sult of the democratic primaries yesterday is the unanimous nomination of Curtin for congress, Potter having declined to run. The returns thus far indicate the nomination of Norris for assembly. Troxell for treasurer and Savage and Brown for commissioners.

Nomination.

THE republicans of the Forty-ninth judicial district have nominated A. O Furst, esq., of Bellefonte, for president judge.

DEMOCRATS, as the campaign ad vances and becomes warmer, do not torget it ! fail to support and work for the whole county ticket. Our candidates have been nominated by the voice of your delegates assembled in convention and it is every good Democrat's duty to abide by the decision of that convention. Besides, the nominees are all National Conventions, the party organs honest and intelligent citizens and eminently worthy of your support. There is no earthly plausible reason, why the county democrecy should not give their candidates the same credit- growth and probable omnipotence in able majority as in former years.

EDITOR TUTEN, of the Bellefonte Republican says he calmly awaits the withdrawal of Governor Cleveland from the National ticket. Well, brother you may wait. Nobody objects.

THE PROHIBITION RACKET.

If anybody thinks that the Prohibitionists are not in earnest in this campaign he is woefully deceived. They were never more determined to engage in a contest 'on their own hook, than now in nearly every State in the Union. The Republican bosses by the aid of the 'magnetic influence,' have succeeded in switching off some of the rank and file in Maine, but that is the only state in which the Prohibition party has been betrayed by its professed adherents. Recent advices affirm that the Republicans are very much alarmed over the strength and energy displayed by the temperence people in the two close states of Ohio and Illinois. The Republican papers are berating and blackguarding the Prohibitionists as roundly as they ar their old enemies the Democrats. But the 'Fanatics' as they are called don't appear to worry very much over the abuse. Indeed, if it has any effect it is to make them more bitter against the Republicans who have deluded them with false hopes for lo, these many years. The Republican policy has always been one of duplicity on the liquor question. That party has invariably played to win both the liquor and prohibition vote; and now there is every indication that at the next election it will receive the punishment which its double-dealing course justly merits. The Prohibition candidate for Governor of Illinois predicts that either himself or Harrison will be elected Governor and that the Republican candidate does not stand the slighest chance of success. The same condition of affairs, it is said, States are doubtful for November .exists in Ohio that prevails in Illinois and the Republicans are likely to be beaten at the October election, in which event, Blaine would abandon

Ex-Governor Curtin's Unanimous sion to England to the ex-Secretary. No doubt the position would be an acceptable one to him, as it would afford him the chance to display his 'devoted loyality to Queen Victoria.' But luck-CLEARFIELD, Pa., Sept. 14 .- The reily for the honor of the country, there is no chance of Blaine's nomination being confirmed if sent to the Senate. He had a chance of making a name for himself by defeating the rights of Ament, but the flunkeyism of the man prevented him from grasping the golden opportunity. He now returns into private life with the consciousness that

he has won the good will of the English government at a price that he will yet regret having paid.

The Western Party Break-Up.

When the Philadelphia Times predicted political revolutions as certain to follow the action of the two Chicago on both sides denounced tha suggestion as entirely unwarranted. That was only two months ago, and to-day the party organs are finally compelled to look revolution in the face and confess its the national contest.

The first broad and manly confession of the revolutionary tendencies of the contest that comes from a party organ, may be found in a leading editorial from the Chicago Inter-Ocean copied in to-day's paper. The Inter-Ocean is one of the ablest and most earnest Republican organs of the West, and in it is finally forced to blurt out the truth, in the face of an incompetent or inefficient National Committee and of the regulation reckless promises of dependent or-

gans. Instead of proclaiming Illinois as safe for the Republicans and painting the

progress of the campaign in glowing colors, the Inter-Ocean is forced to proclaim the truth and summon the party Republican success in Ohio, Illinois, and Kansas.

