I have said, I do not seek the office, and if I did time and inclination and principle would prevent me makowners, in other words, 10,000,000 of ing a canvass of the county. But if the party in its wisdom thinks that I tf can serve it best, I will feel it my duty to accept the trust.

Your obedient servant. C. T. ALEXANDER.

WASHINGTON LETTER.

WASHINGTON, D. C., July 28, 1884. In the week that has passed since the National Convention adjourned, there has been opportunity to consider its work and estimate the strength of the ticket nominated. It is pretty good evidence that no mistake has been made to find that satisfaction increases daily and that if the convention were to be held over again no change would be feeling among the Democrats of the Capital. Washington is an excellent The extracts we give from Curtin's place to judge the pulse of the nation, because people and politicians of all classes are constantly coming here and the changes in public sentiment are carefully watched by the office-holding population. So far there does not appear to be a solitary crumb of comfort for this class, and they are pretty gen-

> won't'bolt. It is interesting to talk with these excited office-holders and see how nervous they are. It makes them the more wretched because there is so little ground upon which to attack the Democratic ticket and platform, while their own are so effectively assailed. Gov Cleveland's limited experience in officeholding is about the only argument advanced. The sum total of his public service is as Mayor of Buffalo and Governor of New York, says a local Blaine organ. But what rubbish and cant that all is! Take the Presidents forced upon the country for the last sixteen years, and how many of them have had as much qualifying experience? Gen. Grant had absolutely no knowledge of the civil service or of business, yet they gave him two terms and wanted him for a third. Mr. Hayes, who was the smallest man intellectually and backboneically ever placed in such a position, had simply been Governor of Ohio. Yet notwithstanding the great crime by which he was smuggled into the office, his administration was the cleanest the Republican party has given the country. Then there is Chester A. Arthur whose sole public experience be- ted.

So the experience argument falls. Any ! J. L. Spangier. CIPANGLER & HEWES,
