prices for produce. The question arises, "Why we are selling goods so low?" We answer-First, because we bought the stock at a figure which enables us to sell low and still have a reasonable profit. Secondly, we want to make room for an immense fall stoch. Thirdly, because we buy all our goods for cash, and consequently get our goods cheaper than par-ties who buy on credit. We give our customers the benefit of the discounts made by cash purchases and all this together enables us to consistently keep up the reputation of the BARGAIN

-SNAKE STORY .- A correspondent writing from Boonville says:

Last Friday some girls went to the mountain to pick huckleberries. The youngest of the girls seated herself on a large stone to rest, when one of the dogs came sneaking around and happened to see a large copperhead snake. Taking hold of it he pulled it out from under the stone, on which the little girl sat. John Castetter went to their assistance, killing four large copperhead snakes. The largest measured about three feet. The rest were not quite so large. Both dogs were bitten badly, and the little girl had a narrow escape. - Clinton Dem., Aug. 14th.