The party leaders and party organs have assumed that this campaign would be controlled by the same issues and agents that have controlled the strictly party battles of the last quarter

of a century; but they now see, when nearly if not quite too late, the old issues have lost their force, and that new issues, new energies, new batteries and new guns must be brought to the front. However inefficient or incompetent the Republican National Committee may be, it is unfair to hold it responsible for the revolutionary elements of the cam. paign. It is not the lack of Republican management that has made the ite Cordial in time, you could with a Blaine campaign more than doubtful few drops have headed off the attack. within the last four weeks; it is the now clearly visible out-cropping of political peaceful night's rest. Dissatisfied purrevolution, and it will have its way and chasers can have their money refunded. its sway until its work shall be finished. The plain truth that the Republicans must now face is that there is not a certain Blaine State from Ohio to the Northern Lakes and the Pacific Ocean, and why they are doubtful is told in the general revolutionary action of the people. Prohibition and Labor are great factors, but why are they so ? They are the safety valves of wearied party servitude and they become paramount not because they are greater issues than in the past, but because greater issues have served their purpose and perished. Revolution is in the air, and that is why half the Republican

Some democrats do not believe there is such a trade, but most of them himself by deleating the lights of the merican citizens, which had been trampled upon by the English govern-is to be appointed Secretary of the Treasury, with instructions to help Co., Nunda, N. Y. Blaine all that is possible.

The September drouth came too late to be of much injury to the crops, which the Department of Agriculture reports

will be bounteous and of good quality. There will be the largest corn crop eyer known, aggregating 1,800,000,000 bushels. There will be a round billion bushels of wheat and a half a billion bushels of oats. Barley, rye, buckwheat and

potatoes also show up well. The tobacco crop has been injured somewhat

in Virginia by the heat, but further north had been helped by the same cause, so that the crop as a whole will be larger and better in quality than usual. The corresponding crops in Europe, while finer than for several years, are not sufficient to supply local needs. so that there will be a good foreign market for our produce. Finally, the stock on hand is not large, so that the Coburn, Pa., Aug 9th, 1884. market will not be weighed down by the supply. In short, the outlook is very favorable both for the farmer and the consumer. H.

THE republican majority in Maine is now on the decline. We shall prabably have no further reports from Walker Blaine of the Kennebec Journal. The republican plurality has dropped down to 19,709, with eighteen democratic towns to hear from. The republican majority over all is now 15,122. The whole republican vote is 77,779, or 2,-221 less than claimed by James G. Blaine when he fixed it at 80,000. In 1880 the republican vote for governor was 73,597 and in 1876 it was 75,710.

This shows that with all the bargaining, buying, blustering and bullying on the part of Blaine, and with no effort on the part of the democrats to hold leaders to extreme measures to halt the their vote, the republicans in Maine revolution that is gravely threatening have gained but 2,069 votes since 1876 and but 4,182 since 1 880, not any more Michigan, Wisconsin, and even Iowa than their natural increase, considering the fact that the greenback republicans in the state have returned to the

party. A poor showing indeed .--- Patriot. the most complete machines in market IN TIME OF PEACE PREPARE FOR

LAST Saturday's Phila. Times in an editorial on "Party Losses and Gains" makes mention of two new bolters from Blaine and one from Cleveland, and shows the difference of those men. Hamilton Fish. the venerable ex-governor, and Benjamin H. Bristow, ex-secretary of the treasury under Grant, and a prominent candidate for President in 1876, both life-long republicans openly oppose Jas. G. Blaine, declaring their intention to vote for Cleveland. The kicker against Cleveland is an Irish congressman, with dynamite ideas, by the name of John F. Finerty. The Times closes its article with the following moral drawn from the foregoing facts: "The best elements of the Republican party bolt Blaine ; the worst elements whose flunkeyism to England has kill-

What it Said in 1881.

The Irish World opposes Cleveland and supports Blaine. The reason for change of heart is assumed to be a personal grievance against Gov. Cleveland. The editor was fined and imprisoned for slandering Mr. Belmont, and the Governor refused executive elemency in his

case. The editor's real views in regard to Blaine found forcible utterance in 1884 lowing misdeeds that other cities have as follows :

EXIT BLAINE-"HE WILL NEV-ER SIT IN THE PRESIDEN-TIAL CHAIR."

Mr. Blaine has stepped down and out trom the office of Secretary of State. We are glad that Mr. Blaine's Anglo-Americanism will have no longer a chance to display itself in the most important position in the President's cab- that no one here knows anything anet. His disgraceful conduct in the Boynton case stamps him as a man who has no conception of what is due to the dignity of American citizenship. It would have been more to the credit of the United States government if Blaine had resigned before the arrest and imprisonment, without trial, of American citizens residing in Ireland. We understand that the ex-Secretary has still hopes of reaching the object of his life ambition-viz : the Presidency. We feel as certain as we can be of any future event, that JAMES G.BLAINE OF MAINE WILL NEVER SIT IN THE PRES-IDENTIAL CHAIR. He is not the first

Times. An exchange says that "Black Jack

Logan has a bad record in the G. A. R. In 1868 he insisted upon dragging that body into politics, and as a consequence 900 posts in Ohio and Illinois were nearly crushed out of existence. When he saw the organization on the decline, he allowed his name to be dropped for non payment of dues; he was refused re-admission to his own post after

wards, and was black balled when his name was suggested. His swinging around at military reunions would be in singularly bad taste for any one but the swarthy Illinoise senator."

WASHINGTON LETTER.

WASHINGTON, D. C., Sept. 13, 1884. The suicide of Mr. Squier's, the Washington broker, at his home in K street, brings home, with a startling emphasis, the lessons of judgement fol-

been taught. Mr. Squier's death was strikingly like that of President Runyon, of the New Brunswick bank, and both bear the same moral. The only new name mentioned as

likely to succeed Secretary Folger is that of Gen. Sharpe, of New York. It is generally acknowledged, however, bout the President's intention in the matter, and the only reason for con-

necting Gen. Sharpe's name with the Treasury fortfolio arises from the par-

gentleman.

Superior Excellence. The reasons for PERUNA'S superior excellence in all diseases, and its modus operandi, are fully explained in Dr. Hartman's lecture, reported in his book on the "Ills of Life and How to Cure Them," from page I to page 10 though the whole book should be read and studied to get the full value of this par excellent remedy. These books can be had at all the drug stores gratis.

W. D. Williams, U. S. Pension Agent and Notary Public, New Vienna, Clinton County, Ohio, writes: "I take great pleasure in testifying to your medicines. I have used about one bottle and a half, and can say I am almost a new man. Have had the catarrh about twenty years. Before I knew what it was, had settled on the lungs and breast, but can now say I am almost well. Was in the army; could get no medicine there that would relieve me." Col. E. Finger, Ashland, Ohio, writes: "I am happy to say I have used several bottles of your medicine called PERUNA, and my health has been greatly improved by it. I cheerfully recommend PERUNA to all who suffer with heart trouble, as

being an invaluable medicine." Rev. J. M. Ingling, Altamont, Ill., writes: "My father-in-law, who resides writes: with me has been using your PERUNA for kidney disease, which has afflicted him for forty years and could get no relief until he saw your medicine. I induced him to try a bottle, which he did, and the one bottle of PERUNA and one bottle of MAN-ALIN has given him more relief than all the other medicines he ever used."

Mr. Robert Grimes, Rendville, Ohio, writes: "My wife has been an intense sufferer from chronic catarrh, and after every other remedy had failed she com-menced to use your PERUNA and MANA-LIN. They have helped my dear wife more than anything she has ever used. She has now taken two bottles, and is so much better that she will never quit its use until she is entirely well. It has wonderfully improved her sight. We think PERUNA and MANALIN will cure any disease.

R. Palmer, Pastor of the A. M. E. Church, No. 192 Canal Street, Wilkes-barre Luzerne Co., Pa., writes : "Having used your PERUNA, and by experience became acquainted with its value, I write asking you to please send me five bottles of PERUNA and one of MANALIN by express and oblige, your humble servant." Cook Bros., Prospect, Marion County, Ohio, writes: "We have a good trade on PERUMA; our customers speak well of it.

JAS. R. IRWIN, druggist, Curwisville, Pa., writes :
